Religious Challenge To The State:

Global Rebellion Mark Juergensmeyer, 2008-05-16 A new religious activism has seized the imaginations of political rebels around the world In providing a road map through this complex terrain the author bases his discussion on interviews with militant activists and case studies of rebellious movements

State and Politics in Religious Peacebuilding Tale Steen-Johnsen, 2016-11-16 In this book Tale Steen Johnsen explains how religious peacebuilders are limited by both formal and more subtle political strategies aimed at regulating civil society Political authorities have a vested interest in keeping social and religious movements under control which limits the opportunities religious leaders have to diminish violent conflicts between religious groups This volume offers empirical examples of these connections in Ethiopia Kenya Zanzibar and Tanzania It is a valuable resource for both scholars and development practitioners interested in how politics and religion become conflated when religious actors engage to build peace

Challenges to the Cohesion of the Arab State Asher Susser, 2008 The relative weakness of the Arab state system and the spread of radical Islam threaten to undermine the cohesion of some key Arab states How are they coping with these challenges To what extent are their efforts succeeding in maintaining cohesion of the Arab States This work seeks to examine these crucial questions

Religion, Modernity, and Politics in Hegel Thomas A. Lewis, 2011-07-28 This study analyzes Hegel's philosophy of religion in relation to ongoing debates about the relation between religion and politics as well as the history of their conceptualization in the modern West Lewis argues that recent non traditional more Kantian interpretations of Hegel's project open up a new understanding of his treatment of religion

Institutional Origins of Islamist Political Mobilization Quinn Mecham, 2017-02-01 Muslim countries experience wide variation in levels of Islamist political mobilization including such political activities as protest voting and violence Institutional Origins of Islamist Political Mobilization provides a theory of the institutional origins of Islamist politics focusing on the development of religious common knowledge religious entrepreneurship and coordinating focal points as critical to the success of Islamist activism Examining Islamist politics in more than 50 countries over four decades the book illustrates that Islamist political activism varies a great deal appearing in specific types of institutional contexts Detailed case studies of Turkey Algeria and Senegal demonstrate how diverse contexts yield different types of Islamist politics across the Muslim world

The Politics of Buddhist Organizations in Taiwan, 1989-2003 André Laliberté, 2013-08-21 Laliberté looks at a relatively unexplored aspect of modern Taiwan the influence of religion on politics This book offers a detailed survey of three of the most important Buddhist organizations in Taiwan the Buddhist Association of the Republic of China BAROC the Buddha Light Mountain or Foguanshan monastic order and the Buddhist Compassion Relief Tzu Chi Association or Ciji It examines their contrasting approaches to three issues state supervision of religion the first presidential election of 1996 and the establishment of the National Health Insurance This study analyzes the factors that explain the diverse paths the three organizations have taken in the politics of Taiwan Based on an in depth examination of

Buddhist leaders behaviour The Politics of Buddhist Organizations in Taiwan compels us to question conventional views about the allegedly passive aspect of religious tradition deference to authority in societies influenced by Confucian culture and the adverse legacy of authoritarian regimes

Encyclopedia of Education Law Charles J. Russo, 2008-06-27 CHOICE Outstanding Academic Title for 2009 A welcome addition to any public or academic library this set would also be of use in a law library where educational law might need to be explored and reviewed at a more basic level than other legal texts Sara Rofofsky Marcus Queensborough Community Coll Bayside NY Smaller educational legal summaries exist and a couple of texts deal with Supreme Court cases about education but this set provides a unique combination of general educational legal issues and case specific information It should be a welcome addition to academic and large public libraries Also available as an ebook Booklist The Encyclopedia of Education Law is a compendium of information drawn from the various dimensions of education law that tells its story from a variety of perspectives The entries cover a number of essential topics including the following Key cases in education law including both case summaries and topical overviews Constitutional issues Key concepts theories and legal principles Key statutes Treaties e g the Universal Declaration on Human Rights Curricular issues Educational equity Governance Rights of students and teachers Technology Biographies Organizations In addition to these broad categories anchor essays by leading experts in education law provide more detailed examination of selected topics The Encyclopedia also includes selections from key legal documents such as the Constitution and federal statutes that serve as the primary sources for research on education law At the same time since education law is a component in a much larger legal system the Encyclopedia includes entries on the historical development of the law that impact on its subject matter Such a broadened perspective places education law in its proper context in the U S legal system Supreme Court's School Choice Decision and Congress' Authority to Enact Choice Programs United States. Congress. House. Committee on the Judiciary. Subcommittee on the Constitution, 2002 *Religion and Space* Lily Kong, Orlando Woods, 2016-02-11 This is the first study to bring space into conversation with religious competition conflict and violence in the contemporary world Lily Kong and Orlando Woods argue that because space is both a medium and an outcome of religious activity it is integral to understanding processes of religious competition conflict and violence The book explores how religious groups make claims to both religious and secular spaces and examines how such claims are managed negotiated and contested by the state and by other secular and religious agencies It also examines how globalisation has given rise to new forms of religious competition and how religious groups strengthen themselves through the development of social resilience as well as contribute to resilient societies Throughout the book case studies from around the world are used to examine how religious competition and conflict intersect with space The case studies include topical issues such as competing claims to the Temple Mount Haram el Sharif in Jerusalem opposition to the Ground Zero mosque in New York City and the regulation of religious conversion in India and Sri Lanka By helping readers develop new perspectives on how religion works in and through space

