NACE Journal ,2006 Multicultural Student Services on Campus D-L Stewart, 2023-07-03 Co published with For new professionals in multicultural student services MSS this book constitutes a thorough introduction to the structure organization and scope of the services and educational mission of these units For senior practitioners it offers insights for re evaluating their strategies and inspiration to explore new possibilities The book discusses the history and philosophy of MSS units describes their operation asserts the need for integration and coherence across the multiple facets of their work and how their role is influenced by the character and type of their institutions and considers the challenges and opportunities ahead The theme Building Bridges Re Visioning Community reflects the dual role of MSS They build bridges between underrepresented student populations and the broader institutional environment

between different groups of student populations and across differences in cultural values and traditions. At a time of increasing diversity on campus, their role is also to champion the re-visioning or redefinition of what constitutes community in higher education. In other words, to reach beyond serving their traditional constituencies to educate for multicultural competence and advocate for social justice across the campus commons. This book is organized in four sections moving the reader from the past to the present to the future and from a service mission to an educational one. Part One reviews the purposes for which MSS were created and the evolution of their vision, concluding with an overview of how units perceive their needs and challenges today. Part Two addresses a range of issues such as race, ethnicity, sexual orientation, gender identity, and religion, faith, diversity commonly addressed by MSS and, in recognizing the tensions inherent in serving such disparate constituencies, advances ideas for bringing greater integration and coherence to their work. Part Three considers how institutional context influences the structure and organization of MSS and addresses such questions as: Who are they serving? What kind of support services and educational programming can they provide? How broadly or narrowly should they define their role, and can they extend their influence through alliances with other campus units? The book concludes by looking at how MSS can re-vision community to ensure their continued relevance to the college or university community.

ACPA Publication The American Community College Arthur M. Cohen, Florence B. Brawer, Carrie B. Kisker, 2013-09-16. For more than thirty years, The American Community College has been the go-to reference for faculty, administrators, trustees, state-level officials, and researchers concerned with the role of community colleges in the American educational system, the services they provide, and their effects on students and surrounding communities. Now in its sixth edition, The American Community College includes a new chapter on student outcomes and accountability, a case for reconceptualizing general education around critical thinking, civic engagement, and sustainable development, and an appendix examining the ascendant for-profit sector. The sixth edition also incorporates expanded analyses of recent trends within the community colleges, including vertical expansion, cross-sector collaboration, student and faculty characteristics, enrollment patterns, revenue generation, and state allocation patterns, including performance-based funding, distance learning, and statewide efforts to improve transfer and articulation. In addition, the authors include a response to contemporary criticisms of the institution. Comprehensive in scope, the sixth edition of The American Community College is designed for anyone concerned with the role and purpose of community institutions in American higher education. The descriptions and analyses of each of the institution's functions can be used by administrators who want to learn about practices that have proven successful at other colleges, curriculum planners involved in program revisions, faculty members seeking ideas for modifying their courses, students preparing for careers in community colleges, and trustees and officials concerned with college policies and student progress and outcomes. Each chapter of the book includes guiding questions for reflection and discussion. Handbook of Research on the Changing Role of College and University Leadership Miller, Michael T., Gearhart, G. David, 2021-06-04.

Higher education has changed significantly over the past 50 years and the individuals who provide leadership for these institutions has similarly changed. The pathway to the college presidency once the domain of academic administration has diversified as an increasing number of development officers, student affairs and enrollment management professionals and even politicians have become common in the role. It is important to understand who the presidents are in the current environment and the challenges they face. Challenges such as dealing with the COVID 19 pandemic, enrollment shortfalls, Title IX and athletic scandals have risen to the forefront and have contributed to the issues and role of college and university leadership. The Handbook of Research on the Changing Role of College and University Leadership provides important research on the topic of college and university leadership, especially focusing on the changing role of the college president. The chapters discuss college leadership as it is now and how it will evolve into the future. Topics included are the role of the president at various types of universities, their involvement within university functions and activities and the duties they must carry out and challenges they face. This book is ideal for professionals and researchers working in higher education including faculty members who specialize in education, public administration, the social sciences and management along with teachers, administrators, teacher educators, practitioners, researchers, academicians and students who are interested in college and university leadership and how this role is transforming.

