Religious Imagination And The Body A Feminist Analysis:

Religious Imagination and the Body Paula M. Cooley, 1994 Offering a feminist perspective on the significance of the body in the context of religious life and practice this treatise examines the evidence ranging from the novels of Toni Morrison to the paintings of Frida Kahlo Resurrecting Erotic Transgression Anita Monroe, 2016-06-16 Resurrecting Erotic Transgression presents a feminist theological methodology based on the work of Julia Kristeva This methodology provides the means for subjecting ambiguity bringing to theology a recognition of the multiplicity of language and identity A method of poetic reading is proposed with a three stage process articulation of the dualities present in and around a focal discourse subversion of these dualities through a range of strategies and the re presentation of the discourse emphasising its ambiguous nature The hermeneutical method of poetic reading is explored in relation to three biblical texts and an image of the otherness of God as whore *Scarring the Black Body* Carol E. Henderson, 2002 Scarring and the act of scarring are recurrent images in African American literature In Scarring the Black Body Carol E Henderson analyzes the cultural and historical implications of scarring in a number of African American texts that feature the trope of the scar including works by Sherley Anne Williams Toni Morrison Ann Petry Ralph Ellison and Richard Wright The first part of Scarring the Black Body The Call traces the process by which African bodies were Americanized through the practice of branding Henderson incorporates various materials from advertisements for the return of runaways to slave narratives to examine the cultural practice of writing the body She also considers way in which writers and social activists including Frederick Douglass Olaudah Equiano Harriet Tubman and Sojourner Truth developed a call centered on the body s scars to demand that people of African descent be given equal rights and protection under the law **Hell Hath No Fury** Meghan Henning, 2021-01-01 The first major book to examine ancient Christian literature on hell through the lenses of gender and disability studies Enthralling engaging and challenging Henning has successfully given hell the right sort of attention at last filling a major gap in the story and simultaneously charting new territory Jarel Robinson Brown Los Angeles Review of Books Throughout the Christian tradition descriptions of hell s fiery torments have shaped contemporary notions of the afterlife divine justice and physical suffering But rarely do we consider the roots of such conceptions which originate in a group of understudied ancient texts the early Christian apocalypses In this pioneering study Meghan Henning illuminates how the bodies that populate hell in early Christian literature largely those of women enslaved persons and individuals with disabilities are punished after death in spaces that mirror real carceral spaces effectually criminalizing those bodies on earth Contextualizing the apocalypses alongside ancient medical texts inscriptions philosophy and patristic writings this book demonstrates the ways that Christian depictions of hell intensified and preserved ancient notions of gender and bodily normativity that continue to inform Christian identity *The Women and War Reader* Lois Ann Lorentzen, Jennifer E. Turpin, 1998-07 Women play many roles during wartime This compelling study brings together the work of foremost scholars on women and war to address

questions of ethnicity women and the war complex peacemaking motherhood and more It leaves behind outdated arguments about militarist men and pacifist women while still recognizing differences in men s and women s relationships to war

Disability and Christian Theology Embodied Limits and Constructive Possibilities Deborah Beth Creamer,2009-01-05

Attention to embodiment and the religious significance of bodies is one of the most significant shifts in contemporary theology In the midst of this however experiences of disability have received little attention This book explores possibilities for theological engagement with disability focusing on three primary alternatives challenging existing theological models to engage with the disabled body considering possibilities for a disability liberation theology and exploring new theological options based on an understanding of the unsurprisingness of human limits The overarching perspective of this book is that limits are an unavoidable aspect of being human a fact we often seem to forget or deny Yet not only do all humans experience limits most of us also experience limits that take the form of disability at some point in our lives in this way disability is more normal than non disability If we take such experiences seriously and refuse to reduce them to mere instances of suffering we discover insights that are lost when we take a perfect or generic body as our starting point for theological reflections While possible applications of this insight are vast this work focuses on two areas of particular interest theological anthropology and metaphors for God This project challenges theology to consider the undeniable diversity of human embodiment It also enriches previous disability work by providing an alternative to the dominant medical and minority models both of which fail to acknowledge the full diversity of disability experiences Most notably this project offers new images and possibilities for theological construction that attend appropriately and creatively to diversity in human embodiment *Reviving the Children of Nimrod* A. Pinn,2019-06-12

