Look Inside Your Brain:

The Scientific American Day in the Life of Your Brain Judith Horstman, Scientific American, 2009-08-31 Have you ever wondered what's happening in your brain as you go through a typical day and night This fascinating book presents an hour by hour round the clock journal of your brain's activities Drawing on the treasure trove of information from Scientific American and Scientific American Mind magazines as well as original material written specifically for this book Judith Horstman weaves together a compelling description of your brain at work and at play The Scientific American Day in the Life of Your Brain reveals what's going on in there while you sleep and dream how your brain makes memories and forms addictions and why we sometimes make bad decisions The book also offers intriguing information about your emotional brain and what's happening when you're feeling love lust fear and anxiety and how sex drugs and rock and roll tickle the same spots Based on the latest scientific information the book explores your brain's remarkable ability to change how your brain can make new neurons even into old age and why multitasking may be bad for you Your brain is uniquely yours but research is showing many of its day to day cycles are universal This book gives you a look inside your brain and some insights into why you may feel and act as you do The Scientific American Day in the Life of Your Brain is written in the entertaining informative and easy to understand style that fans of Scientific American and Scientific American Mind magazine have come to expect

The Scientific American Book of Love, Sex and the Brain Judith Horstman, Scientific American, 2011-11-15 Who do we love Who loves us And why Is love really a mystery or can neuroscience offer some answers to these age old questions In her third enthralling book about the brain Judith Horstman takes us on a lively tour of our most important sex and love organ and the whole smorgasbord of our many kinds of love from the bonding of parent and child to the passion of erotic love the affectionate love of companionship the role of animals in our lives and the love of God Drawing on the latest neuroscience she explores why and how we are born to love how we're hardwired to crave the companionship of others and how very badly things can go without love Among the findings parental love makes our brain bigger sex and orgasm make it healthier social isolation makes it miserable and although the craving for romantic love can be described as an addiction friendship may actually be the most important loving relationship of your life Based on recent studies and articles culled from the prestigious Scientific American and Scientific American Mind magazines The Scientific American Book of Love Sex and the Brain offers a fascinating look at how the brain controls our loving relationships most intimate moments and our deep and basic need for connection
