Religion And The Racist Right:

Religion and the Racist Right Michael Barkun, 2014-02-01 According to Michael Barkun many white supremacist groups of the radical right are deeply committed to the distinctive but little recognized religious position known as Christian Identity In Religion and the Racist Right 1994 Barkun provided the first sustained exploration of the ideological and organizational development of the Christian Identity movement In a new chapter written for the revised edition he traces the role of Christian Identity figures in the dramatic events of the first half of the 1990s from the Oklahoma City bombing and the rise of the militia movement to the Freeman standoff in Montana He also explores the government's evolving response to these challenges to the legitimacy of the state Michael Barkun is professor of political science in the Maxwell School of Citizenship and Public Affairs at Syracuse University He is author of several books including Crucible of the Millennium The Burned over District of New York in the 1840s Fascism, Totalitarianism and Political Religion Roger Griffin, 2013-09-13 9 11 and its aftermath demonstrate the urgent need for political scientists and historians to unravel the tangled relationship of secular ideologies and organized religions to political fanaticism This major new volume uses a series of case studies by world experts to further our understanding of these complex issues They examine the connections between fascism political religion and totalitarianism by exploring two inter war fascist regimes two abortive European movements and two post war American extreme right wing movements with contrasting religious components A highlight of this collection is a fresh article from Emilio Gentile recently awarded an international prize for his contributions to our appreciation of the central role played by political religion in the modern age This is preceded by an editorial essay by Roger Griffin one of fascist studies most original thinkers Alongside these contributions the reader is presented with a wealth of work that redefines the complex concept of totalitarian movement and our understanding of generic Fascism Taken as a whole it comprehensively analyses the links between particular totalitarian movements and regimes and the concrete historical phenomena produced in the light of current radical theories of fascism totalitarianism and political religion This book will be of great interest to all students and scholars of international relations politics and contemporary history This volume was previously published as a special issue of the journal Totalitarian Movements and Political Religions **The Ku Klux Klan and Related American Racist and Antisemitic Organizations** Chester L. Quarles, 1999-01-01 Despite the fact that the Ku Klux Klan can be traced from the 1700s through the Civil War and is going strong in the present day many people fail to realize the reach and influence of the group Many scholars for instance perceive the KKK as a radical racist group composed primarily of ignorant uneducated members when it is actually much more Some Klan groups are political while others are simply social Some meet and eat just as any other mainstream civic or church group but others are focused toward the use of well planned violence Not all Klan groups advocate an overthrow of the U S government though some do The author traces the historical development of the Klan addressing its organization membership ideologies and philosophies Avoiding the bias of previous

works written by either Klan apologists or detractors the author chronicles the directions the group has taken during its long and diverse history The study also details the secret oaths of allegiance the Imperial Wizards and the concept of Knighthood The result is an accurate account of the Ku Klux Klan a group that has continued to grow and evolve in response to changing times Introduction to New and Alternative Religions in America William M. Ashcraft, Eugene V. Gallagher, 2006-10-30

Most new or alternative religious are gravely misunderstood by members of the religious mainstream Labeled cults or sects groups and their members are often ridiculed or otherwise disregarded as weird and potentially dangerous by the populace at large Despite their efforts at educating the general public the various anti and counter cult activists have in fact promoted much more mis understanding than accurate understanding of the religious lives of some of their fellow citizens

Consequently they have helped to create a very hostile environment for anyone whose religious practices do not fit within a so called mainstream This set rectifies the situation by presenting accurate comprehensive authoritative and accessible accounts of various new and alternative religious movements that have been and are active in American society and it addresses ways of understanding new and alternative religions within a broader context Determining what actually constitutes a new or alternative religion is a subject of constant debate Questions arise as to a new faith s legitimacy beliefs methods of conversion and other facets of a religious movement s viability and place in a given culture How a religion gains recognition by the mainstream which often labels such new movements as cults is fraught with difficulty tension and fear Here experts delineate the boundaries and examine the various groups beliefs movements and other issues related to new faiths and alternative beliefs Readers will come away with a fuller understanding of the religious landscape in America today Volume 1 History and Controversies discusses the foundations of new and alternative religions in the United States and addresses the controversies that surround them This volume helps readers better understand what makes a new or alternative belief system a religion and the issues involved Volume 2 Jewish and Christian Traditions explores the various new religions that have grown out of these two Abrahamic faiths Groups such as the Shakers the People s Temple the Branch Davidians Jehovah s Witnesses and others are examined Volume 3 Metaphysical New Age and Neopagan Movements looks at Shamanism Spiritualism Wicca and Paganism among other movements as they have developed and grown in the U S These faiths have found new and devoted followers yet are often misunderstood Volume 4 Asian Traditions focuses on those new and alternative religions that have been inspired by Asian religious traditions From Baha i to Soka Gakkai from Adidam to the Vedanta Society contributors look at a full range of groups practicing and worshiping in the U S today Volume 5 African Diaspora Traditions and Other American Innovations examines the various traditions linked to the African diaspora such as Rastafarianism Santeria and the Nation of Islam alongside traditions that are truly American incarnations like Scientology UFO religions and Heaven s Gate Some of the new and alternative religions covered in these pages include Shamanism Wicca Black Israelites Santeria Scientology Elan Vital Hare Krishna Soka Gakkai and many more *Religion and American*

