Asian Tourism Janet Cochrane, 2008 Tourism in Asia is growing faster than anywhere else in the world Despite the significance of the tourism industry in this area it is under researched This book addresses this imbalance by providing an edited collection of chapters which explore the domestic and intraregional tourism in Asia

Critical Theories in Dark Tourism Nitasha Sharma, Annaclaudia Martini, Dallen J. Timothy, 2024-12-02 This book facilitates a critical investigation of gaps in theorizing and framing dark tourism by navigating through some onto epistemological issues theoretical entanglements future possibilities and the application of critical theoretical perspectives related to affect and emotions human animal studies postcolonialism feminism trauma studies posthumanism power and identity In doing so it advances the need to connect critical theory pragmatism and contemporary issues of social and global relevance Given the growing body of critical research within tourism studies dark tourism has somewhat lagged behind For example critical tourism researchers have been examining postcolonialism for two decades but dark tourism research has only sporadically engaged with this topic Similarly the issue of gender has been curiously neglected within dark tourism In addition dark tourism research has tended to shy away from the big challenges facing contemporary societies Through its engagement with a range of critical theories this volume not only addresses gaps in the existing dark tourism literature but also moves the debate forward in exciting new directions This volume is well placed to demonstrate to other disciplines and fields that dark tourism research can be critical theoretically grounded and transformative

Cultural Heritage and Tourism Dallen J. Timothy, 2011-08-03 One of the most salient forms of modern day tourism is based on the heritage of humankind The majority of all global travel entails some element of the cultural past as hundreds of millions of people visit cultural attractions heritage festivals and historic places each year The book delves into this vast form of tourism by providing a comprehensive examination of its issues current debates concepts and practices It looks at the social physical and economic impacts which cause destinations site managers and interpreters to consider not only how to plan and manage resources but also how to portray the past in ways that are acceptable accurate accessible and politically relevant In the

process however the depth of heritage politics the authenticity and inauthenticity of place and experience and the urgent need to protect living and built cultures are exposed The book explores these and many other current issues surrounding the management of cultural resources for tourism In order to help students relate concepts to real world situations it combines theory and practice is student learning oriented is written accessibly for all readers and is empirically rich

The Footprint of Polar Tourism Ricardo Mariano Roura,2011 This thesis aims to describe and interpret the effects of tourism on historic sites in Antarctica and Svalbard also known as Spitsbergen and to assess the implications for management Explorers whalers seal hunters scientists and others have left many material remains in the Polar Regions that are significant because they tell the history of the exploration and exploitation of these regions Contemporary polar tourism represents a new phase in this exploration and exploitation of the Polar Regions The potential for the transformation of historic sites has increased following the substantial expansion of polar tourism in recent decades Key cultural heritage sites are regularly included in standard tourist itineraries and are also the subject of specialized tourism In this context the central research question of this thesis is What are the effects of tourism on polar historic sites and what are the implications of this for the management of tourism and these historic sites

Liminality in Tourism Robert S. Bristow,Ian Jenkins,2021-09-05 Liminality is not typically associated with tourism even though it can be viewed as an intrinsic element of the social cultural experiences of tourism Liminality in Tourism Spatial and Temporal Considerations aims to build upon the tradition of liminality as expounded in social and anthropological disciplines elaborating on the theoretical principles and concepts found within certain aspects of the tourist journey and tourist product The emergence of post modern society has impelled a change in the tourist gaze towards a more experiential and adventuresome globalised experience An important aspect of the tourist phenomenon of liminality is where a transformative experience is triggered by entering a liminoid tourist space leaving the tourist permanently psychologically transformed before returning to normalised society The narrative provides a new perspective on the tourist experience with a provocative examination into the multidimensional aspects of tourism by exploring tourism within the spatial and temporal aspects of liminal landscapes Covid 19 has further changed the rubric of tourism Until the current pandemic tourism has basically been a fun experience In a post pandemic world however the tourist is now facing an unknown future which will almost certainly affect tourism liminality This book presents the reader with a wealth of examples and case studies closely illustrating the association between tourism and liminal experiences The geographical perspectives explore the more subconscious outcomes of destination and tourist product consumption The book should be a useful reader to tourism geography where the theory of liminality can be synthesized into tourist experiences The chapters in this book were originally published as a special issue of the journal Tourism Geographies

Battlefield Tourism Chris Ryan, 2007-08-15. Through a series of case studies that involve past conflict in China the United States The South Pacific and Europe the nature of battlefield sites as tourist locations are explored. As places of past conflict and individual acts of heroism these sites are places of story telling. How are these stories told? And for what purposes are the stories told? The acts and modes of interpretation are many ranging from a discourse conducted through silences to the more complex nuanced story telling told through re enactments of past battles. The book also asks where is the battle field as case studies relate to conflicts that ranged over several hundreds of miles to on the other hand acts of local civil disturbance that subsequently achieved mythic values in a history of national identity. The book is divided into acts these being Acts of Resource Management Acts of Silence Acts of Discovery and Rediscovery Acts of Imagination and Acts of Remembrance and embrace examples as diverse as an re enactment of past battles on a New Zealand rural town cricket pitch to the towering strength of the aircraft carrier USS Yorktown and from the Straits of Taiwan to the centre of Canada.
