Religion Business And Wealth In Modern Britain:

Religion, Business and Wealth in Modern Britain David Jeremy, 2006-08-21 The relationship of economics capitalism and wealth to the ethics and morality of religion has intrigued and challenged policymakers pressure groups theologians sociologists economists and historians for centuries Here David Jeremy addresses these questions in the context of modern Britain His preliminary survey of historical controversies within religion and business and the accompanying chronology of significant events since the 1770s are an extremely useful introduction for those unfamiliar with the field

Entrepreneurship and Religion Léo-Paul Dana, 2010-01-01 I wish this book had been around when I tried to teach about entrepreneurship in its social context life would have been much easier with these informed sources Alistair R Anderson Aberdeen Business School UK This rich and detailed book makes a very timely contribution to extending our understanding of entrepreneurship in its social context Using selected examples the respected contributors show how the values developed in religious beliefs and practices shape entrepreneurship For too long the entrepreneur has been characterized as an isolated economically driven individual thus ignoring how enterprise and entrepreneurs are products of their society their culture and their religion This innovative book discusses both entrepreneurship and religion as well as indicating how the synthesis of beliefs and practices combine in entrepreneurial endeavours It provides a conceptually useful way of framing the individualistic entrepreneur in his or her social and cultural context demonstrating how entrepreneurial agency operates within and through a variety of religious contexts Illustrated with original photographs this captivating book will be warmly welcomed by students and researchers with interests in entrepreneurship sociology religion and cultural studies Government policy makers in immigration will also find this book an invaluable read

Entrepreneurs and Capitalism since Luther Ivan Light, Léo-Paul Dana, 2020-08-20 In *Entrepreneurs and Capitalism since Luther* Rediscovering the Moral Economy Ivan Light and L o Paul Dana study the history of business capitalism and entrepreneurship to examine the values of social and cultural capital Six chapters evaluate case studies that illustrate contrasting relationships between social networks vocational culture and entrepreneurship Light and Dana argue that in capitalism s early stages cultural capital is scarcer than social capital and therefore more crucial for business owners Conversely when capitalism is well established social capital is scarcer than cultural capital and becomes more crucial Light and Dana then trace moral legitimations of capitalism from the Reformation to the Enlightenment the Gilded Age and finally to Joseph Schumpeter whose concept of creative destruction freed elite entrepreneurs from moral restraints that encumber small business owners After examining the availability of social and cultural capital in the contemporary United States Light and Dana show that business owners social capital enforces conventional morality in markets facilitating commerce and legitimating small businesses the old fashioned way As their networks become more isolated elite entrepreneurs must claim and ultimately deliver successful results to earn public toleration of immoral or predatory conduct

The Evangelical Age of Ingenuity in Industrial Britain Joseph

Stubenrauch,2016-07-28 The Evangelical Age of Ingenuity in Industrial Britain argues that British evangelicals in the late eighteenth and early nineteenth centuries invented new methods of spreading the gospel as well as new forms of personal religious practice by exploiting the era's growth of urbanization industrialization consumer goods technological discoveries and increasingly mobile populations While evangelical faith has often been portrayed standing in inherent tension with the transitions of modernity Joseph Stubenrauch demonstrates that developments in technology commerce and infrastructure were fruitfully linked with theological shifts and changing modes of religious life This volume analyzes a vibrant array of religious consumer and material culture produced during the first half of the nineteenth century Mass print and cheap mass produced goods from tracts and ballad sheets to teapots and needlework mottoes were harnessed to the evangelical project By examining ephemera and decorations alongside the strategies of evangelical publishers and benevolent societies Stubenrauch considers often overlooked sources in order to take the pulse of vital religion during an age of upheaval He explores why and how evangelicals turned to the radical alterations of their era to bolster their faith and why serious Christianity flowered in an industrial age that has usually been deemed inhospitable to it T&T Clark Companion to Nonconformity

Robert Pope,2013-11-21 Protestant Nonconformity the umbrella term for Congregationalists Presbyterians Baptists Methodists and Unitarians belongs specifically to the religious history of England and Wales Initially the result of both unwillingness to submit to the State's interference in Christian life and a dissatisfaction with the progress of reform in the English Church Nonconformity has been primarily motivated by theological concern ecclesial polity devotion and the nurture of godliness among the members of the church Alongside such churchly interests Nonconformity has also made a profound contribution to debates about the role of the State to family life and education culture in general trade and industry the development of philanthropy and charity and the development of pacifism In this volume for the first time Nonconformity and the breadth of its activity come under the expert scrutiny of a host of recognised scholars The result is a detailed and fascinating account of a movement in church history that while currently in decline has made an indelible mark on social political economic and religious life of the two nations Family and Business During the Industrial Revolution

