Poetry Language Thought:

Poetry, Language, Thought Martin Heidegger, 1971 Collects Martin Heidegger's pivotal writings on art its role in human life and culture and its relationship to thinking and truth Publisher description *Poetry, Language, Thought* Martin Heidegger, 1971 Poetry, Language, Thought Martin Heidegger, 1994 Essential reading for students and anyone interested in the great philosophers this book opened up appreciation of Martin Heidegger beyond the confines of philosophy to the reaches of poetry In Heidegger's thinking poetry is not a mere amusement or form of culture but a force that opens up the realm of truth and brings man to the measure of his being and his world Ernst Cassirer and the Autonomy of Language Gregory S. Moss, 2014-11-12 Ernst Cassirer and the Autonomy of Language examines the central arguments in Cassirer's first volume of the Philosophy of Symbolic Forms Gregory Moss demonstrates both how Cassirer defends language as an autonomous cultural form and how he borrows the concept of the concrete universal from G W F Hegel in order to develop a concept of cultural autonomy While Cassirer rejected elements of Hegel's methodology in order to preserve the autonomy of language he also found it necessary to incorporate elements of Hegel's method to save the Kantian paradigm from the pitfalls of skepticism Moss advocates for the continuing relevance of Cassirer's work on language by situating it within the context of contemporary linguistics and contemporary philosophy This book provides a new program for investigating Cassirer's work on the other forms of cultural symbolism in his Philosophy of Symbolic Forms by showing how the autonomy of culture is one of the leading questions motivating Cassirer's philosophy of culture With a thorough comparison of Cassirer's theory of symbolism to other dominant theories from the twentieth century including Heidegger and Wittgenstein this book provides valuable insight for studies in philosophy of language semiotics epistemology psycholinguistics continental philosophy Neo Kantian philosophy and German idealism **Heidegger and Music** Casey Rentmeester, Jeff R. Warren, 2022-02-02 Although philosophers have examined and commented on music for centuries Martin Heidegger one of the greatest philosophers of the 20th century had frustratingly little to say about music directly at least This volume the first to tackle Heidegger and music features contributions from philosophers musicians educators and musicologists from many countries throughout the world aims to utilize Heidegger's philosophy to shed light on the place of music in different contexts and fields of practice Heidegger's thought is applied to a wide range of musical spheres including improvisation classical music electronic music African music ancient Chinese music jazz rock n roll composition and musical performance The volume also features a wide range of philosophical insights on the essence of music music's place in society and the promise of music's ability to open up new ways of understanding the world with the onset of the technological and digital musical age Heidegger and Music breaks new philosophical ground by showcasing creative vignettes that not only push Heidegger's concepts in new directions but also get us to question the meaning of music in various contexts Seeing Through God John Llewelyn, 2004 Playing on the various meanings of Seeing Through God John Llewelyn explores the act of looking in the wake of the death of the

transcendent God of metaphysics Taking up strategies developed by the Western sciences for seeing and observing he finds that the so called tough minded practices of the physical sciences are very much at home with the so called tender minded practices of Eastern religions Instead of opposing East and West Llewelyn thinks that blending these spheres leads to a better understanding of aesthetic experience and imagination In this blending he presents a phenomenological description of the imagination and the ethical and religious dimensions of the act of imagining Seeing Through God touches on themes of salvation the preservation of the environment and the role of God in our temptation to dishonor the earth This unique book presents Llewelyn as one of the leading interpreters of the environmental phenomenology movement **Derrida:**

Profanations Patrick O'Connor, 2010-07-08 **The Event** Ilai Rowner, 2015-01-20 What is an event From a philosophical perspective events are irregular occurrences moments of change and interruption categorized by human perception language and thought While philosophers have pored over the subject of events extensively in recent years The Event Literature and Theory seeks to ground it What is literature s approach to the event How does literature produce and give testimony to events Ilai Rowner s study not only revisits some of the most important thinkers of our time including Maurice Blanchot Gilles Deleuze Jacques Derrida and Martin Heidegger it also develops a critical approach to literature that questions the meaning of the literary event through examinations of literary works by Marcel Proust Louis Ferdinand Celine and T S Eliot Rowner offers a new method of thinking about the particular characteristics of the event within literary works and defines the creative value of literature as the aspiration toward the un happening within the happening In this study the experience of literature as an act of both writing and reading becomes the struggle to capture the excessive movement of the event while also revealing the creative energy within that work of literature **The Finitude of Being** Joan