Cultures Gary Laderman, Luis León, 2014-12-17 This four volume work provides a detailed multicultural survey of established as well as new American religions and investigates the fascinating interactions between religion and ethnicity gender politics regionalism ethics and popular culture This revised and expanded edition of *Religion and American Cultures Tradition Diversity and Popular Expression* presents more than 140 essays that address contemporary spiritual practice and culture with a historical perspective The entries cover virtually every religion in modern day America as well as the role of religion in various aspects of U S culture Readers will discover that Americans aren't largely Protestant Catholic or Jewish anymore and that the number of popular religious identities is far greater than many would imagine And although most Americans believe in a higher power the fastest growing identity in the United States is the nones those Americans who elect none when asked about their religious identity thereby demonstrating how many individuals see their spirituality as something not easily defined or categorized The first volume explores America's multicultural communities and their religious practices covering the range of different religions among Anglo Americans and Euro Americans as well as spirituality among Latino African American Native American and Asian American communities The second volume focuses on cultural aspects of religions addressing topics such as film Generation X public sacred spaces sexuality and new religious expressions The new third volume expands the range of topics covered with in depth essays on additional topics such as interfaith families religion in prisons belief in the paranormal and religion after September 11 2001 The fourth volume is devoted to complementary primary source documents

Mitigating Mass Violence and Managing Threats in Contemporary Society Crews, Gordon A., Markey, Mary Ann, Kerr, Selina E.M., 2021-06-04 In a decade that has seen the rise of far right extremism Western countries still face myriad threats of mass violence including terrorism Of particular concern is the phenomenon of lone wolf terrorism whereby acts of political violence are committed by individuals who are operating independently of any organized terrorist group something which makes them inherently more difficult to identify in advance of an attack Now there is a need for research that profiles these perpetrators explores the incidents that occur and analyzes the shifting changes in mass violence technology and terrorist behavior in modern times *Mitigating Mass Violence and Managing Threats in Contemporary Society* explores the shifting definitions and implications of mass violence and covers important areas focused on the individuals who partake in these acts as well as weapon choice and the influence of weapon accessibility how the attention seeking behavior and promotion of violent actions is evolving and how technology is used such as disseminating a manifesto prior to the incidents or using live streaming to broadcast incidents of mass violence as they transpire The book also examines ways to prevent these incidents before they occur which is a proven challenge with no single accurate profile for offenders and whether perpetrators of mass violence share similar goals and motivations for their sprees as well as commonalities in warning behaviors This comprehensive research work is essential for law enforcement military officials defense specialists national security experts criminologists psychologists government officials policymakers lawmakers

professionals practitioners academicians students and researchers working in the fields of conflict analysis and resolution crisis management law enforcement mental health education psychology sociology criminology criminal justice terrorism and other social sciences Research Anthology on Modern Violence and Its Impact on Society Management Association, Information Resources,2022-08-12 Violence on both large and small scales has a tremendous impact on society The causes and impacts of violence have been under study for decades however in the modern era it is important to remain knowledgeable of the current research on violence As tragic events flood news headlines around the world it is essential to evaluate violence its causes and its impact on society in order to mitigate and prevent violence globally The Research Anthology on Modern Violence and Its Impact on Society discusses the causes ideologies and perceptions of modern violence and examines its impact on society It presents emerging research on modern violence in multiple dimensions from interpersonal to mass violence Covering topics such as gun violence radicalization and victim offender overlap this major reference work is an essential resource for sociologists politicians government officials law enforcement community leaders educators and administrators of both K 12 and higher education students of higher education psychologists criminologists victimologists researchers and academicians **Religion, Secular Beliefs and Human Rights** Natan Lerner,2012-08-01

