Macpherson** William Leiss, 2009-04-01 Focusing on two key themes property and the state Leiss tracks Macpherson's analysis of the contradictions of liberal democracy through all of his writings beginning with his 1935 M A thesis supervised by Harold Laski at LSE His concluding chapter critically examines the core of Macpherson's political philosophy the distinction between extractive and developmental powers against the background of social change in the democracies of the West in the period since the end of the Second World War *The Tragedy of Liberation* Frank Dikötter, 2013-01-01 In 1949 Mao Zedong hoisted the red flag over Beijing's Forbidden City Instead of liberating the country the communists destroyed the old order and replaced it with a repressive system that would dominate every aspect of Chinese life In an epic of revolution and violence which draws on newly opened party archives interviews and memoirs Frank Dikötter interweaves the stories of millions of ordinary people with the brutal politics of Mao's court A gripping account of how people from all walks of life were caught up in a tragedy that sent at least five million civilians to their deaths [Institute of Pacific Relations](#) United States. Congress. Senate. Committee on the Judiciary. Subcommittee to Investigate the Administration of the Internal Security Act and Other Internal Security Laws, 1951 Investigates alleged communist control of the publications and international information exchange programs of the Institute of Pacific Relations Also investigates alleged communist attempts to influence U S Far East policy Includes discussion of Communist Party activities in Nazi Germany *Model Workers in China, 1949-1965* James Farley, 2019-06-04 Seismic changes in ideology and economic policy in China followed the death of Mao Zedong but one aspect of culture has remained constant the use of Model Workers for the purposes of propaganda and more recent public relations campaigns In both a political and commercial context the use of these individuals continues to thrive and although the messages they promote have largely changed their continued use indicates the extent to which they are believed to be an effective form of persuasion Model Workers were deployed at key points in China's recent history and served to embody the Party's vision of the ideal Chinese citizen as they attempted to reshape the nation following a Century of Humiliation a ruinous war with Japan and a divisive civil war This volume utilises the detailed analysis of posters cinema and translations of related propaganda material to explore the extent of the influence of the Model Worker as a concept on both propaganda and national policy **The European Union and China** Thomas Christiansen, Emil Kirchner, Uwe Wissenbach, 2018-12-12 This accessible text offers a comprehensive analysis of the European Union EU China relationship as one of the most important in global politics today Both are major players on the

world stage accounting for 30% of trade and nearly a quarter of the world's population. This text shows how despite many differences in political systems and values, China and the EU have developed such a close regular set of interactions at multiple levels from political strategic to economic and individual. The authors start with an historical overview of the domestic politics and foreign policy apparatus of each partner to show the context in which external relations are devised. From this foundation, each key dimension of the relationship is analysed from trade and monetary policy, security, culture and society. The authors show the relative merits of different theoretical perspectives and outline what is next for this complex ever-changing relationship. At every step, the success of each partner in persuading the other of changing their positions for key strategic interests is explored. What emerges is a multifaceted picture of relations between two sides that are fundamentally different kinds of actors in the international system yet have many mutual interests and a common stake in the stability of global governance. The first major text to offer an accessible introduction to the multifaceted nature of EU-China relations, this book is an ideal companion for upper undergraduate and postgraduate students on Politics, International Relations and European Studies courses.

Rhetoric of the Chinese Cultural Revolution Xing Lu, 2020-08-05 A startling look at revolutionary rhetoric and its effects. Now known to the Chinese as the ten years of chaos, the Chinese Cultural Revolution 1966-76 brought death to thousands of Chinese and persecution to millions. In *Rhetoric of the Chinese Cultural Revolution*, Xing Lu identifies the rhetorical practices and persuasive effects of the polarizing political language and symbolic practices used by Communist Party leaders to legitimize their use of power and violence to dehumanize people identified as class enemies. Lu provides close readings of the movement's primary texts: political slogans, official propaganda, wall posters and the lyrics of mass songs and model operas. She also scrutinizes such ritualistic practices as the loyalty dance, denunciation rallies, political study sessions and criticism and self-criticism meetings. Lu enriches her rhetorical analyses of these texts with her own story and that of her family as well as with interviews conducted in China and the United States with individuals who experienced the Cultural Revolution during their teenage years. In her new preface, Lu expresses deep concern about recent nationalism, xenophobia, divisiveness and violence instigated by the rhetoric of hatred and fear in the United States and across the globe. She hopes that by illuminating the way language shapes perception, thought and behavior, this book will serve as a reminder of past mistakes so that we may avoid repeating them in the future.

