Perspectives on Assessment and Evaluation in International Schools Jeff Thompson, Mary

Hayden,2018-07-30 Assessment and evaluation are two concepts at the core of schooling which are also central to other forms of education worldwide In an international context assessment and evaluation data are increasingly widely used for accountability and quality assurance purposes at individual student institutional national and global levels This book does not attempt to include consideration of all the issues that could possibly be covered in a title that addresses assessment and evaluation in education internationally Nor has it set out to cover the myriad technical issues with which assessment and evaluation are inevitably concerned Rather a number of authors working within different contexts of international education whether as teachers or leaders in international schools administrators in international examination bodies or researchers in international educational research organisations have been invited to share ideas arising from their own experiences of what might be interpreted as assessment or evaluation be that assessment of student achievement evaluation of teacher effectiveness or evaluation of school quality The international dimension presents a range of challenges to those with responsibility for implementing assessment and evaluation strategies in widely diverse linguistic cultural social and personal contexts and in this book valuable contributions are shared by colleagues who are authorities in the field It is their personal views on assessment and evaluation derived from professional practice in the international sphere that have been brought together here

Disaffection with School Mathematics Gareth Lewis,2015-12-17 Young peoples disaffection with mathematics is a problem since it is a key factor in disengagement lack of participation progression and attainment Large numbers of young people are becoming effectively lost to mathematics with the result that too many young people are leaving education without the competence in mathematics that they require for successful citizenship Disaffection with School Mathematics reports on an investigation into disaffection with school mathematics undertaken by the author Too little is known about both the nature and the causes of disaffection and in this light the research looks beyond the quantitative study of attitude to investigate the nature of the subjective experience of learning or not learning mathematics Disaffection with school mathematics is characterized as a motivational and emotional phenomenon and Reversal Theory is introduced as a robust theory which is used as an interpretative framework to account for students affective experience of school mathematics and to inform the design of a range of novel methods Overall the book develops and presents a deep description of the landscape of disaffection as experienced by and in the voice of students Some empirical and theoretical implications of the study are discussed

Positive Psychology Alan Carr, 2013-09-05 Remediating deficits and managing disabilities has been a central preoccupation for clinical psychologists Positive Psychology in contrast is concerned with the enhancement of happiness and well being involving the scientific study of the role of personal strengths and positive social systems in the promotion of optimal wellbeing Alan Carr s Positive Psychology has become essential reading for anyone requiring a thorough and accessible introduction to the field This new edition retains all the features that made the first edition so popular including accounts of major theories and relevant research learning objectives chapter summaries research and personal development questions suggestions for further reading measures for use in research glossaries of new terms The book has also been completely updated to take account of recent research and major advances and includes a new chapter on Positive Psychotherapy an extended account of research on character strengths and virtues and a discussion of recent ground breaking research on emotional intelligence This new edition of Positive Psychology

will prove a valuable resource for psychology students and lecturers as well as those involved in postgraduate training in related areas such as clinical psychology social work counselling and psychotherapy *Irony and Outrage* Dannagal Goldthwaite Young,2020 This text explores the aesthetics underlying logics and histories of two seemingly distinct genres liberal political satire and conservative opinion talk making the case that they should be thought of as the logical extensions of the psychology of the left and right respectively Motivation, Emotion, and Cognition David Yun Dai,Robert J. Sternberg,2004-07-13 The central argument of this book is that cognition is not the whole story in understanding intellectual functioning and development To account for inter individual intra individual and developmental variability in actual intellectual performance it is necessary to treat cognition emotion and motivation as inextricably related Motivation Emotion and Cognition Integrative Perspectives on Intellectual Functioning and Development represents a new direction in theory and research on intellectual functioning and development portrays human intelligence as fundamentally constrained by biology and adaptive needs but modulated by social and cultural forces and encompasses and integrates a broad range of scientific findings and advances from cognitive and affective neurosciences to cultural psychology addressing fundamental issues of individual differences developmental variability and cross cultural differences with respect to intellectual functioning and development By presenting current knowledge regarding integrated understanding of intellectual functioning and development this volume promotes exchanges among researchers concerned with provoking new ideas for research and provides educators and other practitioners with a framework that will enrich understanding and guide practice Entertainment Media and Communication Nicholas David Bowman,2024-10-21 Although not considered a formal area of study scholarship on the uses content and effects of entertaining media has been central to communication studies and related fields for more than a century The serious study of entertainment seems paradoxical as we presume entertainment to be the lighter side of our daily lives Yet as revealed in this volume entertainment media serve as cultural artifacts that shape our understandings of various peoples and publics in ways that invite deeper immersive and increasingly interactive engagement On this backdrop Entertainment Media and Communication serves as a reference guide for canonical and foundational research into media entertainment and a collection of emerging and updated theories and models core to the study of media entertainment in the 21st century Across more than forty chapters and with a diverse and inclusive list of authors this volume provides a broad yet nuanced view into entertainment media and communication scholarship The contributors explore its foundations define and extend key concepts and theories through myriad lenses discuss unique considerations of digital media and divine future paths for scholarly inquiry **The Self and Others** Rom Harré,Fathali M. Moghaddam,2003-11-30 This volume focuses on relations between the self and other individuals the self and groups and the self and context Leading scholars in the field of positioning theory present the newest developments from this field on human social relations The discussion is international multidisciplinary and multi method aiming to achieve a more dynamic and

