Paul McCarthy:

Paul McCarthy Paul McCarthy, Butler Gallery (Kilkenny, Ireland), 2002 **Paul McCarthy** Paul McCarthy, Dan Cameron, Amelia Jones, Anthony Vidler, 2000 Working from a pioneering fusion of sculpture and conceptually based performance Paul McCarthy is one of the most influential yet least recognized artists in the U S today While his architectural installations incorporating video and performance artifacts have received critical and curatorial attention during the present decade few viewers are familiar with his artistic evolution or with the impact his work has had on two generations of Los Angeles artists This publication covering about 400 works from all areas of his activity gives an exemplary insight into McCarthy s works from the early 1970s up to the present day Experts on his work give comprehensive descriptions and analyses of the American artist s performances and installations examine the unique ties between his works and cinema and explore the dialogue between New York and Los Angeles particularly in the formulation and development of conceptual art Publisher s description *Let Them Haunt Us* Anna-Lena Werner, 2020-05-07 *Let Them Haunt Us* analyzes contemporary aesthetics engaged in trauma and critically challenges its canonical status as unrepresentable Focusing on case studies in the aesthetic practices of Janet Cardiff and George Bures Miller Omer Fast Forensic Architecture and Paul McCarthy this book proposes to redefine trauma as a productive framework to exploring individual collective and cultural conflicts addressed in current artistic and curatorial practices Anna Lena Werner considers the aesthetic realm as a potential forum that provides methods of understanding the humanitarian consequences of violence and warfare and to reveal the effects of trauma on visual culture collective memory and politics *Ethics of Contemporary Art* Theo Reeves-Everson, 2020-11-26 What happens when the shock of artistic transgression wears off when scandal dissipates when outrage becomes a tired routine In this original new book Theo Reeves Everson argues that transgressive art no longer succeeds on its own terms in societies where language prohibition and morality have become increasingly malleable This compels us to rethink the relationship between contemporary art and ethics and focus our attention on the potential of artworks to propose new values rather than simply challenge pre existing moral codes Assembling a novel theoretical framework from the writings of Félix Guattari Jacques Lacan and others *Ethics of Contemporary Art* narrates a journey away from transgression towards a new critical paradigm for the relationship between ethics and aesthetics that places questions of subjectivity centre stage Along the way artworks by Kader Attia Artur Zmijewski Dora Garcia and others serve as springboards launching discussions of the varied pathways along which a renewed ethics of contemporary art might develop *McCarthy's Americans* M. J. Heale, 1998 Was the communist witch hunt unleashed by Senator Joe McCarthy an aberration or has red scare politics been an intrinsic part of American political life since the 1930s Was McCarthyism a populist or an elitist phenomenon Was Senator McCarthy virtually irrelevant to the phenomenon McCarthy s *Americans* shows that some of the contending interpretations of McCarthyism are mutually compatible and reveals the importance of pressures usually overlooked M J Heale s deeply

probing study of McCarthy's hinterland in the American states demonstrates that what is usually called McCarthyism was part of a political cycle that emerged in the 1930s and took two decades to run its course. Heale also argues that much of the red scare dynamic came from the big cities and the white South. It was here that a range of interests exhibiting a fundamentalist fury with the changing times that the political order had fashioned during the New Deal years rested on fragile foundations. Defying the consensus liberalism of the 1950s, McCarthy and more important the many little McCarthys in the states kept alive a brand of right wing politics preparing the way for George Wallace in the 1960s and the revitalized conservatism of Richard Nixon in the 1970s and Ronald Reagan in the 1980s.

Why is that Art? Terry Barrett, 2017. Why is that art? Why is it in an art museum? Who says it's art? Why is it good? Why Is That Art? Third Edition introduces students to theories of art through the presentation of contemporary works that include abstract and representational painting, animated film, monumental sculpture, performance art, photographs, relational art, and video installations. Ideal for courses in aesthetics, art theory, art criticism, and the philosophy of art, this unique book provides students with a newfound appreciation for contemporary art scholarship and reasoned argumentation.

The Rochester Directory, 1874 **Minor Photography** Mieke Bleyen, 2012. The first book to apply the concept of the minor to the theory of photography. The notion of the minor developed by Gilles Deleuze and Félix Guattari in *Kafka Towards a minor literature* 1975 is introduced and connected applied here for the very first time to the field of photography theory. Deleuze and Guattari defined minor literature in terms of deterritorialization, politicization, and collectivization. By transferring the minor to the medium of photography, this book enlarges the idea of the minor and opens it up to all kinds of mutations in the process. The essays gathered in this book discuss the ways in which photography can make the dominant codes of representation stammer and how it can produce new effects and address people yet to come. The authors consider the minor as a valuable tool to help photography research move beyond or in between binary and hierarchized ways of thinking of high and low art, for example, or centre and periphery. As such, it aims to contribute to a rethinking of photography as multiplicity and variation. Consequently, the term is connected with both marginal and canonical photographic practices, covering photographers as different as Miroslav Tichý, Paul McCarthy, Tacita Dean, Dan Graham, and Paul Noug. After developing a theory of the minor, this book explores how the operations of the minor can be found in major art practices. It closes by tackling the question of photography as variation in case studies of belated forms of surrealist photography. This publication is GPRC labeled Guaranteed Peer Reviewed Content.

