with his audience constantly engaging the reader listener in a discussion so as to take on their views and deal with their possible objections 4 The work allows the reader acquainted with the concepts of Freud to trace the logic of his arguments afresh and follow his conclusions backed as they were with examples from life and from clinical practice But Freud also identified elements of his theory requiring further elaboration as well as bringing in new material for example on symbolism and primal fantasies taking up with the latter a train of thought he would continue in his re working of The Wolfman In the New Introductory Lectures those on dreams and anxiety instinctual life offered clear accounts of Freud's latest thinking while the role of the Superego received an update in lecture 31 More popular treatments of occultism psychoanalytic applications and its status as a science helped complete the volume
