Catalog of Copyright Entries Library of Congress. Copyright Office,1978 In the Looking Glass Rebecca K. Shrum,2017-08-30 An utterly fascinating reading of the multiple uses and meanings of mirrors among European Americans African Americans and Native Americans *Journal of Social History* What did it mean Rebecca K Shrum asks for people long accustomed to associating reflective surfaces with ritual and magic to became as familiar with how they looked as they were with the appearance of other people Fragmentary histories tantalize us with how early Americans people of Native European and African descent interacted with mirrors Shrum argues that mirrors became objects through which white men asserted their claims to modernity emphasizing mirrors as fulcrums of truth that enabled them to know and master themselves and their world In claiming that mirrors revealed and substantiated their own enlightenment and rationality white men sought to differentiate how they used mirrors from not only white women but also from Native Americans and African Americans who had long claimed ownership of and the right to determine the meaning of mirrors for themselves Mirrors thus played an important role in the construction of early American racial and gender hierarchies Drawing from archival research as well as archaeological studies probate inventories trade records and visual sources Shrum also assesses extant mirrors in museum collections through a material culture lens Focusing on how mirrors were acquired in America and by whom as well as the profound influence mirrors had both individually and collectively on the groups that embraced them In the Looking Glass is a piece of innovative textual and visual scholarship A superb reflection of the many meanings held by an object usually taken for granted Highly recommended Choice **The Mirrorman** Brian Way,1977 **The Broken Mirror** Katharine A. Phillips,2005 Body dysmorphic disorder or BDD is a disease that causes sufferers to be obsessed by perceived flaws in their appearance In the original edition of The Broken Mirror the first book ever written on the topic of BDD Dr Katharine Phillips brought readers an authoritative and comprehensive guide to this often debilitating illness Like the original this Revised and Expanded Edition draws on Dr Phillips years of clinical practice and scientific research including professional evaluations of approximately 900 individuals with BDD Phillips describes severe cases but also a multitude of milder cases Whereas some sufferers are debilitated by their concerns others are able to function well in society but remain secretly obsessed by their hideous acne or horrible nose sneaking constant peeks at a pocket mirror or spending hours at a time redoing makeup BDD may afflict as much as two percent of the population nearly 6 million people BOOK JACKET *Catalog of Copyright Entries* ,1946 Munsey's Magazine ,1920 **The Complete Resource Book for Toddlers and Twos** Pamela Byrne Schiller,2003 A comprehensive resource book that provides over 2 000 ideas and activities to help toddlers and twos strengthen their cognitive physical and social development through stories music and art **Life As It Happens Devotional** Crawford G. Clark,2024-02-22 As all of us know life has its ups and downs In many ways life truly is a rollercoaster A rollercoaster goes up comes down goes around curves enters the dark at times twists and in some cases goes

backwards I think that using a rollercoaster is a great example that can describe life perfectly How is one able to navigate all the ups and downs twists and turns as well as the darkness that is experienced on occasions The key I believe is a faith in a living God This living God allows Himself to be known through the person of Jesus Christ This devotional is slightly different than most devotionals The devotionals contained in this volume were written over a period of time and as the current events were taking place As you will experience there are numerous events mentioned that were part of our lives some that may be distant to you and some that occurred daily that you may have been somewhat close Since I am a sports junkie you will find several references in this devotional pertaining to sporting events that have taken place Most of the sporting events refer to the teams in Philadelphia Each devotion is two pages in length and is written in a way to help you think about your relationship with God It is my prayer that after completing the reading of this devotional you will find yourself closer to God and understand who He is clearer

Facing the Other: Novel Theories and Methods in Face Perception Research Davide Rivolta,Aina Puce,Mark A Williams,2016-04-08 We rely heavily on faces during social interactions Humans possess the ability to recognise thousands of people very quickly and accurately without effort The serious social difficulties that follow abnormalities of the face recognition system i e prosopagnosia strongly underline the importance of typical face skills in our everyday life Over the last fifty years research on prosopagnosia along with research in the healthy population has provided insights into the cognitive and neural features behind typical face recognition This has also been achieved thanks to non invasive neuroimaging techniques such as functional Magnetic Resonance Imaging fMRI Electroencephalography EEG Magnetoencephalography MEG Diffusion Tensor Imaging DTI and Transcranial Magnetic Stimulation TMS However there is still much debate about the cognitive and neural mechanisms of face perception In the current Research Topic we plan to gather experimental works opinions commentaries mini reviews and reviews that focus on

new or novel theories and methods in face perception research Where is the field at the moment Do we need to re think the experimental procedures we have adopted so far Again what kind of techniques or combination of them and analysis methods will be important in the future From the experimental point of view we encourage both behavioural and neuroimaging contributions e g fMRI EEG MEG DTI and TMS Despite the main emphasis on face perception memory and identification we will also consider original works that focus on other aspects of face processing such as expression recognition attractiveness judgments and face imagery In addition animal investigations and experimental manipulations that alter face recognition abilities in typical human subjects e g hypnosis are also welcome Overall we are proposing a Research Topic that looks at face processing using different perspectives and welcome contributions from different domains such as psychology neurology neuroscience cognitive science and philosophy The current Research Topic evolved over the desire to acknowledge the relatively recent loss of three giants in the field Drs Shlomo Bentin Truett Allison and Andy Calder We dedicate this Research Topic to them and their pioneering studies *Sunclouds* Octavus Roy Cohen,1924 **New York Supreme Court ,**
