Murder in Our Midst Omer Bartov, 1996-02-29 War endlessly tries to mask itself The myth of the heroic soldier testing his individual courage stands in stark contrast to the reality of mass anonymous death and the suppression of individual actions *Murder in Our Midst* shows that this fundamental tension reached its natural conclusion in the Holocaust and that disguising it has required an ongoing effort to misrepresent war and the Holocaust as something other than industrial killing Examining a broad range of the representations of war's horrors from scholarly depictions to those in popular literature poetry art and the movies Omer Bartov finds they have some things in common Societies and cultures have attempted to form coherent images of horrific events to draw didactic lessons from them and to exploit them to legitimate ideological or political positions Made up of interconnected essays this book is both a scholarly and an often personal and passionate examination of the emergence implementation and representation of industrial killing Bartov draws out the links between recent revisionist attempts to minimize and deny the Holocaust and Hollywood's ongoing fascination

with National Socialism and Hitler's Final Solution. Arguing that the modern predicament reflects the effects of the Nazi genocide on current perceptions of war history and memory, this book is a plea for compassion and commitment in an increasingly violent and indifferent world.

Killing Women Annette Burfoot, Susan Lord, 2011-04-07 The essays in *Killing Women: The Visual Culture of Gender and Violence* find important connections in the ways that women are portrayed in relation to violence, whether they are murder victims or killers. The book's extensive cultural contexts acknowledge and engage with contemporary theories and practices of identity politics and debates about the ethics and politics of representation itself. Does representation produce or reproduce the conditions of violence? Is representation itself a form of violence? This book adds significant new dimensions to the characterization of gender and violence by discussing nationalism and war, feminist media, and the depiction of violence throughout society.

Between Remembrance and Repair Claire Whitlinger, 2020-04-28 Few places are more notorious for civil rights era violence than Philadelphia. Mississippi, the site of the 1964 Mississippi Burning murders. Yet in a striking turn of events, Philadelphia has become a beacon in Mississippi's racial reckoning in the decades since. Claire Whitlinger investigates how this community came to acknowledge its past, offering significant insight into the social impacts of commemoration. Examining two commemorations around key anniversaries of the murders held in 1989 and 2004, Whitlinger shows the differences in how those events unfolded. She also charts how the 2004 commemoration offered a springboard for the trial of former Klan leader Edgar Ray Killen for his role in the 1964 murders, the 2006 passage of Mississippi's Civil Rights Human Rights education bill, and the initiation of the Mississippi Truth Project. In doing so, Whitlinger provides the first comprehensive account of these high-profile events and expands our understanding of how commemorations both emerge out of and catalyze associated memory movements. Threading a compelling story with theoretical insights, Whitlinger delivers a study that will help scholars, students, and activists alike better understand the dynamics of commemorating difficult pasts, commemorative practices in general, and the links between memory, race, and social change.
