Victorian Education and the Ideal of Womanhood Joan N. Burstyn, 1980 **Manners and Morals in the Age of Optimism** James Laver, 1966 Progress in Self Psychology, V. 18 Arnold I. Goldberg, 2013-06-17 Postmodern Self Psychology the last volume of the Progress in Self Psychology series under the editorship of Arnold Goldberg charts the path of self psychology into the postmodern era of psychoanalysis It begins with Goldberg s thoughtful consideration of the several tributaries of self psychological thought in the decades after Kohut and continues with Mark Gehrie s elaboration of reflective realism as a self psychological way out of epistemological quagmires about the essential reality of the analytic endeavor Clinical contributions offer contemporary perspectives on clinical themes that engaged Kohut in the 1970s a study of the effect of moments of meeting on systems of pathological accommodation a reappraisal of empathy as a bi directional negation and an assessment of the diverse clinical phenomena that justify a prolonged understanding only phase of treatment The theory section of Volume 18 comparably charts the movement of self psychology toward a postmodern sensibility Contributors reappraise intersubjectivity theory as a contextualist treatment approach consistent with dynamic systems theory return to Kohut s concept of selfobject relationships with special attention to the separate subjective and intersubjective components of selfobject experiences and develop one of Kohut s early ideas into a theory of forward edge transferences that strengthen normal self development In all Volume 18 is a richly insightful progress report on the current status of self psychology and a fitting capstone to Arnold Goldberg s distinguished tenure as editor of the Progress in Self Psychology series **Piano Lessons** Felicity Coombs, Suzanne Gemmell, 1999 Essays on the film *The Piano* **Victorian England 1837-1901** Josef Lewis Altholz, J. L. Altholz, 2002-08-22 This book contains 2 500 bibliographical entries covering most aspects of the history of Victorian England *London 1849* Michael Alpert, 2014-07-10 London 1849 the city is filthy plagued criminal and filling up with refugees from the Irish Famine and the revolutionary wars on the continent but it is on the brink of reform as stations are built rioters pardoned and the Great Exhibition planned The heaving city is the backdrop for the most sensational crime and trial of the decade the Manning murder case Throughout the sticky summer the people of London obsessed over the fate of a dominant mysterious woman and her weak husband as the full detail of their slaughter of her lover unfolded London 1849 follows the murder trial and execution of the couple interweaving the scene that was London at the time crime noise cholera overpacked slums prostitution law and order prisons fashion shopping finance transport Marx and Dickens **The New Cambridge Bibliography of English Literature: Volume 4, 1900-1950** George Watson, I. R. Willison, 1972-12-07 More than fifty specialists have contributed to this new edition of volume 4 of The Cambridge Bibliography of English Literature The design of the original work has established itself so firmly as a workable solution to the immense problems of analysis articulation and coordination that it has been retained in all its essentials for the new

edition The task of the new contributors has been to revise and integrate the lists of 1940 and 1957 to add materials of the following decade to correct and refine the bibliographical details already available and to re shape the whole according to a new series of conventions devised to give greater clarity and consistency to the entries **American Folklore Studies**

Simon J. Bronner,1986 **Richard Wagner and the English** Anne Dzamba Sessa,1979 Wagner was more than a composer he was a cultural phenomenon The author seeks to explain this phenomenon One claim is that Wagner s music dramas served to provide encouragement and inspiration to Victorians struggling with the problems of a changing and challenging era Intellectual developments including the theories of Charles Darwin and the impact of historical scholarship on Biblical studies had struck a severe blow against religious orthodoxy Thus the English strove to retain their inherited or instinctive beliefs and at the same time to accept the conclusions of natural and social science Frustrated by the academic arguments many persons turned to less intellectual substitutes including Wagnerism Almost all of Wagner s plots involve some form of redemption and hunger for the infinite The author also claims that Wagnerism drew on the Victorian need for social justice and points out that just as many Wagnerians sought emancipation from confining materialist philosophies or simply delighted in sexual liberation **Hidden Rivalries in Victorian Fiction**