Religion and Space Competition Conflict and Violence in the Contemporary World is an innovative contribution to the study of religion

The Routledge Companion to the French Revolution in World History Alan Forrest, Matthias Middell, 2015-09-16 The Routledge Companion to the French Revolution in World History engages with some of the most recent trends in French revolutionary scholarship by considering the Revolution in its global context Across seventeen chapters an international team of contributors examine the impact of the Revolution not only on its European neighbours but on Latin America North America and Africa assess how far events there impacted on the Revolution in France and suggest something of the

Revolution's enduring legacy in the modern world The Companion views the French Revolution through a deliberately wide lens The first section deals with its global repercussions from the Mediterranean to the Caribbean and includes a discussion of major insurrections such as those in Haiti and Venezuela Three chapters then dissect the often complex and entangled relations with other revolutionary movements in seventeenth century Britain the American colonies and Meiji Japan The focus then switches to international involvement in the events of 1789 and the circulation of ideas people goods and capital In a final section contributors throw light on how the Revolution was and is still remembered across the globe with chapters on Russia China and Australasia An introduction by the editors places the Revolution in its political historical and historiographical context The Routledge Companion to the French Revolution in World History is a timely and important contribution to scholarship of the French Revolution

Messianism, Zionism, and Jewish Religious Radicalism Aviezer Ravitzky, 1996-09 The Orthodox Jewish tradition affirms that Jewish exile will end with the coming of the Messiah How then does Orthodoxy respond to the political realization of a Jewish homeland that is the State of Israel In this cogent and searching study Aviezer Ravitzky probes Orthodoxy's divergent positions on Zionism which range from radical condemnation to virtual beatification Ravitzky traces the roots of Haredi ideology which opposes the Zionist enterprise and shows how Haredim living in Israel have come to terms with a state to them unholy and therefore doomed Ravitzky also examines radical religious movements including the Gush Emunim to whom the State of Israel is a divine agent He concludes with a discussion of the recent transformation of Habad Hassidism from conservatism to radical messianism This book is indispensable to anyone concerned with the complex confrontation between Jewish fundamentalism and Israeli political sovereignty especially in light of the tragic death of Israeli Prime Minister Yitzhak Rabin

Religion and Politics in Europe, the Middle East and North Africa Jeffrey Haynes, 2009-10-16 In the early twenty first century it is now clear that religion is increasingly influential in the political realm in ways which call into question the principles and practices of secularism The Iranian revolution of 1978-9 marked the decisive reappearance of political religion in global politics highlighting a major development which is the subject of this edited volume Addressing a highly salient and timely topic this book examines the consequences of political interactions involving the state and religious actors in Christian Muslim and Judaist contexts Building on research the basic premise of this text is that religious actors including Islamist groups the Roman Catholic and the Orthodox churches pose various challenges for citizenship democracy and secularisation in Europe the Middle East and North Africa MENA The key questions on which the book focuses are Why how and when do religious actors seek to influence political outcomes in these regions Providing a survey of what is happening in relation to the interaction of religion and politics both domestically and internationally this book will be of interest to students and scholars of politics religion European and Middle East studies

