**Hordes** Leon De Kock, 2012-05-11. A story that could come true tomorrow. When Ishmael Jacobson creates a virus that stops the ageing process in humans and animals alike, chaos could be the only result. Striving towards a dream of eternal life, everybody does what they can to get infected with the virus, even if it means breaking the law. It is up to detective Lindique to try to stop the spread of the virus, but is it too late? Soon the world is filled with people, and every day more and more are born. The ground turns barren, too tired to keep on giving life to billions upon billions of humans who are trying to scrape another morsel of food out of the dust. When there is no more food to eat, there is always the neighbour. In the end, there is only one person who can start the ageing process in humans again, and it is the person who started the whole problem to begin with, coming full circle.