Religion and beliefs related to religion are a central factor in international life and politics International law and human rights law in particular have to take into consideration the religious dimension and have done it to some extent A body of positive law has already been developed for the protection of freedom of religion and from religion by the United Nations and regional and specialized organizations The first edition of this book appeared six years ago in coincidence with the 25th anniversary of the 1981 United Nations Declaration on the Elimination of All Forms of Intolerance and Discrimination Based on Religion of Belief It discussed the legal meaning of religion and belief the United Nations work in this respect religious minorities relevant regional and special arrangements the issue of proselytism religion and terrorism religious symbols international criminal law and some particular cases such as the state and religious communities in Israel and this country s agreement with the Holy See This second edition of the book updates the information on relevant developments that took place in the time elapsed and incorporates several new chapters on important issues related to religious freedoms Such are the chapters on freedom from religion religion and freedom of association religion and freedom of expression including the controversy with respect of defamation of religions and group rights and legal pluralism The order of the chapters has been rearranged It is hoped that law and political science schools human rights associations and scholars as well as governments and bodies active in the area of religious freedoms will find interest in this second revised and considerably enlarged edition

Gods of the Blood Mattias Gardell,2003-06-27 An ethnographic study of the development of racist paganism in the United States during the 1990s examining the economic cultural and political developments racist paganism reacts to or makes use of **Religious Myths and Visions of America** Christopher Buck,2009-04-30 At the heart of American studies

is the idea of America itself Here Buck looks at the religious significance of America by examining those religions that have attached some kind of spiritual meaning to America The author explores how American Protestantism and nine minority faiths have projected America into the mainstream of world history by defining and by redefining America s world role Surveying the religious myths and visions of America of ten religions Buck shows how minority faiths have redefined America s sense of national purpose This book invites serious reflection on what it means to be an American particularly from a religious perspective Religious myths of America are thought orienting narratives that serve as vehicles of spiritual and social truths about the United States itself Religious visions of America are action oriented agendas that articulate the goals to which America should aspire and the role it should play in the community of nations Buck examines the distinctive perspectives held by ten religious traditions that inform and expand on the notion of America and its place in the world He covers Native American Protestant Catholic Jewish Mormon Christian Identity Black Muslim Islamic Buddhist and Baha i beliefs and invites serious reflection on what it means to be an American particularly from a religious perspective

The Paranoid Apocalypse Steven T. Katz, 2011-12-12 An in depth analysis of an anti semitic conspiracy theory from its origins in the 20th century to its resurgence today The Protocols of the Elders of Zion first published in Russia around 1905 claimed to be the captured secret protocols from the first Zionist Congress in Basel in 1897 describing a plan by the Jewish people to achieve global domination While the document has been proven to be fake much of it plagiarized from satirical anti Semitic texts it had a major impact throughout Europe during the first half of the 20th century particularly in Germany After World War II the text was further denounced Anyone who referred to it as a genuine document was seen as an ignorant hate monger Yet there is abundant evidence that The Protocols is resurfacing in many places The Paranoid Apocalypse re examines the text s popularity investigating why it has persisted as well as larger questions about the success of conspiracy theories even in the face of claims that they are blatantly counterfactual and irrational It considers the medieval pre history of The Protocols the conditions of its success in the era of early twentieth century secular modernity and its post Holocaust avatars from the Muslim world to Walmart and Left wing anti American radicalism Contributors argue that the key to The Protocols longevity is an apocalyptic paranoia that lays the groundwork not only for the myth s popularity but for its implementation as a vehicle for genocide and other brutal acts

Secret Societies and Clubs in American History David Luhrssen, 2015-09-09 Grounded in extensive historical research this eye opening survey reveals the long undervalued role secret societies have played in American history Americans are fascinated by secret societies and have devoured exaggerated claims for their influence At the same time scholarly assessments of covert groups that have shaped American social cultural and political history have often undervalued their role or even questioned their existence This survey challenges both the exaggerators and the deniers Freemasons They may not be the hidden rulers of the world but a significant number of America s founders were Masons The Know Nothings Two American presidents joined the movement The Bohemian Grove

Republican politicians and corporate leaders really did engage in strange behavior under the redwood trees through the 20th century Revealing fascinating facts about some of the most talked about covert societies including the Mafia the Skull and Bones and the Ku Klux Klan Secret Societies and Clubs in American History exposes the truth about the subcultures that made their mark on some of the most important events in the nation s history and contributed to the shaping of the country itself