The Mexican American Community College Experience Blanca Campa, 2017-03-01. The Mexican American Community College Experience addresses the challenge of educating Mexican American students, the largest segment of the growing Latino population in community colleges, the largest institutions in today's landscape of higher education. It describes the cultivation of resilience in these students and how engaging dynamic faculty help them succeed in their studies. This blending of psychology and education theory with a critical twist shows how faculty help students develop a foundation of resilience and a larger sense of purpose based on their unique knowledge, pedagogies and culture, an area not traditionally addressed in curriculum and instruction. Creative teaching, resilience and energetic student stories make this a celebration of Mexican American success at a major regional community college on the U.S. Mexico border.

Applying College Change Theories to Student Affairs Practice C. Casey Ozaki, Robin L. Spaid, 2016-06-14. Student affairs professionals are critical to the efforts to improve students' experiences and outcomes, especially in two-year institutions. This volume explores the history of student development and college impact theories and models in relation to two-year institutions. Topics covered include analysis of the applicability of the literature for diverse and current community colleges and student populations, implications for practitioners and presentation of alternative models and lenses. This is the 174th volume of this Jossey-Bass quarterly report series, Essential to the professional libraries of presidents, vice presidents, deans and other leaders in today's open-door institutions. New Directions for Community Colleges provides expert guidance in meeting the challenges of their distinctive and expanding educational mission.

Connecting Learning Across the Institution Pamela L. Eddy, 2014-03-25. Most research on learning tends to occur in silos based on stakeholder

perspective This volume seeks to break down these silos and draw together scholars who research learning from different perspectives to highlight commonalities in learning for students faculty and institutions When we understand how learning is experienced across the institution we can develop strategies that help support enhance and reinforce learning for all Exploring what it means to bridge learning across the institution this volume provides a roadmap to improve learning for all Both scholarly and practical it advances the knowledge about the ways we investigate and study learning across and for various groups of learners It also Collects thinking about learning in its various formats in one location Provides a platform for synthesis Outlines key questions for thinking more deeply about learning on campus Instead of thinking of learning as discrete depending on the stakeholder group this volume highlights the commonalities across all types of learners

Understanding Equity in Community College Practice Erin L. Castro, 2015-12-01 What do equity oriented practices look like in different community college contexts Given the increasing role of the community college in realizing equitable outcomes for students examples of what practitioners are doing to move forward an equity agenda are urgently needed The diverse perspectives and issues in these chapters explicitly advance an equity agenda and offer Conceptual and empirical rationales to support equity oriented practices Examples of programming and practice that support the lives and livelihoods of underserved student populations and Examples of policy programming and thinking that emphasize the role of the community college in expanding educational opportunity for underserved students Driven by a change in thinking and imagination these examples show how practitioners can and should tailor programming in light of larger patterns of inequality This is the 172nd volume of this Jossey Bass quarterly report series Essential to the professional libraries of presidents vice presidents deans and other leaders in today's open door institutions New Directions for Community Colleges provides expert guidance in meeting the challenges of their distinctive and expanding educational mission *Performance Funding for Higher Education* Kevin J. Dougherty, Sosanya Jones, Hana Lahr, Rebecca S. Natow, Lara Pheatt, Vikash Reddy, 2016-10-04 A rigorous analysis of the impact and implications of performance funding for higher education Seeking greater accountability in higher education many states have adopted performance funding tying state financial support of colleges and universities directly to institutional performance based on specific outcomes such as student retention progression and graduation Now in place in over thirty states performance funding for higher education has been endorsed by the US Department of Education and major funders like the Gates and Lumina foundations Focusing on three states that are regarded as leaders in the movement Indiana Ohio and Tennessee Performance Funding for Higher Education presents the findings of a three year research study on its implementation and impacts Written by leading authorities and drawing on extensive interviews with government officials and college and university staff members this book describes the policy instruments states use to implement performance funding explores the organizational processes colleges rely on to determine how to respond to performance funding analyzes the influence of performance funding on institutional policies and