Jerome Meckier,2021-10-21 Victorian fiction has been read and analyzed from a wide range of perspectives in the past century But how did the novelists themselves read and respond to each other s creations when they first appeared Jerome Meckier answers that intriguing question in this ground breaking study of what he terms the Victorian realism wars Meckier argues that nineteenth century British fiction should be seen as a network of intersecting reactions and counteractions in which the novelists rethought and rewrote each other s novels as a way of enhancing their own credibility In an increasingly relative world thanks to the triumph of a scientific secularity the goal of the novelist was to establish his or her own credentials as a realist hence a reliable social critic by undercutting someone else s usually Charles Dickens s Trollope Mrs Gaskell and especially George Eliot attempted to make room for themselves in the 1850s and 1860s by pushing Dickens aside Wilkie Collins tried a different form of parodic revaluation he strove to outdo Dickens at the kind of novel Dickens thought he did best the kind his other rivals tried to cancel tone down or repair ostensibly for being too melodramatic but actually for expressing too negative a world view For his part Dickens determined to remain inimitable replied to all of his rivals by redoing them as spiritedly as they had reused his characters and situations to make their own statements and to discredit his Thus Meckier redefines Victorian realism as the bravura assertion by a major novelist or one soon to be that he or she was a better realist than Dickens By suggesting the ways Victorian novelist read and rewrote each other s work this innovative study alters present day perceptions of such double purpose novels as Felix Holt Bleak House Middlemarch North and South Hard Times The Woman in White and The Mystery of Edwin Drood **Haute Cuisine**

Amy B. Trubek,2000-12-04 Paris is the culinary centre of the world All the great missionaries of good cookery have gone forth from it and its cuisine was is and ever will be the supreme expression of one of

the greatest arts of the world observed the English author of *The Gourmet Guide to Europe* in 1903 Even today a sophisticated meal expertly prepared and elegantly served must almost by definition be French For a century and a half fine dining the world over has meant French dishes and above all French chefs Despite the growing popularity in the past decade of regional American and international cuisines French terms like julienne saute and chef de cuisine appear on restaurant menus from New Orleans to London to Tokyo and culinary schools still consider the French methods essential for each new generation of chefs Amy Trubek trained as a professional chef at the Cordon Bleu explores the fascinating story of how the traditions of France came to dominate the culinary world One of the first reference works for chefs *Ouverture de Cuisine* written by Lancelot de Casteau and published in 1604 set out rules for the preparation and presentation of food for the nobility Beginning with this guide and the cookbooks that followed French chefs of the seventeenth and eighteenth centuries codified the cuisine of the French aristocracy After the French Revolution the chefs of France found it necessary to move from the homes of the nobility to the public sphere where they were able to build on this foundation of an aesthetic of cooking to make cuisine not only a respected profession but also to make it a French profession French cooks transformed themselves from household servants to masters of the art of fine dining making the cuisine of the French aristocracy the international haute cuisine Eager to prove their good taste the new elites of the Industrial Age and the bourgeoisie competed to hire French chefs in their homes and to entertain at restaurants where French chefs presided over the kitchen Haute Cuisine profiles the great chefs of the nineteenth century including Antonin Careme and Auguste Escoffier and their role in creating a professional class of chefs trained in French principles and techniques as well as their contemporary heirs notably Pierre Franey and Julia Child The French influence on the world of cuisine and culture is a story of food as status symbol Tell me what you eat the great gastronome Brillat Savarin wrote and I will tell you who you are Haute Cuisine shows us how our tastes desires and history come together at a common table of appreciation for the French empire of food Bon appetit

