Teaching Spirits Joseph Epes Brown,2010-03-12 Teaching Spirits offers a thematic approach to Native American religious traditions Through years of living with and learning about Native traditions across the continent Joseph Epes Brown learned firsthand of the great diversity of the North American Indian cultures Yet within this great multiplicity he also noticed certain common themes that resonate within many Native traditions These themes include a shared sense of time as cyclical rather than linear a belief that landscapes are inhabited by spirits a rich oral tradition visual arts that emphasize the process of creation a reciprocal relationship with the natural world and the rituals that tie these themes together Brown illustrates each of these themes with in depth explorations of specific native cultures including Lakota Navajo Apache Koyukon and Ojibwe Brown was one of the first scholars to recognize that Native religions rather than being relics of the past are vital traditions that tribal members shape and adapt to meet both timeless and contemporary needs Teaching Spirits reflects this view using examples from the present as well as the past For instance

when writing about Plains rituals he describes not only building an impromptu sweat lodge in a Denver hotel room with Black Elk in the 1940s but also the struggles of present day Crow tribal members to balance Sun Dances and vision quests with nine to five jobs In this groundbreaking work Brown suggests that Native American traditions demonstrate how all components of a culture can be interconnected how the presence of the sacred can permeate all lifeways to such a degree that what we call religion is integrated into all of life s activities Throughout the book Brown draws on his extensive personal experience with Black Elk who came to symbolize for many the richness of the imperiled native cultures This volume brings to life the themes that resonate at the heart of Native American religious traditions

Real Indians Eva Marie Garrouette,2003-07-31 In discussing a wide array of legal biological and sociocultural definitions Eva Garrouette documents how these have frequently been manipulated by the federal government by tribal officials and by Indian and non Indian individuals to gain political social or economic advantage Whether or not one agrees with her solutions anyone seriously concerned with contemporary American Indian issues should read this book Garrick Bailey editor of The Osage and the Invisible World Real Indians is a remarkably candid engaging and compelling book It tells the important and often controversial story of how Indian ness is negotiated in American culture by indigenous peoples policy makers and scholars Robert Wuthnow author of Creative Spirituality Eva Marie Garrouette has done an exemplary job of combining scholarly sources personal accounts interview data and self reflection to catalog and examine the ways in which individual and collective identities are asserted negotiated and revitalized She invites readers to imagine an intellectual space where scholarly and traditional ways of knowing and telling come face to face in an epistemological landscape where the traditions of social science and radical indigenism can confront one another in constructive dialogue Joane Nagel author of Race Ethnicity and Sexuality

Red Pedagogy Sandy Grande,2015-09-28 This ground breaking text explores the intersection between dominant modes of critical educational theory and the socio political landscape of American Indian education Grande asserts that with few exceptions the matters of Indigenous people and Indian education have been either largely ignored or indiscriminately absorbed within critical theories of education Furthermore American Indian scholars and

educators have largely resisted engagement with critical educational theory tending to concentrate instead on the production of historical monographs ethnographic studies tribally centered curricula and site based research Such a focus stems from the fact that most American Indian scholars feel compelled to address the socio economic urgencies of their own communities against which engagement in abstract theory appears to be a luxury of the academic elite While the author acknowledges the dire need for practical community based research she maintains that the global encroachment on Indigenous lands resources cultures and communities points to the equally urgent need to develop transcendent theories of decolonization and to build broad based coalitions

Original Sins Eve L. Ewing, 2025-02-11 A fascinating and eye opening look at how American schools have helped build and reinforce an infrastructure of racial inequality a must read for every American parent and educator Esquire Most Anticipated Books of 2025 Though the argument of this book is bleak it illuminates a path for a more just future that is nothing short of dazzling Oprah Daily Most Anticipated Books of 2025 This book will transform the way you see this country Michelle Alexander author of The New Jim Crow If all children could just get an education the logic goes they would have the same opportunities later in life But this historical tour de force makes it clear that the opposite is true The U S school system has played an instrumental role in creating and upholding racial hierarchies preparing children to expect unequal treatment throughout their lives In Original Sins Ewing demonstrates that our schools were designed to propagate the idea of white intellectual superiority to civilize Native students and to prepare Black students for menial labor Education was not an afterthought for the Founding Fathers it was envisioned by Thomas Jefferson as an institution that would fortify

the country's racial hierarchy Ewing argues that these dynamics persist in a curriculum that continues to minimize the horrors of American history The most insidious aspects of this system fall below the radar in the forms of standardized testing academic tracking disciplinary policies and uneven access to resources By demonstrating that it's in the DNA of American schools to serve as an effective and underacknowledged mechanism maintaining inequality in this country today Ewing makes the case that we need a profound reevaluation of what schools are supposed to do and for whom This book will change the way people understand the place we send our children for eight hours a day