Symposium on Chinese Historical Geography Renzhi Hou, 2014-11-21 This book represents the most important academic achievements won by Dr Renzhi Hou, one of the founding fathers and pioneering researchers in the modern historical geography of China. His collected papers and speeches spanning from the 1940s to the 1990s serve as a window into Hou's academic experience as well as the development of the historical geography of China during the second half of the 20th century. Dr Hou has made his greatest contributions mainly in two areas: namely urban historical geography and desert historical geography. Roughly a quarter of this book is devoted to the former and above all to the study of Beijing's historical geography and its influence on urban

planning It is worth noting that From Beijing to Washington A Contemplation on the Concept of Municipal Planning presented here is the only historical geography based comparative study of a Chinese city and a Western one by a Chinese scholar Dr Hou s studies on desert historical geography have garnered him a prominent reputation in the natural sciences academia Ancient City Ruins in the Deserts of the Inner Mongolia Autonomous Region of China also included here can be considered a masterwork Moreover many of his original thoughts on some interesting topics can also be found in this book such as the communication between China and Africa in ancient times and the rediscovery of the value of geographical classics in the modern context **William Empson, Volume II** John Haffenden,2006-11-02 William Empson 1906 1984 was the foremost English literary critic of the twentieth century His public life and travels took him through many of the major events of the modern world This compelling account is the second of two volumes exploring his remarkable life and work

Dictators Frank Dikötter,2020-07-09 A New Statesman Financial Times and Economist Book of the Year Brilliant NEW STATESMAN BOOKS OF THE YEAR Enlightening and a good read SPECTATOR Moving and perceptive NEW STATESMAN Mussolini Hitler Stalin Mao Zedong Kim Il sung Ceausescu Mengistu of Ethiopia and Duvalier of Haiti No dictator can rule through fear and violence alone Naked power can be grabbed and held temporarily but it never suffices in the long term A tyrant who can compel his own people to acclaim him will last longer The paradox of the modern dictator is that he must create the illusion of popular support Throughout the twentieth century hundreds of millions of people were condemned to enthusiasm obliged to hail their leaders even as they were herded down the road to serfdom In Dictators Frank Dikötter returns to eight of the most chillingly effective personality cults of the twentieth century From carefully choreographed parades to the deliberate cultivation of a shroud of mystery through iron censorship these dictators ceaselessly worked on their own image and encouraged the population at large to glorify them At a time when democracy is in retreat are we seeing a revival of the same techniques among some of today s world leaders This timely study told with great narrative verve examines how a cult takes hold grows and sustains itself It places the cult of personality where it belongs at the very heart of tyranny **American Editor in Early Revolutionary China** Neil O'Brien,2004-03 This is a study of Sino American

relations and the editorial policy of the China Weekly Review China Monthly Review published in Shanghai by John William Powell during the Chinese Civil War and the Korean War The Review supported US attempts in early 1946 to avert civil war through the creation of a coalition government By 1947 it reflected growing disillusionment with Guomindang policies and increasing sympathy for the demands of impoverished students and faculty for multi party democracy and peace As the Civil War shifted in favour of the Communists in late 1948 Powell and the Review counseled US businessmen to remain in Shanghai and urged the US government to establish working relations with the Communists and later to recognize the new regime Staying in Shanghai to report changes engendered by the Communist victory the Review s staff accomodated themselves to the new orthodoxy and to the regime s coordination of the press During the Korean War the Review opposed

the expanding US air war becoming the foremost American purveyor of Chinese and North Korean allegations of American use of bacteriological weapons The Review was also utilized for the political indoctrination of US prisoners of war by the Chinese and North Koreans After closing the Review in July 1953 and returning to the United States Powell his wife Sylvia Campbell and assistant editor Julian Schuman were put on trial for sedition As the government narrowed its focus to the bacteriological warfare issue Powell and his lawyers countered by trying to prove the veracity of the charges seeking witnesses in China and North Korea Adverse publicity led to a mistrial in January 1959 and limitations in both the sedition and treason statutes ended plans to renew prosecution Powell and the Review had insisted that positive diplomatic and economic relations between China and the United States were both possible and desirable The gradual normalization of trade investment and political relations since the 1970s seemed to validate this belief In the post Cold War age when Sino American relations are often strained and tempestuous this book serves as a reminder of the value of making the extra effort to achieve understanding