A History of the Apocalypse Catalin Negru,2023-01-20 Religion For thousands of years this thing has dictated which people should live and which people should die what shape our buildings should have or what colors our garments should contain what food people should eat or what words people should speak If religion is the opium of the masses then beliefs about the end of the world are like overdoses People touched by such beliefs no longer rely on a hidden personal and intimate god contemplated upon from the safe distance of the beating human heart They live with the promise of divine intervention at a grand scale on the current coordinates of space and time This can be an exceptional motivator and a game changer in terms of civil obedience both at an individual and collective level In the name of an immediate and palpable deity people can commit shocking cruelties However such belief can also account for some of the most exceptional social developments in human history

Encyclopedia of Fundamentalism: Volume 3 of Religion & Society Brenda Brasher,2001-10-19 The Encyclopedia of Fundamentalism is the third volume of the acclaimed Religion Society series The Encyclopedia of Fundamentalism follows a broad definition of fundamentalism and covers fundamentalism across time and place although the emphasis remains on its primary manifestation Protestant fundamentalism in the United States It draws upon the work of historians sociologists religious scholars anthropologists political scientists and others

The Promise and Perils of Populism Carlos de la Torre,2015-01-13 From the protesters in Cairo s Tahrir Square to the Tea Party in the United States to the campaign to elect indigenous leader Evo Morales in Bolivia modern populist movements command international attention and compel political and social change When citizens demand power to the people they evoke corrupt politicians imperialists or oligarchies that have appropriated power from its legitimate owners These stereotypical narratives belie the vague and often contradictory definitions of the concept of the people and the many motives of those who use populism as a political tool In *The Promise and Perils of Populism* Carlos de la Torre assembles a group of international scholars to explore the ambiguous meanings and profound implications of grassroots movements across the globe These trenchant essays explore how fragile political institutions allow populists to achieve power while strong institutions confine them to the margins of political systems Their comparative case studies illuminate how Latin American African and Thai populists have sought to empower marginalized groups of people while similar groups in Australia Europe and the United States often exclude people whom they consider to possess different cultural values While analyzing insurrections in Latin America advocacy groups in the United States Europe and Australia and populist parties in Asia and Africa the contributors also pose questions and agendas for further research This volume on contemporary populism from a comparative perspective could not

be more timely and scholars from a variety of disciplines will find it an invaluable contribution to the literature *Radical Religion and Violence* Jeffrey Kaplan, 2015-11-19 Jeffrey Kaplan has been one of the most influential scholars of new religious movements extremism and terrorism His pioneering use of interpretive fieldwork among radical and violent subcultures opened up new fields of scholarship and vastly increased our understanding of the beliefs and activities of extremists This collection features many of his seminal contributions to the field alongside several new pieces which place his work within the context of the latest research developments Combining discussion of the methodological issues alongside a broad array of case studies this will be essential reading for all students and scholars of extremism religion and politics and terrorism

Apocalyptic Fever Richard G. Kyle, 2012-08-01 How will the world end Doomsday ideas in Western history have been both persistent and adaptable peaking at various times including in modern America Public opinion polls indicate that a substantial number of Americans look for the return of Christ or some catastrophic event The views expressed in these polls have been reinforced by the market process Whether through purchasing paperbacks or watching television programs millions of Americans have expressed an interest in end time events Americans have a tremendous appetite for prophecy more than nearly any other people in the modern world Why do Americans love doomsday In *Apocalyptic Fever* Richard Kyle attempts to answer this question showing how dispensational premillennialism has been the driving force behind doomsday ideas Yet while several chapters are devoted to this topic this book covers much more It surveys end time views in modern America from a wide range of perspectives dispensationalism Catholicism science fringe religions the occult fiction the year 2000 Islam politics the Mayan calendar and more **Religion and Terrorism** Veronica Ward, Richard Sherlock, 2013-12-24

Religion and Terrorism The Use of Violence in Abrahamic Monotheism provides theoretical analysis of the nature of religious terrorism and religious martyrdom and also delves deeply into terrorist groups and beliefs in Judaism Christianity and Islam Religious terrorism is found in all three of the great monotheistic faiths and while the public is most aware of Islamic terrorism Jewish and Christian faiths have extremist groups that warp their teaching in ways unrecognizable to most adherents to support terrorism This work will be of interest to scholars in religious studies political science and sociology