The Microgenre Anne H. Stevens, Molly C. O'Donnell, 2020-01-23. Everybody knows and maybe even loves a microgenre: Plague romances and mommy memoirs, Nudie cutie movies, Nazi zombies and dinosaur erotica, Baby burlesks, Minecraft fiction, grindcore, premature ejaculation poetry. Microgenres come in all varieties and turn up in every form of media under the sun, tailor made for enthusiasts of all walks of life. Coming into use in the last decade or so, the term microgenre classifies increasingly niche marketed worlds in popular music, fiction, television, and the Internet. Netflix has recently highlighted our

fascination with the ultra niche genre with hilariously specific classifications independent supernatural dramedy featuring a strong female lead that can sometimes hit a little too close to home Each contribution in this collection introduces readers to a different microgenre drawn from a range of historical periods and from a variety of media The Microgenre presents a previously untreated point of cultural curiosity revealing the profound truth that humanity's desire to classify is often only matched by the unsustainability of the obscure and hyper specific It also affirms in colorful detail what most people suspect but have trouble fathoming in an increasingly homogenized and commercial West that imaginative projects are just that imaginative diverse and sometimes completely and hilariously inexplicable

Art History Versus Aesthetics James Elkins, 2012-11-12 In this unprecedented collection over twenty of the world's most prominent thinkers on the subject including Arthur Danto Stephen Melville Wendy Steiner Alexander Nehamas and Jay Bernstein ponder the disconnect between these two disciplines The volume has a radically innovative structure it begins with introductions and centres on an animated conversation among ten historians and aestheticians That conversation was then sent to twenty scholars for commentary and their responses are very diverse some are informal letters and others full essays with footnotes Some think they have the answer in hand and others raise yet more questions The volume ends with two synoptic essays one by a prominent aesthetician and the other by a literary critic This stimulating inaugural volume in the Routledge The Art Seminar series presents not one but many answers to the question Does philosophy have anything to say to art history

All Helen's Children, *Paul McCarthy: A&E, Dead End Hole, Picnic* Paul McCarthy, 2025-04-29 A limited edition artist's book signed by McCarthy documenting his graphic explicit performance of Adolf Hitler and Eva Braun's relationship Published as a signed limited edition of 600 copies this artist's book documents a 2021 performance of the same name by Paul McCarthy born 1945 and German actress Lilith Stangenberg born 1988 continuing McCarthy's exploration of bodily abjection human entanglement power Hollywood and the underbelly of the cultural and political climate

The Price of a Man's Honor Matthew Keller, 2011-12-28 Andrew Warner is the newly elected Sheriff of Deadwood in 1878 With his deputy John Douglas Warner vows to bring security to the young town Having already been through a smallpox epidemic and the Black Hills Gold Rush Deadwood turns to coal mining in its struggle for stability Meanwhile a wagon of gold was robbed at Canyon Springs and in the hopes of acquiring the reward money to invest in the businesses of Deadwood Warner sends Douglas to retrieve the gold When rich boy Jack McCarthy is killed and there are only two deceitful witnesses Warner must uncover the truth through a tangle of lies Throughout the whole story men are being challenged with doing the right thing They either decided the path of honor or they sold their honor for wealth But the story points out that this doesn't pay off in the long run Every man decided the price of their honor whether they kept it or lost it

Confessional Video Art and Subjectivity Jaye Early, 2025-01-23 This is the first book of its kind to examine the development of the confessional subject in video art and demonstrate how it can provide a vital platform for navigating the politics of self subjectivity and resistance in society In

doing so it reframes video art the most ubiquitous and yet most understudied art form of recent decades as an urgent socio political tool that is increasingly popular among contemporary artists as a means of exploring a broad range of social issues from politics and identity to the body and technologies of self representation Analysing a diverse selection of case studies from the 1960s up to the present day covering the work of Yoko Ono Gillian Wearing Ryan Trecartin Tracey Emin Anatasia Klose and Heath Franco among others the book brings together theory and practice to look afresh at contemporary video art through a Foucauldian lens It also brings the analysis of video art up to date by showing how social media and digital self representation has informed and further politicized time based art practices Confessional Video Art and Subjectivity shows how forms of confessional discourse not only play an important function in the construction of subjectivity but also open spaces for personal resistance and agency within contemporary video art As a result it offers researchers of contemporary art practice and media and cultural studies an updated framework through which to view this constantly evolving genre and a deeper understanding of wider contemporary video practices

The Great Parade Pierre Théberge,Galleries Nationales du Grand Palais (Parijs),National Gallery of Canada,2004-01-01 A beautiful book that showcases how circus figures and artifacts have been portrayed in art over the past two centuries The

circus is a dazzling world filled with acrobats and harlequins tumblers and riders monsters and celestial creatures Now this engaging book sets that world in a new light examining how painters sculptors and photographers from the eighteenth century to the present have used the circus as a springboard for their imaginative expression and have envisioned the clown as a metaphor for the modern artist The book presents more than 175 works by such artists as Degas Toulouse Lautrec Rouault Picasso Chagall and L ger Some of these are masterful works shown for the first time these range from the 18 meter stage curtain Picasso designed in 1917 for Erik Satie s ballet Parade to more intimate works such as Nadar and Tournachon s photographs of Pierrot as played by celebrated mime Charles Debureau
