Gruber,2015-09-30 This book is a volume in the Penn Press Anniversary Collection To mark its 125th anniversary in 2015 the University of Pennsylvania Press rereleased more than 1 100 titles from Penn Press s distinguished backlist from 1899 1999 that had fallen out of print Spanning an entire century the Anniversary Collection offers peer reviewed scholarship in a wide range of subject areas A Systems View Of Man Ludwig von Bertalanffy,2019-04-08 What does it mean to be human What distinguishes man from other animals Man s creation of the universe of symbols replies Ludwig von Bertalanffy Man lives in a world not of things but of symbols Dr von Bertalanffy explores the historical development of symbolic language examines the nature of human values and shows how a current breakdown of symbolic universes contributes to the feeling of meaninglessness so prevalent in modern society He notes that a major portion of mankind s aggressive acts are not biologically induced but arise within symbolic frameworks Martin Luther King Jr. and the Sermonic Power of Public Discourse Carolyn Calloway-Thomas,John Louis Lucaites,2005-07-10 Critical studies of the range of King s public discourse as forms of sermonic rhetoric The nine essays in this volume offer critical studies of the range of King s public discourse as forms of sermonic rhetoric They focus on five diverse and relative short examples from King s body of work Death of Evil on the Seashore Letter from Birmingham Jail I Have a Dream A Time to Break Silence and I ve Been to the Mountaintop Taken collectively these five works span both the duration of King s career as a public advocate but also represent the broad scope of his efforts to craft and project a persuasive vision a beloved community that persists through time **Killer Instinct** Nadine Weidman,2021-10-19 A historian of science examines key public debates about the fundamental nature of humans to ask why a polarized discourse about nature versus nurture became so entrenched in the popular sciences of animal and human behavior Are humans innately aggressive or innately cooperative In the 1960s bestselling books enthralled American readers with the startling claim that humans possessed an instinct for violence inherited from primate ancestors Critics responded that humans were inherently loving and altruistic The resulting debate fiercely contested and highly public left a lasting impression on the popular science discourse surrounding what it means to be human Killer Instinct traces how Konrad Lorenz Robert Ardrey and their followers drew on the sciences of animal behavior and paleoanthropology to argue that the aggression instinct drove human evolutionary progress Their message spread throughout popular media brought pointed ripostes Led by the anthropologist Ashley Montagu opponents presented a rival vision of human nature equally based in biological evidence that humans possessed inborn drives toward love and cooperation Over the course of the debate however each side accused the other of holding an extremist position that behavior was either determined entirely by genes or shaped solely by environment Nadine Weidman shows that what started as a dispute over the innate tendencies of animals and humans transformed into an opposition between nature and nurture This polarized formulation proved powerful When E O Wilson introduced his sociobiology in 1975 he tried to rise above the oppositional terms of the aggression debate But the controversy over Wilson s work led by critics like the feminist biologist Ruth Hubbard was ultimately absorbed back into the

nature versus nurture formulation Killer Instinct explores what happens and what gets lost when polemics dominate discussions of the science of human nature A STUDY OF VALUES OF SECONDARY SCHOOL TEACHERS IN RELATION TO THEIR COMPETENCE, ATTITUDE TOWARDS PROFESSION AND PERSONALITY Prin.