Stambaugh, 2016-03-22 **Waste** William Viney, 2014-05-22 Why are people so interested in what they and others throw away This book shows how this interest in what we discard is far from new it is integral to how we make build and describe our lived environment As this wide ranging new study reveals waste has been a polarizing topic for millennia and has been treated as a rich resource by artists writers philosophers and architects Drawing on the works of Giorgio Agamben T S Eliot Jacques Derrida Martin Heidegger James Joyce Bruno Latour and many others Waste A Philosophy of Things investigates the complexities of waste in sculpture literature and architecture It traces a new philosophy of things from the ancient to the modern and will be of interest to those working in cultural and literary studies archaeology architecture and continental philosophy **Land and the Given Economy** Todd S. Mei, 2017-01-15 Alarming environmental degradation makes ever more urgent the reconciliation of political economy and sustainability Land and the Given Economy examines how the landed basis of human existence converges with economics and it offers a persuasive new conception of land that transcends the flawed and inadequate accounts in classical and neoclassical economics Todd S Mei grounds this work in a rigorous review of problematic economic conceptions of land in the work of John Locke Adam Smith David Ricardo John Stuart Mill Karl Marx

Henry George Alfred Marshall and Thorstein Veblen Mei then draws on the thought of Martin Heidegger to posit a philosophical clarification of the meaning of land its ontological nature He argues that central to rethinking land is recognizing its unique manner of being described as its givenness Concluding with a discussion of ground rent Mei reflects on specific strategies for incorporating the philosophical account of land into contemporary economic policies Revivifying economic frameworks that fail to resolve the impasse between economic development and sustainability Land and the Given Economy offers much of interest to scholars and readers of philosophy environmentalism and the full spectrum of political economy

Love and its Place in Virtue Christine Swanton, 2024-08-19 In Love and its Place in Virtue Christine Swanton argues for an original position on the relations between love and virtue and love and virtue ethics For this task the distinction between love as an emotion or emotional orientation and virtuous forms of love is central as is the role of a conception of practical wisdom in virtuous love How love features in virtue in general including virtues which are not virtues of love is the central theme This book integrates virtue ethics with a renewed interest in the role of love in ethics Until now virtue ethics and philosophical accounts of love have been separate fields In Swanton s account of love she argues that there are many criteria for love which feature in various ways in the different forms of love Central is the distinction between relational love between individuals and lovingness in its various forms as a fundamental emotional orientation towards the world as a whole a Grundstimmung Love and its Place in Virtue discusses foundational love universal love self love and dwelling love some of the impartial virtues of love notably universal beneficence impartial caring and forgiveness as well as the relation between love and the personal virtue of justice arguing that though justice is a virtue of respect it should be loving

Continental Perspectives on Community Chantal Bax, Gert-Jan van der Heiden, 2019-10-02 This volume explores the issues at the center of many historical and contemporary reflections on community and sociality in Continental philosophy The essays reflect on the thought of Nietzsche Heidegger Levinas Arendt Derrida Badiou Fanon Baldwin Nancy Agamben and Laruelle Continental Perspectives on Community brings the different approaches of these thinkers into conversation with each other It discusses the possibility of how the concept of community can extend beyond the one and beyond any sense of unity and totality Additionally the book shows how notion of community in plurality is at the heart of ethical and political reflections on alterity and race of political philosophical reflections on the exception and of ontological reflections on what it means for humans to be social In this way it offers an important contribution to the examination of how a community can be thought today This book will be of interest to scholars and advanced students working on social political and cultural issues in Continental philosophy

Arendt and Heidegger Dana Villa, 1995-10-16 Theodor Adorno once wrote an essay to defend Bach against his devotees In this book Dana Villa does the same for Hannah Arendt whose sweeping reconceptualization of the nature and value of political action he argues has been covered over and domesticated by admirers including critical theorists communitarians and participatory democrats who had hoped to enlist her in their less radical philosophical or political

