W. Tozer, 2009-11-18 Faith Beyond Reason a book by A W Tozer is a compilation of sermons on the book of John It is within this series of sermons that you will find A W Tozer addressing the whole truth that all things are possible with God Tozer takes us in Faith Beyond Reason to a new understanding of our spiritual birth and human conscience and addresses our enlightened spirit inner knowledge and the resurrection IT is these truths that sustain us in our Christian walk Faith Beyond Reason comes to us with insights of faith and Tozer takes an in depth look and what it stands on In Tozer s typical fashion and style he explores the things that are beyond or frail human understanding Faith Beyond Reason will leave you with a new and empowering sense of the faith while subtly revealing the power of God in our lives The question every Christian must ask as they prepare to walk with God is do they really believe that the God they worship will move heaven and earth for them if they truly trust in Him The whole premise of this book is that with God nothing is impossible especially when it comes to His children We must act with faith and do what is needed The Reformed Church Review, 1902 *The Resilience of Conservative Religion* Joseph B. Tamney, 2002-02-11 The recent growth and popularity of conservative churches contradicts the idea that late modern societies have outgrown the need for such relics of the past as traditionalist religions In this book Joseph Tamney offers an explanation for this this apparent incongruity by looking at the case of growing popular conservative Protestant congregations in the United States His findings represent a synthesis of ideas from supporters of secularization theory and from those who stress the competitive market of churches in America as a factor in church growth

The Landscapes of Science and Religion Nick Spencer, Hannah Waite, 2025-01-24 The relationship between science and religion has long been a heated debate and is becoming an ever more popular topic The scientific capacity to manipulate and change humans and their environment through genetic engineering life extension and AI is going to take a huge leap forward in the twenty first century provoking endless debates around humans playing God But what do we mean by this Asking this question is surprisingly hard work Attempts to essentialise science let alone religion quickly run into trouble Where are the boundaries Whose definition of science is definitive Which concept of religious is the authoritative one Ultimately neither science nor religion can be pinned down to one single meaning or definition Rather they encompass a family of definitions that relate to one another in a complex web of shifting ways Drawing on extensive research with over a hundred leading thinkers in the UK including Martin Rees Brian Cox Susan Greenfield A C Grayling Ray Tallis Linda Woodhead Steve Bruce Adam Rutherford Robin Dunbar Francesca Stavrakopoulou and Iain McGilchrist *The Landscapes of Science and Religion* takes the much needed step of asking what science and religion actually are before turning to the

familiar question of how they relate to one another Building on this by paying particular attention to those who sense some form of conflict here Spencer and Waite explore where the perceived conflict really lies What exactly are people disagreeing about when they disagree about science and religion and what if anything can we do to improve that disagreement and bring about a fruitful dialogue between these two important human endeavours **Film and Video Finder, 1997**, 1997