As Anthony Pinn argues in his latest collection humanism comes in many colors When more attention is given to issues of race as connected to other forms of oppression it is easier to see the manner in which humanism has lived and functioned within African American communities Using the biblical figure Nimrod as symbol African American Humanist Principles demonstrates African American humanists intellectual and praxis related grounding in a history of rebellion against over determined and oppressive limitations on human doing and being Pinn maintains that it is this quest for a fuller sense of being for greater existential and ontological worth that informs the basic principles of African American humanism African American Humanist Principles is one of the only books to present the inner workings of humanist principles as the foundation for humanism from the African American perspective its form and content nature and meaning **Social and Cultural Diversity in a Sporting World** Chris Hallinan,Steven J. Terror and Triumph
 Anthony B. Pinn, 2022-07-26 Given the unique history of African Americans and their diverse religious flowering in Black Christianity the Nation of Islam voodoo and others what is the heart and soul of African American religious life As a leader in both Black religious studies and theology Anthony Pinn has probed the dynamism and variety of African American religious expressions In this work based on the Edward Cadbury Lectures at the University of Birmingham England he searches out the basic structure of Black religion tracing the Black religious spirit in its many historical manifestations Pinn finds in the terrors of enslavement of Black bodies and subsequent oppressions the primal experience to which the Black religious impulse provides a perennial and cumulative response Oppressions entailed the denial of personhood and creation of an object the negro Slave auctions punishments and later lynchings created an existential dread but also evoked a quest a search for complex subjectivity or authentic personhood that still fuels Black religion today In this 20th anniversary edition of Pinn s groundbreaking work the author offers a new reflection on the argument in retrospect and invites a panel of five contemporary scholars to examine what it means for current and future scholarship Contributors include Keri Day Sylvester Johnson Anthony G Reddie Calvin Warren and Carol Wayne White

Marks of His Wounds Beth Felker Jones, 2007-04-12 It is a central tenet of Christian theology that we will be resurrected in our bodies at the last day But we have been conditioned writes Beth Felker Jones to think of salvation as being about anything but the body We think that what God wants for us has to do with our thoughts our hearts or our interior relationships In popular piety and academic theology alike strong spiritualizing tendencies influence our perception of the body Historically some theologians have denigrated the body as an obstacle to sanctification This notion is deeply problematic for feminist ethics which centers on embodiment Jones s purpose is to devise a theology of the body that is compatible with feminist politics Human creatures must be understood as psychosomatic unities she says on analogy with the union of Christ s human and divine natures She offers close readings of Augustine and Calvin to find a better way of speaking about body and soul that is consonant with the doctrine of bodily resurrection She addresses several important questions What does human psychosomatic unity imply for the theological conceptualization of embodied difference especially gendered difference How does embodied hope transform our present bodily practices How does God s momentous yes to the body in the Incarnation both judge and destroy the corrupt ways we have thought produced constructed and even broken bodies in our culture especially bodies marked by race and gender Jones s book articulates a theology of human embodiment in light of resurrection doctrine and feminist political concerns Through reading Augustine and Calvin she points to resources for understanding the body in a way that coheres with the doctrine of the resurrection of the flesh Jones proposes a grammar in which human psychosomatic unity becomes the conceptual basis for sanctification Using gender as an illustration she interrogates the difference resurrection doctrine makes for holiness Because death has been overcome in Christ s resurrected body human embodiment can bear witness to the Triune God The bodily resurrection makes sense of our bodies of what they are and what they are for