projects Against the prevailing Aristotelian interpretation of her work Villa explores Arendt's modernity and indeed her postmodernity through the Heideggerian and Nietzschean theme of a break with tradition at the closure of metaphysics Villa's book however is much more than a mere correction of misinterpretations of a major thinker's work Rather he makes a persuasive case for Arendt as the postmodern or postmetaphysical political theorist the first political theorist to think through the nature of political action after Nietzsche's exposition of the death of God i.e. the collapse of objective correlates to our ideals ends and purposes After giving an account of Arendt's theory of action and Heidegger's influence on it Villa shows how Arendt did justice to the Heideggerian and Nietzschean criticism of the metaphysical tradition while avoiding the political conclusions they drew from their critiques The result is a wide ranging discussion not only of Arendt and Heidegger but of Aristotle Kant Nietzsche Habermas and the entire question of politics after metaphysics The Unwritten Grotowski Kris Salata, 2013-05-07 This book gives a new view on the legacy of Jerzy Grotowski 1933-1999 one of the central and yet misunderstood figures who shaped 20th century theatre focusing on his least known last phase of work on ancient songs and the craft of the performer Salata posits Grotowski's work as philosophical practice and more particularly as practical research in the phenomenology of being arguing that Grotowski's departure from theatrical productions and thus critical consideration resulted from his uncompromising pursuit of one central problem What does it mean to reveal oneself the very question that drove his stage directing work The book demonstrates that the answer led him through the path of gradually stripping the theatrical phenomenon down to its most elemental aspect which shows itself through the craft of the performer as a non representational event This particular quality released at the heights of the art of the performer is referred to as aliveness or true liveness in this study in order to shift scholarly focus onto something that has always fascinated great theatre practitioners including Stanislavski and Grotowski and of which academic scholarship has limited grasp Salata's theoretical analysis of aliveness reaches out to phenomenology and a broad range of post structural philosophy and critical theory through which Grotowski's project is portrayed as philosophical practice **Vigilant Faith** Daniel Boscaljon, 2013-10-10 In Vigilant Faith Passionate Agnosticism in a Secular World Daniel Boscaljon takes up the contemporary challenges to faith by skepticism and secularism He proposes a model of faith for believers and unbelievers alike a passionate agnosticism that is rooted in a skeptical consciousness Skepticism and faith are structurally similar he writes in that they share an unknowing quality The author argues that vigilance the act of keeping watch a spiritual practice in its own right is as necessary a precondition for the structure of faith as it is for the structure of skepticism A suspension in uncertainty and an openness to possibility require vigilance he attests if faith and skepticism are to avoid the often dogmatic tendencies of both theism and atheism to cling to their own brands of certainty and knowledge Boscaljon has three aims to expand the current post theistic definitions of God for greater relevance to human beings on an individual and existential level to integrate skepticism into faith so that it will restore the importance of faith to current theology and recover it from

anti intellectual bias and to conceptualize the vigilance of faith in such a way that can provide a vocabulary for distinguishing good faith from bad faith He offers a variety of cultural examples ranging from film to poetry to represent a life of faith and to show how its components come together in practice As an alternative to the prevailing fundamentalisms in today s world his book proposes a paradigmatic understanding of faith in which theism atheism and agnosticism refuse to differ **Tears** Mark C. Taylor,1990-01-01 In Tears the author explores theoretical issues raised by the intersection of philosophy literature art architecture and theology The critical accounts of thinkers like Derrida Blanchot Jab s Kierkegaard Hegel Heidegger Ricoeur Gadamer Austin Ayre Rorty Tillich Barth and Altizer developed in this book effectively reshape and refocus the terms of current debate **Curating As Ethics** Jean-Paul Martinon,2020-01-28 A new ethics for the global practice of curating

Today everyone is a curator What was once considered a hallowed expertise is now a commonplace and global activity Can this new worldwide activity be ethical and if yes how This book argues that curating can be more than just selecting organizing and presenting information in galleries or online Curating can also constitute an ethics one of acquiring arranging and distributing an always conjectural knowledge about the world Curating as Ethics is primarily philosophical in scope evading normative approaches to ethics in favor of an intuitive ethics that operates at the threshold of thought and action It explores the work of authors as diverse as Heidegger Spinoza Meillassoux Mudimbe Chalier and Kofman Jean Paul Martinon begins with the fabric of these ethics how it stems from matter how it addresses death how it apprehends interhuman relationships In the second part he establishes the ground on which the ethics is based the things that make up the curatorial for example the textual and visual evidence or the digital medium The final part focuses on the activity of curating as such sharing caring preparing dispensing and so on With its invigorating new approach to curatorial studies Curating as Ethics moves beyond the field of museum and exhibition studies to provide an ethics for anyone engaged in this highly visible activity including those using social media as a curatorial endeavor and shows how philosophy and curating can work together to articulate the world today **Emmanuel Levinas: Levinas and the question of religion** Claire Elise

Katz,Lara Trout,2005 Emmanuel Levinas 1905 1995 was one of the foremost thinkers of the twentieth century His work influencing a wide range of intellectuals such as Maurice Blanchot Jacques Derrida Luce Irigaray and Jean Luc Marion

The Hypocritical Imagination John Llewellyn,2008-03-07 For philosophers such as Kant the imagination is the starting point for all thought For others such as Wittgenstein what is important is only how the word imagination is used In spite of the attention the imagination has received from major philosophers remarkably little has been written about the radically different interpretations they have made of it The HypoCritical Imagination Between Kant and Levinas is an outstanding contribution to this vacuum Focusing on Kant and Levinas John Llewelyn takes us on a dazzling tour of the philosophical imagination He shows us that despite the different treatments they accord to the imagination there is much to be gained from comparing these two key thinkers From Kant Llewelyn shows how the imagination is the common root of all

understanding He contrasts this with the thought of Emmanuel Levinas for whom the imagination plays an ambivalent role both as necessary for and a threat to recognition of the other John Llewelyn also introduces the importance of the work of Heidegger Schelling Hegel Arendt and Derrida on the imagination and what this work can tell us about the relationship between the imagination and ethics aesthetics and literature The HypoCritical Imagination Between Kant and Levinas is a brilliant reading of a neglected but important philosophical theme and is essential reading for those in contemporary philosophy art theory and literature
