

Four stages of teaching new language patterns:

1) Exposure to language:

- To ensure that students have the chance to meet new language, whether it consists of individual words, word groups, patterns within sentences or texts and talks we need to plan plenty of exposure so that students can encounter it in any or all of the following places:
- In mini-context such as lists, at the back of coursebooks and their units, in their notebooks, spoken by the teacher or by fellow students
- In short constructed spoken or written texts including one meaningful sentence or exchange, or other short texts deliberately under or just at the level of the students
- In elaborated or supported texts, i.e. original authentic texts
- In longer and in increasingly unsupported stretches of discourse
- In a variety of channels such as radio, TV, films letters etc.