programs reviews the impacts of performance funding on student outcomes examines the obstacles institutions encounter in responding to performance funding demands investigates the unintended impacts of performance funding The authors conclude that while performance funding clearly grabs the attention of colleges and leads them to change their policies and practices it also encounters major obstacles and has unintended impacts Colleges subject to performance funding are hindered in posting good results by inappropriate performance measures insufficient organizational infrastructure and the commitment to enroll many students who are poorly prepared or not interested in degrees These obstacles help explain why multivariate statistical studies have failed to date to find a significant impact of performance funding on student outcomes and why colleges are tempted to resort to weakening academic quality and restricting the admission of less prepared and less advantaged students in order to improve their apparent performance These findings have wide ranging implications for policy and research Ultimately the authors recommend that states create new ways of helping colleges with many at risk students define performance indicators and measures better tailored to institutional missions and improve the capacity of colleges to engage in organizational learning

and graphs that reflect the most current data and incorporate new examples of the services that colleges provide Since it was first published in 1982 The American Community College has become the primary resource that faculty administrators trustees and researchers look to for information on these quintessentially American institutions The Civilian Lives of U.S. Veterans Louis Hicks, Eugenia L. Weiss, Jose E. Coll, 2016-12-05 In this book 50 experts study the lives of U S veterans at work at home and in American society as they navigate issues regarding health gender public service substance abuse and homelessness The aftermath of modern war includes a population of veterans whose needs last for many decades far longer than the war itself This in depth study looks at life after the military considering the dual conundrum of a population benefiting from the perks of their duty yet continuing to deal with trauma resulting from their service and of former servicemen and servicewomen trying to fit into civilian life in a system designed to keep them separate Through two comprehensive volumes essays shed light on more than 30 topics involving or affecting former servicemen and servicewomen offering a blueprint for the formal study of U S veterans in the future Contributions from dozens of experts in the field of military science cover such issues as unemployment homelessness disability access to higher education health media portrayal criminal justice substance abuse guns suicide and politics Through information gleaned from surveys interviews participant observations secondary analyses and content analyses the chapters reveal how veterans are able to successfully contribute to civilian life and show how the American workforce can benefit from their unique set of skills *13 Ideas That Are Transforming the Community College World* Terry U. O'Banion, 2019-03-15 America's community colleges are experiencing the most creative and substantive period of transformation in their 118 year history There has never been so much research so much support from foundations and so much commitment from national leaders to reimagine community colleges for today and for the future *13 Ideas that Are Transforming the Community College World* edited by Terry U O Banion is the seminal work that captures the major ideas faced by community college leaders in this period of transformation The book includes 23 authors representing 12 national organizations perhaps the most significant and substantive list of individuals ever to participate in an edited book on the community college Each author is a nationally recognized authority on his or her chapter and all have played major roles as leaders of national organizations *Community-University Engagement: A Process for Building Democratic Communities* Tami L. Moore, 2014-04-29 As the emphasis on economic development through community university engagement intensifies educators and policy makers must learn to think differently about the engagement process This is particularly true when a narrowly defined group of leaders sets the engagement agenda and those who are traditionally underrepresented continue to be marginalized in the conversations about their own futures Emphasizing the importance of community as a context for engagement and building strong relationships over time Moore calls on institutional leaders to intentionally facilitate broad participation by all members of a community in discussions about how and in what direction the community will develop This is the second issue of the 40th

volume of the Josse Bass series ASHE Higher Education Report Each monograph is the definitive analysis of a tough higher education issue based on thorough research of pertinent literature and institutional experiences Topics are identified by a national survey Noted practitioners and scholars are then commissioned to write the reports with experts providing critical reviews of each manuscript before publication
