Adult Development, Therapy, and Culture Gerald D. Young,2013-06-29 This volume proposes a theoretical integration of several major streams in contemporary psychological theory about adult development and therapy It adopts the perspective that there are steps in development throughout the adult period and that they are characterized by a union of the cognitive and affective the self and the other and idea with idea in second order collective abstractions That is they are at once postformal in terms of Piaget's theory sociocultural in terms of Vygotsky's theory and postmodern with the latter perspective providing an integrating theme The affirmative multivoiced contextual relational other sensitive side

of postmodernism is emphasized. Levinas's philosophy of responsibility for the other is seen as congruent with this ethos. The neopiagetian model of development on which the current approach is based proposes that the last stage in development concerns collective intelligence or postmodern postformal thought. Kegan (1994) has attempted independently to describe adult development from the same perspective. His work on the development of the postmodern mind of the adult is groundbreaking and impressive in its depth. However, I analyze the limitations as well as the contributions of his approach under scoring the advantages of my particular model.

Female Sexual Abuse of Children Michele Elliott, 1994-05-02 This courageous and powerful book is a first step in addressing the secrecy, distress, anger and fear surrounding female sexual abuse of children. Refuting the rationales for our lack of attention to the problem and contradicting some commonly held beliefs about sexual abuse, it combines accounts from survivors with input from professionals working with both survivors and abusers. Part I presents contributions from professionals who discuss aspects of female sexual abuse ranging from impact and treatment issues for victims of childhood sexual abuse by female perpetrators to the paradox of women who sexually abuse children. The second part is devoted to survivors; it presents stories from both men and women, then provides self-help guidelines for both. The book concludes with a valuable section on resources which includes a review of the existing literature on female child molestation as well as a listing of pertinent books and help organizations.

FEMALE SEXUAL ABUSE OF CHILDREN also addresses the controversial issue of current statistics that show that female sexual abuse is very rare and the question of whether it is being underreported due to fear from survivors that they will not be believed or supported. Regardless of the true magnitude of this problem, secrecy or denial about any aspect of child abuse must be avoided. Whatever future studies may show about this problem, it will not diminish this book's importance in taking the step of exploring this issue.

Spirituality: A Life Force Christine A. Adams, 2019-07-05 Spirituality: A Life Force details a journey from the material world of the ego to the world of the spiritual. It shows how the new awareness of oneself as a child of God can produce profound change in your life. Relationships can change from being dominated by self-interest and ego to relationships with spiritual purpose and function. Spiritual healing happens as spiritual solutions are sought. Spirituality: A Life Force opens up the possibility of a new view of life, a new view of yourself living not as a child of this world but with the life force of spirituality, living as a child of God.
