of rogue states to deny terrorists control of any nation they would use as a base and launching pad for terror and to lay the foundations and build the institutions and structures we need to carry the fight forward against terror and help ensure our ultimate success At this point in the development of the global counterterrorism efforts it is particularly important to pause for reflection on a number of critical questions What do we know about effectively countering terrorism What are the characteristics of successful or unsuccessful counterterrorism campaigns What do we need to learn in order to do this better Countering Terrorism and Insurgency in the 21st Century addresses these and related questions contributing to national security policy as well as to our understanding of the terrorist threat and how it can be defeated Volume 1 Strategic and Tactical Considerations examines issues of hard power soft power and intelligence counterintelligence Volume 2 Sources and Facilitators covers state failure border controls democracy promotion networks and trade and trafficking and societal issues Volume 3 Lessons Learned from Combating Terrorism and Insurgency includes case studies of counterterrorism operations e g the hijacking of the Achille Lauro the 1993 bombing of the World Trade Center and the capture of key terrorist suspects like Ramzi Youssef and Khalid Sheikh Mohamad and case studies of long term efforts to combat terrorism e g the Basques in Spain the Tamil Tigers in Sri Lanka Israel s struggle against Palestinian terror organizations Peru and Sendero Luminoso and Japan and Aum Shinrikyo

The Names of God in Judaism, Christianity, and Islam Máire Byrne, 2011-07-07 This book offers a welcome solution to the growing need for a common language in interfaith dialogue particularly between the three Abrahamic faiths in our modern pluralistic society The book suggests that the names given to God in the Hebrew Bible the New Testament and the Qur an could be the very foundations and building blocks for a common language between the Jewish Christian and Islamic faiths On both a formal interfaith level as well as between everyday followers of each doctrine this book facilitates a more fruitful and universal understanding and respect of each sacred text exploring both the commonalities and differences between each theology and their individual receptions In a practical application of the methodologies of comparative theology Maire Byrne shows that the titles names and epithets given to God in the sacred texts of Judaism Christianity and Islam contribute towards similar images of God in each case and elucidates the importance of this for providing a viable starting point for interfaith dialogue

Demystifying Shariah Sumbul Ali-Karamali, 2020-08-11 A direct counterpoint to fear mongering headlines about shariah law a Muslim American legal expert tells the real story eliminating stereotypes and assumptions with compassion irony and humor Through scare tactics and deliberate misinformation campaigns anti Muslim propagandists insist wrongly that shariah is a draconian and oppressive Islamic law that all Muslims must abide by They circulate horror stories encouraging Americans to fear the takeover of shariah law in America and even mounting anti shariah protests with zero evidence that shariah has taken over any part of our country That s because it hasn t It would be almost funny if it weren t so

terrifyingly wrong as puzzling as if Americans suddenly began protesting the Martian occupation of Earth Demystifying Shariah explains that shariah is not one set of punitive rules or even law the way we think of law rigid and enforceable but religious rules and recommendations that provide Muslims with guidance in various aspects of life Sumbul Ali Karamali draws on scholarship and her degree in Islamic law to explain shariah in an accessible engaging narrative style its various meanings how it developed and how the shariah based legal system operated for over a thousand years She explains what shariah means not only in the abstract but in the daily lives of Muslims She discusses modern calls for shariah what they mean and whether shariah is the law of the land anywhere in the world She also describes the key lies and misunderstandings about shariah circulating in our public discourse and why so many of them are nonsensical This engaging guide is intended to introduce you to the basic principles goals and general development of shariah and to answer questions like How do Muslims engage with shariah What does shariah have to do with our Constitution What does shariah have to do with the way the world looks like today And why do we all Muslims or not need to care

The Teaching and Study of Islam in Western Universities
Paul Morris, William Shepard, Paul Trebilco, Toni Tidswell, 2013-11-26

Public interest in the religion of Islam and in Muslim communities in recent years has generated an impetus for Western Universities to establish an array of Institutes and programs dedicated to the study of Islam Despite the growth in number of programs dedicated to this study very little attention has been paid to the appropriate shape of such programs and the assumptions that ought to underlie such a study The Teaching and Study of Islam in Western Universities attempts to address two central questions that arise through the teaching of Islam Firstly what relation is there between the study of the religion of Islam and the study of those cultures that have been shaped by that religion Secondly what is the appropriate public role of a scholar of Islam After extensive discussion of these questions the authors then continue to address the wider issues raised for the academic community having to negotiate between competing cultural and philosophical demands This edited collection provides new perspectives on the study of Islam in Western Institutions and will be an invaluable resource for students of Education and Religion in particular Islamic Studies