Hannah Barker,2017 This is an open access title available under the terms of a CC BY NC ND 4.0 International licence It is free to read at Oxford Scholarship Online and offered as a free PDF download from OUP and selected open access locations Small businesses were at the heart of the economic growth and social transformation that characterized the industrial revolution in Britain In towns across north west England shops and workshops dominated the streetscape and helped to satisfy an increasing desire for consumer goods Yet despite their significance we know surprisingly little about these firms and the people who ran them for whilst those engaged in craft based manufacturing retailing and allied trades constituted a significant proportion of the urban population they have been generally overlooked by historians Instead our view of the world of business is more usually taken up by narratives of particularly successful firms and especially those involved in new

modes of production By examining some of the forgotten businesses of the industrial revolution and the men and women who worked in them *Family and Business During the Industrial Revolution* presents a largely unfamiliar commercial world Its approach which spans economic social and cultural history as well as encompassing business history and the histories of the emotions space and material culture alongside studies of personal testimony testatory practice and property ownership tests current understandings of gender work family class and power in the late eighteenth and early nineteenth centuries It provides us with new insights into the lives of ordinary men and women in trade whose relatively mundane lives are easily overlooked but who were central to the story of a pivotal period in British history *Friends, Neighbours, Sinners* Carys Brown,2022-08-04 *Friends Neighbours Sinners* shows the crucial role of religious difference in shaping English culture and society after 1689 By throwing into relief the cultural impact of England s unstable religious settlement it highlights the centrality of religious difference to understanding social and cultural change after 1689 *Faith of Our Fathers* Richard C. Allen,Joan Allen,2009-03-26 The study of popular culture has been an abiding preoccupation of historians and other academics not just in the British Isles but elsewhere too This volume of essays explores the manifestations of popular culture and belief in England Ireland and Wales from the Reformation onwards As an interdisciplinary collection it brings together specialists in English Literature History Celtic and Religious Studies It offers new insights thematically via a selection of diverse contributions The nexus between religion and popular culture links the contributions together while the geographical spread of the topic facilitates a dynamic comparative methodology What emerges from these explorations of rites of passage festivals revivalism print culture and gender is the remarkable resilience of popular culture and the extent to which all levels of society were prepared to compromise *The Origins of Globalization* Karl Moore,David Charles Lewis,2009-06-02 *The Origins of Globalization* presents a startling look at the shape of known world globalization dating back to the Roman Empire and earlier including multicultural workforces tariff reduced zones interregional tax issues currency risks and other phenomena **Ecumenism and History** Anthony R. Cross,2007-09-01 This collection of essays revolves around the two fields in which Professor John Briggs has contributed so much history particularly Baptist and Nonconformist and the ecumenical movement and many examine the interrelationship between them With contributions from colleagues and former research students from Britain Europe and North America *Ecumenism and History* provides wide ranging studies in important aspects of Christian history theology and ecumenical studies *British Philanthropy in the Globalizing World* Roshan Allpress,2024-02-16 Between 1756 and 1840 philanthropy in the British world grew from the domain of small associational committees to a vast enterprise of philanthropic and humanitarian societies with global reach *British Philanthropy in the Globalizing World* tells the story of this movement from its inception in small networks of mercantile and religious entrepreneurs to its signal projects and achievements in the abolition of slavery in evangelical missionary societies Bible societies and in the early indigenous rights movement It traces the lives and networks of hundreds of philanthropists

across four generations showing how their social religious economic intellectual and cultural worlds intersected to foster philanthropic innovation through organisational models transnational networks and the creation of a unique formative culture It shows how groups such as the Clapham Sect including William Wilberforce Henry Thornton Hannah More James Stephen and others emerged in an intergenerational context and how they sought to effect social and cultural change across multiple spheres For every headline achievement there were many failed experiments inner wrestlings and long running intellectual collaborations that left a wide and deep imprint on the cultural and political landscape of the English speaking world Drawing on the separate historiographies of metropolitan philanthropy associational culture anti slavery moral reform Evangelicalism colonial missions and economic thought the study unites into one analytical frame both the imaginative and organizational realities of philanthropy offering a dual focus on individual philanthropists their inner lives daily practices and participation in collaborative communities and on mapping the networks that bound philanthropic societies and projects together in metropolitan London and at the far reaches of the British world In doing so it offers a very human portrait of these entrepreneurs and evangelicals as they pursued a philanthropic global vision

attention is paid to English speaking evangelicalism but the volume is transnational in its scope Arranged thematically chapters assess evangelicalism and the Bible the atonement spirituality revivals and revivalism worldwide mission in the Atlantic North and the Global South eschatology race gender culture and the arts money and business interactions with Roman Catholicism Eastern Christianity and Islam and globalization It demonstrates evangelicalism s multiple and contested identities in different ages and contexts The historical and thematic approach of this research companion makes it an invaluable resource for scholars and students alike worldwide

The Foundations of Female Entrepreneurship Alison Kay,2012-08-21

The Foundations of Female Entrepreneurship explores the relationship between home household headship and enterprise in Victorian London It examines the notions of duty honor and suitability in how women s ventures are represented by themselves and others and engages in a comparison of the interpretation of historical female entrepreneurship by contemporaries and historians in the UK Europe and America It argues that just as women in business have often been hidden by men they have often also been hidden by the home and the conceptualization of separate spheres of public and private agency and of the entrepreneur Drawing on contextual evidence from 1747 to 1880 including fire insurance records directories trade cards newspapers memoirs the census and extensive record linkage this study concentrates on the early to mid Victorian period when ideals about gender roles and appropriate work for women were vigorously debated Alison Kay offers new insight into the motivations of the Victorian women who opted to pursue enterprises of their own By engaging in empirical comparisons with men s business it also reveals similarities and differences with the small to medium sized ventures of male business proprietors The link between home and enterprise is then further excavated by detailed record linkage revealing the households and domestic circumstances and responsibilities of female proprietors Using both discourse and data to connect enterprise proprietor and household The Foundations of Female Entrepreneurship provides a multi dimensional picture of the Victorian female proprietor and moves beyond the stereotypes It argues that active business did not exclude women although careful representation was vital and this has obscured the similarities of their businesses with those of many male business proprietors
