Figueira,2020-01-20 This volume is meant to be a retrospective look at the field of Comparative Literature as it has developed in the past two decades as well as a reflection on its future direction if it is to remain relevant and innovative as a field of study From its inception in the second half of the twentieth century Comparative Literature in the US has been conceived as a cross disciplinary cross national and crosscultural enterprise that brings together theoretical developments in the Humanities and Social Sciences to reflect on the most important intellectual and cultural trends from a comparative perspective through the lens of literary studies Most of the founders of Comparative Literature were distinguished European scholars who sought a safe haven from the ravages of World War II and its aftermath and who understandably focused on the Western literary intellectual and cultural tradition which at the time was in danger of being annihilated by the onslaught of Fascism and Communism With the advent of the age of globalization the field of Comparative Literature has become increasingly diverse and must therefore be reoriented and recognized accordingly      **From Shakespeare to**

Paul Schafer, 2008-04-29 In *Revolution or Renaissance* D. Paul Schafer subjects two of the most powerful forces in the world economics and culture to a detailed and historically sensitive analysis He argues that the economic age has produced a great deal of wealth and unleashed tremendous productive power however it is not capable of coming to grips with the problems threatening human and non human life on this planet After tracing the evolution of the economic age from the publication of Adam Smith's *The Wealth of Nations* in 1776 to the present he turns his attention to culture examining it both as a concept and as a reality What emerges is a portrait of the world system of the future where culture is the central focus of development According to Schafer making the transition from an economic age to a cultural age is imperative if global harmony environmental sustainability economic viability and human well being are to be achieved Published in English
