Under the Banner of Islam Gülay Türkmen, 2021-01-22. Sunni Islam has played an ambivalent role in Turkey's Kurdish conflict both as a conflict resolution tool and as a tool of resistance. Under the Banner of Islam uses Turkey as a case study to understand how religious, ethnic and national identities converge in ethnic conflicts between co-religionists. Gülay Türkmen asks a question that informs the way we understand religiously homogeneous ethnic conflicts today: Is it possible for religion to act as a resolution tool in these often violent conflicts?

Edward Said's Rhetoric of the Secular Mathieu E. Courville, 2011-10-20 Edward Said's *Rhetoric of the Secular* provides an important new reading of Edward W. Said's work emphasizing not only the distinction but also the fuzzy borders between representations of the religious and the secular found within and throughout his oeuvre and at the core of some of his most customary rhetorical strategies. Mathieu Courville begins by examining Said's own reflections on his life before moving on to key debates about Said's work within Religious Studies and Middle Eastern Studies and his relationship to French critical theorists. Through close attention to Said's use of the literal and the figurative when dealing with religious, national, and cultural matters, Courville discerns a pattern that illuminates what Said means by secular. Said's work shows that the secular is not the utter opposite of religion in the modern globalized world but may exist in a productive tension with it.

Teaching for Diversity and Social Justice Maurianne Adams, Lee Anne Bell, Pat Griffin, 2007-05-11 For nearly a decade *Teaching for Diversity and Social Justice* has been the definitive sourcebook of theoretical foundations and curricular frameworks for social justice teaching practice. This thoroughly revised second edition continues to provide teachers and facilitators with an accessible pedagogical approach to issues of oppression in classrooms. Building on the groundswell of interest in social justice education, the second edition offers coverage of current issues and controversies while preserving the hands-on format and inclusive content of the original. *Teaching for Diversity and Social Justice* presents a well-constructed foundation for engaging the complex and often daunting problems of discrimination and inequality in American society. This book includes a CD-ROM with extensive appendices for participant handouts and facilitator preparation.

Regimes and Repertoires Charles Tilly, 2010-02-15 The means by which people protest—that is, their repertoires of contention—vary radically from one political regime to the next. Highly capable undemocratic regimes such as China's show no visible signs of popular social movements yet produce many citizen protests against arbitrary predatory government. Less effective and undemocratic governments like the Sudan's meanwhile often experience regional insurgencies and even civil wars. In *Regimes and Repertoires*, Charles Tilly offers a fascinating and wide-ranging case-by-case study of various types of government and the equally various styles of protests they foster. Using examples drawn from many areas—G8 summit and anti-globalization protests, Hindu activism in 1980s India, nineteenth-century English Chartists organizing on behalf of workers' rights, the revolutions of 1848, and civil wars in Angola, Chechnya, and Kosovo—Tilly masterfully shows that such episodes of contentious politics unfold like loosely scripted theater. Along the way, Tilly also brings forth powerful tools to sort out the reasons why certain political regimes vary and change, how the people living under them make claims on their government, and what connections can be drawn between regime change and the character of contentious politics.

Ethics and Values in Psychotherapy Alan Tjeltveit, 2003-09-02 *Ethics and Values in Psychotherapy* is an examination of the role of the therapist as ethicist and the ways in which the ethical convictions of both therapist and client

contribute to the practical process of psychotherapy As Psychotherapy strives to establish itself as a Profession practitioners are increasingly focusing on the issue of ethics as they attempt to agree on guidelines and standards for professional practice Alan Tjeltveit argues that any discussion of professional and ethical practice in psychotherapy is inadequate if carried out in ignorance of or in isolation from traditional ethical theories He applies this approach to issues such as the role of therapy in society the goals and outcomes of psychotherapy techniques and practices the existence and operation of values the intellectual and social context in which therapy takes place In the second part of the book he uses clinical examples and case studies to relate this theoretical discussion to clinical practice Ethics and Values in Psychotherapy will be welcomed by the growing number of experienced Psychotherapists and post graduate students who are interested in the increasingly contentious issue of professional ethics *Faith- Based Diplomacy Trumping Realpolitik* Douglas Johnston, 2008-06-02 For most of the twentieth century the most critical concerns of national security have been balance of power politics and the global arms race The religious conflicts of this era and the motives behind them however demand a radical break with this tradition If the United States is to prevail in its long term contest with extremist Islam it will need to re examine old assumptions expand the scope of its thinking to include religion and other irrational factors and be willing to depart from past practice This book looks at five intractable conflicts and explores the possibility of drawing on religion as a force for peace The world class authors writing in this volume suggest how the peacemaking tenets of five major world religions can be strategically applied in ongoing conflicts in which those religions are involved