powerful account of human social relations and to break disciplinary boundaries Four features in this work are prominent The book is culturally oriented and international There is a push to move across disciplines particularly across psychology and linguistics and psychology and microsociology There is a focus on language and social construction of the world through discourse Finally the book represents a multi method approach that reflects discursive methods *Hatred* Berit Brogaard,2020-10-16 The first in depth philosophical analysis of personal hate and group hate *Hatred Understanding Our Most Dangerous Emotion* explores how personal hatred can foster domestic violence and emotional abuse how hate proneness is a main contributor to the aggressive tendencies of borderlines narcissists and psychopaths how seemingly ordinary people embark on some of history s worst hate crimes and how cohesive groups subjected to spontaneous forces of group polarization can develop extremist viewpoints of the sort that motivate hate crimes mass shootings and terrorism

The Psychology of Humor Rod A. Martin,Thomas Ford,2018-07-14 Most of us laugh at something funny multiple times during a typical day Humor serves multiple purposes and although there is a sizable and expanding research literature on the subject the research is spread in a variety of disciplines *The Psychology of Humor 2e* reviews the literature integrating research from across subdisciplines in psychology as well as related fields such as anthropology biology computer science linguistics sociology and more This book begins by defining humor and presenting theories of humor Later chapters cover cognitive processes involved in humor and the effects of humor on cognition Individual differences in personality and humor are identified as well as the physiology of humor the social functions of humor and how humor develops and changes over the lifespan This book concludes noting the association of humor with physical and mental health and outlines applications of humor use in psychotherapy education and the workplace In addition to being fully updated with recent research the second edition includes a variety of new materials More graphs tables and figures now illustrate concepts processes and theories It provides new brief interviews with prominent humor scholars via text boxes The end of each chapter now includes a list of key concepts critical thinking questions and a list of resources for further reading Covers research on humor and laughter in every area of psychology Integrates research findings into a coherent conceptual framework Includes brain imaging studies evolutionary models and animal research Integrates related information from sociology linguistics neuroscience and anthropology Explores applications of humor in psychotherapy education and the workplace Provides new research plus key concepts and chapter summaries **Personal Project Pursuit** Brian R. Little,Katariina Salmela-Aro,Susan D.

Phillips,2017-09-25 *Personal Project Pursuit* is the first book to feature Brian Little s highly respected personal projects analysis PPA one of the pioneering theories in contemporary personality and motivational psychology The book examines both the internal and external dynamics of personal goals and projects and clearly demonstrates that human flourishing is enhanced when individuals are engaged in the pursuit of personal projects The book opens with the theory and methodologies of personal projects research The historical perspective on the development of the two dominant research

perspectives from personality and developmental psychology is explored Section II examines the internal dynamics and competing demands of goal formulation and project inception The third part accentuates the role that social ecologies play in shaping the nature and outcomes of personal projects These chapters highlight the importance of interpersonal relationships organizational contexts and the societal and cultural expectations in affecting the pursuit of personal projects Ideas for orchestrating the environment to enhance human flourishing are explored Section IV demonstrates how personal projects can illuminate and enhance human flourishing from psychological well being to physical health The book concludes with applications for enhancing human flourishing from individual counseling to public policy Personal Project Pursuit is intended for advanced students researchers and practitioners in personality social developmental industrial organizational health environmental clinical and counseling psychology interested in motivation and well being An excellent supplemental text for courses on personality motivation positive psychology well being personal and life span development the book s applied focus will appeal to counselors and rehabilitation occupational therapists **The Transforming Leader** Carol S.

Pearson,2012-06-04 No organizational leaders can succeed in today s fast evolving and highly connected world on their own To succeed today s leaders must not only optimize all their own faculties mental sharpness emotional depth imagination and creativity but also utilize the full capacities of those around them in a collaborative and creative manner The prestigious contributors to this volume draw on psychology sociology neuroscience social networking theory organizational change theory myths and traditions and actual experiences to discover how leaders today achieve transformational results The Transforming Leader offers an overview of what transformational leadership is how it works and how it is evolving In doing so it reframes the challenge of leading in today s interdependent unpredictable world