Noah's Curse Stephen R. Haynes, 2002-03-28 A servant of servants shall he be unto his brethren So reads Noah's curse on his son Ham and all his descendants in Genesis 9:25 Over centuries of interpretation Ham came to be identified as the ancestor of black Africans and Noah's curse to be seen as biblical justification for American slavery and segregation Examining the history of the American interpretation of Noah's curse this book begins with an overview of the prior history of the reception of this scripture and then turns to the distinctive and creative ways in which the curse was appropriated by American pro slavery and pro segregation interpreters *The Complexity of Religious Inequality* Melissa Wilde, 2021-04-27 Although scholars of religion acknowledge religion's deep interconnectedness with race and ethnicity in and occasionally class we nonetheless typically study religion as a factor that is independent from other social structures Likewise we rarely

systematically examine class race or gender differences between or within religious groups This journal issue will highlight research that moves beyond these weaknesses by publishing papers that intentionally examine aspects of inequality as they relate to religion Papers that explore these connections historically or in contemporary times and internationally or locally are all encouraged

Enjoying the Beat of Appearance: An Emotional Symphony within **Religion And The Racist Right**

In some sort of consumed by monitors and the ceaseless chatter of fast conversation, the melodic splendor and mental symphony produced by the prepared word often fade in to the background, eclipsed by the constant noise and disturbances that permeate our lives. But, located within the pages of **Religion And The Racist Right** a wonderful fictional treasure overflowing with fresh feelings, lies an immersive symphony waiting to be embraced. Crafted by an elegant musician of language, that charming masterpiece conducts readers on an emotional trip, skillfully unraveling the hidden songs and profound affect resonating within each cautiously constructed phrase. Within the depths with this touching examination, we can investigate the book is central harmonies, analyze its enthralling writing fashion, and submit ourselves to the profound resonance that echoes in the depths of readers souls.

Religion And The Racist Right Introduction

In the digital age, access to information has become easier than ever before. The ability to download Religion And The Racist Right has revolutionized the way we consume written content. Whether you are a student looking for course material, an avid reader searching for your next favorite book, or a professional seeking research papers, the option to download Religion And The Racist Right has opened up a world of possibilities. Downloading Religion And The Racist Right provides numerous advantages over physical copies of books and documents. Firstly, it is incredibly convenient. Gone are the days of carrying around heavy textbooks or bulky folders filled with papers. With the click of a button, you can gain immediate access to valuable resources on any device. This convenience allows for efficient studying, researching, and reading on the go. Moreover, the cost-effective nature of downloading Religion And The Racist Right has democratized knowledge. Traditional books and academic journals can be expensive, making it difficult for individuals with limited financial resources to access information. By offering free PDF downloads, publishers and authors are enabling a wider audience to benefit from their work. This inclusivity promotes equal opportunities for learning and personal growth. There are numerous websites and platforms where individuals can download Religion And The Racist Right. These websites range from academic databases offering research papers and journals to online libraries with an expansive collection of books from various genres. Many authors and publishers also upload their work to specific websites, granting readers access to their content without any charge. These platforms not only provide access to existing literature but also serve as an excellent platform for undiscovered authors to share their work with the world. However, it is essential to be cautious while downloading Religion And The Racist Right. Some websites may offer pirated or illegally obtained copies of copyrighted material. Engaging in such activities not only violates copyright laws but also undermines the efforts of authors, publishers, and researchers. To ensure ethical downloading, it is advisable to utilize reputable websites that prioritize the legal distribution of content. When downloading Religion And The Racist Right, users should also consider the potential security risks associated with online

platforms. Malicious actors may exploit vulnerabilities in unprotected websites to distribute malware or steal personal information. To protect themselves, individuals should ensure their devices have reliable antivirus software installed and validate the legitimacy of the websites they are downloading from. In conclusion, the ability to download Religion And The Racist Right has transformed the way we access information. With the convenience, cost-effectiveness, and accessibility it offers, free PDF downloads have become a popular choice for students, researchers, and book lovers worldwide. However, it is crucial to engage in ethical downloading practices and prioritize personal security when utilizing online platforms. By doing so, individuals can make the most of the vast array of free PDF resources available and embark on a journey of continuous learning and intellectual growth.

FAQs About Religion And The Racist Right Books

1. Where can I buy Religion And The Racist Right books? Bookstores: Physical bookstores like Barnes & Noble, Waterstones, and independent local stores. Online Retailers: Amazon, Book Depository, and various online bookstores offer a wide range of books in physical and digital formats.
