David Slocum, 2023-04-28 Discussing such classic films as Sergeant York Air Force and All Quiet on the Western Front as well as more modern blockbusters like Apocalypse Now and Saving Private Ryan this outstanding volume focuses on Hollywood and its production of war films Topics covered include the early formation of war cinema the apotheosis of the Hollywood war film the ascendancy of ambivalence Hollywood and the war since Vietnam war as a way of seeing For any student of film studies or American cultural studies this is a valuable companion Movies at War War Activities Committee--Motion Picture Industry, 1946 *The Big Tomorrow* Lary May, 2000-06-21 In this daring reexamination of the connections between national politics and Hollywood movies Lary May offers a fresh interpretation of American culture from the New Deal through the Cold War one in which a populist egalitarian ethos found itself eventually supplanted by a far different view of the nation One of the best books ever written about the movies Tom Ryan *The Age* The most exhilarating work of revisionist film history since Pauline Kael's *Citizen Kane* May's take on what movies once were energizing as opposed to enervating and hence can become again is enough to get you believing in them again as one of the regenerative forces America so sorely needs Jay Carr *Boston Globe* A startling revisionist history of Hollywood's impact on politics and American culture A convincing and important addition to American cultural criticism Publishers Weekly A controversial overview of 30 years of American film history must reading for any serious student of the subject Choice A provocative social history of Hollywood's influence in American life from the 1930s to the 1950s May argues persuasively that movies in the period offered a good deal of tough criticism of economic and social conditions in U S society May challenges us to engage in some serious rethinking about Hollywood's impact on American society in the middle of the twentieth century Robert Brent Toplin *American Historical Review* Film Noir Ian Brookes, 2017-03-09 What is film noir With its archetypal femme fatale and private eye its darkly lit scenes and even darker narratives the answer can seem obvious enough But as Ian Brookes shows in this new study the answer is a lot more complex than that This book is designed to tackle those complexities in a critical introduction that takes into account the problems of straightforward definition and classification Students will benefit from an accessible introductory text that is not just an account of what film noir is but also an interrogation of the ways in which the term came to be applied to a disparate group of American films of the 1940s and 1950s Sex, Bombs, and Burgers Peter