Sherlock's Sisters Joseph A. Kestner, 2017-03-02 *Sherlock's Sisters* The British Female Detective 1864 1913 examines the fictional female detective in Victorian and Edwardian literature This character originating in the 1860s configures a new representation of women in narratives of the nineteenth and twentieth centuries This analysis explores female empowerment through professional unofficial or official detection especially as this surveillance illuminates legal moral gendered institutional criminal punitive judicial political and familial practices This book considers a range of literary texts by both female and male writers which concentrate on detection by women particularly those which followed the creation of Sherlock Holmes by Arthur Conan Doyle in 1887 Cultural movements such as the emergence of the New Woman property law or suffragism are stressed in the exploits of these resourceful investigators These daring women deal with a range of crimes including murder blackmail terrorism forgery theft sexual harassment embezzlement fraud impersonation and domestic violence Privileging the exercise of reason rather than intuition these women detectives are proto feminist in their

demonstration of women's independence. Instead of being under the law, these women transform it. Their investigations are given particular edge because many of the perpetrators of these crimes are women. Sherlock's Sisters probes many texts which, because of their rarity, have been under-researched. Writers such as Beatrice Heron Maxwell, Emmuska Orczy, L. T. Meade, Catherine Pirkis, Fergus Hume, Grant Allen, Leonard Merrick, Marie Belloc Lowndes, George Sims, McDonnell Bodkin, and Richard Marsh are here incorporated into the canon of Victorian and Edwardian literature, many for the first time. A writer such as Mary Elizabeth Braddon is reassessed through a neglected novel. The book includes works by Irish and Australian writers to present an inclusive array of British texts. Sherlock's Sisters enlarges the perception of emerging female empowerment during the nineteenth century, filling an important gap in the fields of Gender Studies, Law, Literature, and Popular Culture. *Routledge Library Editions: Education 1800-1926* Various Authors, 2022-07-30. This set of 14 volumes, originally published between 1932 and 1995, amalgamates several topics on the history of education between the years 1800 and 1926, including women and education, education and the working class, and the history of universities in the United Kingdom. This set also includes titles that focus on key figures in education, such as Samuel Wilderspin, Georg Kerschensteiner, and Edward Thring. This collection of books from some of the leading scholars in the field provides a comprehensive overview of the subject and will be of particular interest to students of history, education, and those undertaking teaching qualifications.

Portrait of a City Bruce F. Pauley, 2023. Once just a scattering of houses on the open prairie by the late nineteenth century, the city of Lincoln, Nebraska, had evolved into a modern metropolis. The changes ushered in by the Industrial Revolution and an increase in machine labor affected all aspects of daily life: housework, transportation, education, entertainment, fashion, and medicine, changing lives drastically in little more than a single generation. Lincolniters moved beyond simply growing a new city; many also wanted to help create a more enlightened society. By 1910, the city had become a booming political, educational, and cultural center on the Great Plains, with three denominational colleges and a state university with a national reputation for academic excellence. In *Portrait of a City*, Bruce F. Pauley highlights his hometown of Lincoln, Nebraska, during a period of rapid social and technological change between the 1890s and 1920s. Pauley examines a multitude of important aspects of daily life, including the modernization of homes, public and private transportation, education, the status of women, and entertainment. He also addresses the challenges of life during this time, like the loss of civil liberties during World War I. Pauley's descriptions and stories allow readers a glimpse into everyday life in Lincoln at the turn of the century. Posterity Lost Richard T. Gill, 1997. Gill invites readers to consider a very large proposition: that the weakening of the family in Western societies is inextricably linked to the weakening of our faith in the idea of progress. *Posterity Lost* will be one of the most influential treatments of family change of this decade, says Norval Glenn, *American Journal of Sociology*. The Idea Of Race Michael Banton, 2019-07-16. This book deals with the study of race relations as a general body of knowledge which tries to bring together in a common framework studies of group relations in different countries. It explores the intellectual context

within which the old conception of race relations arose **Crowned in a Far Country** Princess Michael (of Kent), 2007-02-06 This international bestseller profiles eight of Europe's most famous royal brides from the author of *The Serpent and the Moon* and *Cupid and the King* 16 page photo insert Women in English Social History, 1800-1914 Barbara Kanner, 1990 *Sex, Religion, Media* Dane S. Claussen, 2002-10-16 Each chapter in this unique volume explores intersections of sex religion and media in our society An interdisciplinary cast of contributors examines a wide variety of themes including entertainment producers roles in disseminating sexual and religious content news coverage of stories about sex and religion religious conservatives efforts to influence media coverage of sex and values and how religious consumers are influenced by and react to sexual content in media
