Tales from the Frozen Ocean Dwain Campbell,1999 **Ojibway Tales** Basil Johnston,1993-01-01 The Ojibway Indians sense of humor sparkles through these stories set on the fictional Moose Meat Point Indian Reserve connected by a dirt road to the town of Blunder Bay If some of them seem farfetched and even implausible Basil L Johnston writes it is simply because human beings very often act and conduct their affairs and those of others in an absurd manner These twenty two stories were originally collected under the title Moose Meat and Wild Rice Among the most memorable of the stories is They Don t Want No Indians in which all attempts are made to circumvent bureaucratic red tape and transport a dead Indian to his home for burial One of the funniest is Indian Smart Moose Smart which pits a moose in a lake against six Moose Meaters in two canoes If You Want to Play and Secular Revenge are the result of misunderstanding or imperfect communication Still other stories like What Is Sin and The Kiss and the Moonshine reveal the clash of different cultural approaches All show the warm heartedness and good will of the Ojibway Indians If they are gently satirized so are the whites who would change them and with good reason Government ineptitude and rigid piety are foisted on the Moose Meaters who have only thirty thousand acres to move around in **MOOSE ON THE LOOSE** Diane Skinner,Audrey Saunders,2016-01-01 Discover the facts about

The Transmission of Kapsiki-Higi Folktales over Two Generations Walter E.A. van Beek, 2016-11-03 This study on Kapsiki Higi tales compares two corpuses of stories collected over two generations In this oral setting folktales appear much more dynamic than usually assumed depending on genre performance and the memory characteristics of the tales themselves In northeastern Nigeria the author collected these tales twice with a time gap of two generations in order to assess the dynamics of this oral transmission The comparison between the two corpuses shows that folktales are a much more dynamic cultural system than is usually thought These dynamics affect some types of tales more than others reflect social change and intergroup contact but also depend on characteristics of the tales themselves Cognitive approaches of memory shed light on these varieties of transmission as do performance aspects in tale telling in particular ideophones
