Speak So I Shall Know Thee William J. Walsh, 2012-02-29 A R Ammons was asked if he agreed that the United States has not produced a major poet in the last 30 years I agree The poetry in the country has become sort of a company affair where support for the arts has just about ruined the arts and the system of bureaucrats managing the funds being developed here and there is turning into trade unionism which may be the best way to write poetry but it is unfamiliar to me This comprehensive collection contains 31 interviews in which Southern writers talk about their craft the Southern literary scene and themselves Poets short story writers and novelists include firmly established writers side by side with emerging talent Lee Smith James Dickey Harry Crews Pat Conroy Doris Bett Pulitzer Prize winner Donald Justice and 25 others *Instinct for Survival* Pat C. Hoy II, 2012-04 The essays in *Instinct for Survival* explore fundamental ideas about the ties of community the trials and tribulations of family life the sacrificial nature of public service the yearnings of the spirit and the tangled joys of teaching From his childhood in Arkansas to his career as both Army officer and professor of literature Pat Hoy uses his rich experiences as departure points in his quest for meaning In *Mosaics of Southern Masculinity* Hoy recalls his absent father and develops a multilayered inquiry into male identity that includes memories of his own sons and reflections on the ways other southern writers have grappled with father-son relationships *The Spirit Was Willing and So Was the Flesh* stems from Hoy's attempts to come to terms with the feminine aspects of his own personality and with the apparent dichotomy between the spiritual and the physical Hoy toys with his own personal poetics and philosophy of writing in *Conversing with Images* where he articulates the unspoken power of images A fascination with life's mysteries informs these essays which together create a transcendent and marvelous mosaic of life *Arkansas Beer* Brian Sorensen, 2017 Arkansas's booze scene had a promising start with America's biggest brewing families Busch and Lemp investing in Little Rock just prior to Prohibition However by 1915 the state had passed the Newberry Act banning the manufacturing and selling of alcohol It was not until sixty-nine years later that the state welcomed its first post temperance brewery Arkansas Brewing Company After a few false starts brewpubs in Fayetteville Fort Smith and Little Rock found success By 2000 the industry had regained momentum An explosion of breweries around the state has since propelled Arkansas into the modern beer age *Escape Velocity* Charles Portis, 2013-08-27 Collected here in *Escape Velocity* edited by Jay Jennings is his miscellany journalism short fiction memoir and even the play *Delray's New Moon* published for the first time in this volume Portis covers topics as varied as the civil rights movement road tripping in Baja and Elvis's visits to his aging mother for publications such as the New York Herald Tribune and Saturday Evening Post Fans of Portis's droll Southern humor and quirky characters will be thrilled at this new addition to his library and those not yet familiar with his work will find a great introduction to him here Also included are tributes by accomplished authors including Donna Tartt and Ron Rosenbaum **The Jungles of Arkansas** Bob

Clovis Lithic Technology Michael R. Waters, Charlotte D. Pevny, David L. Carlson, Thomas A. Jennings, 2011-10-01 Some 13,000 years ago, humans were drawn repeatedly to a small valley in what is now Central Texas near the banks of Buttermilk Creek. These early hunter-gatherers camped, collected stone and shaped it into a variety of tools they needed to hunt game, process food, and subsist in the Texas wilderness. Their toolkit included bifaces, blades, and deadly spear points. Where they worked, they left thousands of pieces of debris which have allowed archaeologists to reconstruct their methods of tool production. Along with the faunal material that was also discarded in their prehistoric campsite, these stone or lithic artifacts afford a glimpse of human life at the end of the last ice age during an era referred to as Clovis. The area where these people roamed and camped, called the Gault site, is one of the most important Clovis sites in North America. A decade ago, a team from Texas A M University excavated a single area of the site formally named Excavation Area 8 but informally dubbed the Lindsey Pit, which features the densest concentration of Clovis artifacts and the clearest stratigraphy at the Gault site. Some 67,000 lithic artifacts were recovered during fieldwork, along with 5,700 pieces of faunal material. In a thorough synthesis of the evidence from this prehistoric workshop, Michael R. Waters and his coauthors provide the technical data needed to interpret and compare this site with other sites from the same period, illuminating the story of Clovis people in the Buttermilk Creek Valley.