Religion and Society in Qajar Iran Robert Gleave, 2004-11-23 Gleave brings together studies by experts in the area of religion in nineteenth century Iran in order to present new insights into Qajar religion political and cultural history Key

topics covered include the relationship between religion and the state the importance of archival materials for the study of religion the developments of Qajar religious thought the position of religious minorities in Qajar Iran the relationship between religion and Qajar culture and the centrality of Shi'ite hierarchy and the state *Encyclopedia of American Civil Liberties* Paul Finkelman, 2021-02-25 Originally published in 2006 the *Encyclopedia of American Civil Liberties* is a comprehensive 3 volume set covering a broad range of topics in the subject of American Civil Liberties The book covers the topic from numerous different areas including freedom of speech press religion assembly and petition The *Encyclopedia* also addresses areas such as the Constitution the Bill of Rights slavery censorship crime and war The book's multidisciplinary approach will make it an ideal library reference resource for lawyers scholars and students **The Rhetorical Presidency of George H. W. Bush** Martin J. Medhurst, 2006-02-15 For George H W Bush the distinction between campaigning politics and governing principles was crucial Once in office he abandoned his campaign mode and with it the rhetorical strategies that brought electoral success Not recognizing the crucial importance of rhetoric to policy formation and implementation Bush forfeited the resources of the bully pulpit and paid the price of electoral defeat In this first ever analysis of Bush's rhetoric to draw on the archives of the Bush Presidential Library scholars explore eight major events or topics associated with his presidency the first Gulf War the fall of the Berlin wall the New World Order Bush's education presidency his environmental stance the vision thing and the influence of the Religious Right The volume concludes with a cogent of the 1992 re-election campaign and Bush's last gasp use of economic rhetoric Drawing on the resources of the Bush Presidential Library and interviews with many of Bush's White House aides the scholars included in this tightly organized volume ask How well did President Bush and his administration respond to events issues and situations In the process they also suggest how a more perceptive embrace of the art of rhetoric might have allowed them to respond more successfully The *Rhetorical Presidency of George H W Bush* breaks important ground for our understanding of the forty first president's time in office and the reasons it ended so quickly **Transnational Religion And Fading States** Susanne H Rudolph, 2018-02-07 Focusing on the dilution of state sovereignty this book examines how the crossing of state boundaries by religious movements leads to the formation of transnational civil society Challenging the assertion that future conflict will be of the clash of civilization variety it looks to the micro origins of conflicts which are as likely to arise between states sharing a religion as between those divided by it and more likely to arise within rather than across state boundaries Thus the chapters reveal the dual potential of religious movements as sources of peace and security as well as of violent conflict Featuring an East West North South approach the volume avoids the conventional and often ethnocentric segregation of the experience of other regions from the European and American Contributors draw examples from a variety of civilizations and world religions They contrast self-generated movements from below such as Protestant sectarianism in Latin America or Sufi Islam in Africa with centralized forms of organization and patterns of diffusion from above such as state certified religion in China Together

the chapters illustrate how religion as bearer of the politics of meaning has filled the lacuna left by the decline of ideology creating a novel transnational space for world politics

The Oxford Handbook of Religion, Conflict, and Peacebuilding Atalia Omer, R. Scott Appleby, David Little, 2015 The book provides a comprehensive overview of the literature on religion conflict and peacebuilding With a focus on structural and cultural violence the volume also offers a cutting edge interdisciplinary reframing of the scope of scholarship in the field

The Emancipation of Europe's Muslims Jonathan Laurence, 2011-12-19 The Emancipation of Europe's Muslims traces how governments across Western Europe have responded to the growing presence of Muslim immigrants in their countries over the past fifty years Drawing on hundreds of in depth interviews with government officials and religious leaders in France Germany Italy the Netherlands the United Kingdom Morocco and Turkey Jonathan Laurence challenges the widespread notion that Europe's Muslim minorities represent a threat to liberal democracy He documents how European governments in the 1970s and 1980s excluded Islam from domestic institutions instead inviting foreign powers like Saudi Arabia Algeria and Turkey to oversee the practice of Islam among immigrants in European host societies But since the 1990s amid rising integration problems and fears about terrorism governments have aggressively stepped up efforts to reach out to their Muslim communities and incorporate them into the institutional political and cultural fabrics of European democracy The Emancipation of Europe's Muslims places these efforts particularly the government led creation of Islamic councils within a broader theoretical context and gleans insights from government interactions with groups such as trade unions and Jewish communities at previous critical junctures in European state building By examining how state mosque relations in Europe are linked to the ongoing struggle for religious and political authority in the Muslim majority world Laurence sheds light on the geopolitical implications of a religious minority's transition from outsiders to citizens This book offers a much needed reassessment that foresees the continuing integration of Muslims into European civil society and politics in the coming decades
