The World's Religions after September 11 Arvind Sharma, 2008-11-30 This set is an unprecedented examination of religion s influence on modern life an honest assessment of how religion can either destroy us or preserve us and a thorough exploration of what steps might be necessary for all religions to join together as a force for good Convening on the fifth anniversary of the terrorist attack on the World Trade Center the global congress The World s Religions after September 11 explored the negative and positive possibilities of the religious dimensions of life The presentations from the

Congress have been pulled together in this set which addresses religion's intersection with human rights, spirituality, science, healing, the media, international diplomacy, globalization, war and peace and more. This comprehensive set includes contributions from such well-known scholars of religion as Arvind Sharma and a host of others from all the world's religious traditions. This set is an unprecedented examination of religion's influence on modern life, an honest assessment of how religion can either destroy us or preserve us, and a thorough exploration of what steps might be necessary for all religions to join together as a force for good. Because of the attack on the World Trade Center on September 11, 2001, the very concept of religion underwent a paradigm shift. Instead of standing for virtue and piety, peace and harmony, the word religion also came to be inextricably associated with evil, aggression and terror. People around the world began to question whether the religious and secular dimensions of modern life can be reconciled, whether the different religions of the world can ever coexist in harmony. Indeed, the very future of religion itself has sometimes seemed to be uncertain or at least suspect. **Kazakhstan**

Cosijns, 2008 After twenty-five centuries of rapid human evolution, dialogue has now come to be a word and concept of daily use in the media and a theme of discussion all over the world. In this current period of our human history, the centuries-long struggle for survival and our belligerent confrontation with each other is being replaced by a new era of collaboration in dialogue. The most intriguing aspect of this new dialogue is that the interfaith conversation has extended worldwide within the past fifteen years. Ultimately, this new conversation has resulted in efforts towards a corroborative dialogue between the world of faiths and the political world. This book's aim is to sketch this striking movement in its philosophical and religious evolution and expression.

International Development and Local Faith Actors Kathryn Kraft, Olivia J. Wilkinson, 2020-03-17 This book explores the interplay and dialogue between faith communities and the humanitarian development community. Faith and religion are key influencers of thought and practice in many communities around the world, and development practitioners would not be able to change behaviours for improved health and social relations without the understanding and influence of those with authority in communities such as religious leaders. Equally, religious leaders feel responsibilities to their communities but do not necessarily have the technical knowledge and resources at hand to provide the information or services needed to promote the well-being of all in their scope of influence. The book demonstrates that partnerships between humanitarian development practitioners and religious communities can be mutually beneficial exchanges but that there are also frequently pitfalls along the way and opportunities for lessons to be learned by each party. Delving into how humanitarians and faith communities engage with one another, the book focuses on building knowledge about how they interact as peers with

different yet complementary roles in community development The authors draw on the Channels of Hope methodology a tool which seeks to engage faith leaders in addressing social norms and enact social change as well as other related research in the sector to demonstrate the many ways in which humanitarian and development policy makers and practitioners could achieve more systematic engagement with faith groups This book is an important contribution to the growing body of literature on faith and development and will be useful both to researchers and to practitioners working with faith communities World Today ,1902 **Exclusive Social, Polity & Economy Topics for Civil Services (IAS/IPS)**