Modern China's Foreign Policy Werner Levi, 1953-01-01 Modern China's Foreign Policy was first published in 1953 Minnesota Archive Editions uses digital technology to make long unavailable books once again accessible and are published unaltered from the original University of Minnesota Press editions

What are China's objectives in world affairs and what course will she pursue to achieve her goals These are the questions of vital concern to the Western democracies questions that can be approached intelligently only from a knowledge of how China's foreign policy has developed In this illuminating and carefully documented book Professor Levi analyzes China's attitudes and actions toward the rest of the world and clarifies many motivations behind her behavior past and present He traces the development of her foreign relations from the beginning of the modern era of Chinese contacts with Westerners a little more than hundred years ago The emphasis however is on the twentieth century and particularly on the years since the peace settlements of World War I The complex balance of relationships between China and the United States on the one hand and China and the Soviet Union on the other since the end of World War II is discussed in detail Communist doctrine notwithstanding its apparent rigidity is shown to be a conveniently adjustable tool capable of adaptation to the needs and strategies of present day China An integral part of the account is the attempt to single out and interpret the internal forces cultural social and economic that have influenced and shaped China's external policies Thus it is shown that the determinants of China's foreign policy have often been pressures and complexities within the country and that an understanding of the Chinese people and their traditions is essential to nations in their dealings with China

China 1949 Graham Hutchings, 2021-01-14 Excellent The Economist A gripping account South China Morning Post Well worth reading The Morning Star A persuasive and readable narrative History Today Elegantly written The Tablet An excellent study The Chartist Engaging Asia Times The events of 1949 in China reverberated across the world and throughout the rest of the

century That tumultuous year saw the dramatic collapse of Chiang Kai shek's pro Western Nationalist government overthrown by Mao Zedong and his communist armies and the foundation of the People's Republic of China China 1949 follows the huge military forces that tramped across the country the exile of once powerful leaders and the alarm of the foreign powers watching on The well known figures of the Revolution are all here But so are lesser known military and political leaders along with a host of ordinary Chinese citizens and foreigners caught in the maelstrom They include the often neglected but crucial role played by the Guangxi faction within Chiang's own regime the fate of a country woman who fled her village carrying her baby to avoid the fighting a prominent Shanghai business man and a schoolboy from Nanyang ordered by his teachers to trek south with his classmates in search of safety Shadowing both the leaders and the people of China in 1949 Hutchings reveals the lived experiences aftermath and consequences of this pivotal year one in which careers were made and ruined and popular hopes for a new China contrasted with fears that it would change the country forever The legacy of 1949 still resonates today as the founding myth source of national identity and root of the political behaviour of modern China Graham Hutchings has written a vivid gripping account of the year in which China abruptly changed course and pulled the rest of world history along with it *Hearings, Reports and Prints of the Senate Committee on the Judiciary*

Perspectives on Supply and Distribution Chain Financing: Case Studies from China and Europe Georg Baltes, 2015-02-16 Globalization no longer means simply finding low cost countries for sourcing but has involved to include the opportunity for growth in Asia's emerging domestic markets specifically China This development results in extended truly global supply chains and thus places a higher pressure on working capital Therefore several definitions of Supply Chain Management already encompass financial aspects and demand a more integrated consideration of material information and financial flows within supply chains However more precise theory on Supply Chain Financing is understudied and initial implementation of related solutions in industry has only gained momentum during and after the economic and financial crises

of 2008 and 2009 In contrast to traditional financial instruments for supply chains for instance trade finance products which have been around for more than a century Supply Chain Financing leverages larger and influential members of supply chains These firms might for instance provide easier and cheaper access to financing for smaller supply chain members supporting their profitability through renegotiated and reduced purchasing prices Echoing recent research results on supply chain risk management other firms may prefer to take on a supply chain perspective and work on creating agile and resilient supply chains In this context Supply Chain Financing can be employed to ensure liquidity for crucial upstream and downstream supply chain partners thereby allowing a firm to effectively control risk while making the most of remaining growth opportunities in emerging markets like China
