Remembered Anger:

Remembered Anger Martha Albrand, 1973-03-01 **Process Approaches to Consciousness in Psychology, Neuroscience, and Philosophy of Mind** Michel Weber, Anderson Weekes, 2009-11-18 This collection opens a dialogue between process philosophy and contemporary consciousness studies Approaching consciousness from diverse disciplinary perspectives philosophy psychology neuroscience neuropathology psychotherapy biology animal ethology and physics the contributors offer empirical and philosophical support for a model of consciousness inspired by the process philosophy of Alfred North Whitehead 1861 1947 Whitehead's model is developed in ways he could not have anticipated to show how it can advance current debates beyond well known sticking points This has trenchant consequences for epistemology and suggests fresh and promising new perspectives on such topics as the mind body problem the neurobiology of consciousness animal consciousness the evolution of consciousness panpsychism the unity of consciousness epiphenomenalism free will and causation **Explorations in Phenomenology** David Carr, E.S. Casey, 2012-12-06 Contrary to popular belief professional philosophers want and need to be heard Lacking a large and general public in this country they turn to audiences of peers and rivals But these audiences are found either in giant unfocused professional bodies or in restrictive groups of specialists In this respect the Society for Phenomenology and Existential Philosophy can claim a unique role among academic organizations in this country Now in its tenth year it has become one of the most important forums in America for the open exchange of ideas The Society has grown considerably since its founding and its annual meetings attract scholars in philosophy and other disciplines from across the country and abroad But these meetings differ markedly from others too large to be dominated by any single clique or doctrine they are at the same time small enough to encourage lively discussion within its organized sessions and not just in the corridors outside The Society derives its focus from the two closely allied philosophical directions indicated in its title Yet from the beginning it has included in its meetings a sizeable number of contributors who are not identified with or even sympathetic to these directions but are at least willing to engage in a dialogue with those who are Furthermore the Society has accomplished to a limited degree something rare indeed in American intellectual life an interdisciplinary exchange **Approaching the Dhamma** Anne M. Blackburn, PhD, Jeffrey Samuels, 2016-05-15 Eleven eminent Buddhist studies scholars have contributed essays to this collection assembled to celebrate the life of the late Sri Lankan scholar social worker and meditation master Godwin Samararatne **Red Dawn Rising** Margaret Watson, 2019-04-30 Musician Cassidy Drake has no idea who she really is until a brutal attack on her mother reveals truths she never could have imagined Finn Brody the mysterious man she meets at the hospital suspects Cassidy's true nature when magic erupts around them Cassidy and Finn are drawn into a battle neither of them want But they are essential in the quest to stop the evil fae queen from conquering the human world Joined with the rest of The Four can they defeat an entity with vast unimaginable power Or will they be the first casualties in the coming epic

battle for survival **Secrets at Court** Blythe Gifford,2014-03-01 A medieval nobleman is caught between duty and desire in this historical romance of court intrigue during the reign of King Edward III Anne of Stamford has long been the keeper of her mistress's secrets but when Lady Joan marries the king's son Prince Edward court life becomes ever more perilous Sir Nicholas Lovayne has arrived to uncover the truth about Lady Joan's past and Anne must do something anything to throw him off Longing to escape the intrigues at court Nicholas hasn't counted on the way Anne distracts him her refusal to accept pity for her clubfoot touches something deep inside him Now he is torn between the mission he is honor bound to complete and the woman his heart yearns to protect **Thought and Feeling** Richard E. Nisbett,2017-07-05 Recently there has been growing awareness and acceptance of the proposition that people do not exist in a world of physically defined forces and events but in a world defined by their own perceptions cognitions conclusions and imaginations We respond and react not to some objectively defined set of stimuli but to our own apperceptions of stimuli that we define subjectively The original essays in this volume center on one aspect of this process of attribution The extent to which the perception of events and causes results in the determination modification or alteration of emotions feelings and affective states This book is divided into five sections each of which elucidates and extends these theoretical conceptions Part 1 provides a historical background and analytical framework for the rest of the book Part 2 presents chapters dealing with the sorts of internal cues which may give rise to a feeling state Part 3 presents a chapter discussing the evaluative needs aroused by the internal cues Part 4 is concerned with the process of explanation triggered by the evaluative needs Part 5 deals with various external cues and how they are used to label the internal feeling state There is a concluding discussion of the cognitive alteration of feeling states The authors deal with aggression boredom obesity the control of pain and delusional systems This volume is of continuing importance to clinical and experimental psychologists as well as social psychologists Each of the authors takes the theoretical concept of cognition and relates it to research in biofeedback physiology social psychology altered states of consciousness etc Thus the book bridges the gap between cognitive theory and the use of that theory in applied research Travis Pass

The Boiler Room Boys Tim D. Smith, 2019-01-10 In *The Boiler Room Boys* An Underground Story of Science Religion and the Faith that Fuels Both Tim Smith describes how from too young an age he followed two seemingly alternate paths religion and science only to find that they are not alternate at all His so called yellow brick road began with a group of boys meeting independently in his grade school's boiler room Conflicting teaching by religious and scientific fundamentalists led him toward a PhD in biomathematics and toward atheism His attraction to theology and philosophy and the events of his life drew his path back toward the connection between science and his childhood Christianity However it wasn't the intellectual pursuits that showed him the nature of God Rather it was life's experiences that allowed him to hear God's voice and to sense God's spirit In *The Boiler Room Boys* Smith reconciles his faith in religion and science describing how science and theology support one another In doing so he also identifies where he sees that both theology and science have taken bad turns that get in the way of people young and old understanding and experiencing the world as it really is There are many questions that

couldn't be addressed in The Boiler Room Boys questions that Smith continues to write about from his own boiler room www.theboilerroomboys.com

Last Acts David J. Casarett, 2010-01-12 Palliative care physician Dr David Casarett considers the medical options terminal patients face at the end of life in this thoughtful and illuminating guide to last acts What would you do if you had only a few days to live Or a few weeks or months What if a loved one were in this situation how could you help that person decide how to spend the time that remained Perhaps you lost a family member or dear friend to a terminal illness and were baffled by that person's choices How do you make sense of his or her last acts Dr David Casarett a palliative care physician and researcher specializes in the care of patients near the end of life Drawing on his years of experience and the stories of patients he has treated as well as his own research he explores the wide variety of ways in which people spend their last days Why do some people choose to be altruistic while others are vengeful Why do some leave a legacy while others prefer to celebrate and enjoy their time with family and friends Why do some fight and struggle to the last minute while others accept their fate and use their limited time to reconnect or reconcile The tremendous diversity of these last acts makes clear that there is no formula for dying well or choices that are right for everyone At the same time these stories reveal that some choices may be harmful to the dying person or those closest to him Last Acts helps dying patients and their families think about the possibilities that exist at the end of life so they may choose to spend their time in ways that help bring them peace of mind
