History, Memory, and the Law Austin Sarat, Thomas R. Kearns, 2009-11-10 Law

in the modern era is one of the most important of our society's technologies for preserving memory. In helping to construct our memory in certain ways, law participates in the writing of our collective history. It plays a crucial role in knitting together our past, present, and future. The essays in this volume present grounded examinations of particular problems, places, and practices and address the ways in which memory works in and through law: the sites of remembrance that law provides, the battles against forgetting that are fought in and around those sites, and the resultant role law plays in constructing history. The writers also inquire about the way history is mobilized in legal decision making, the rhetorical techniques for marshalling and for overcoming precedent, and the different histories that are written in and through the legal process. The contributors are Joan Dayan, Soshana Felman, Dominic La Capra, Reva Siegel, Brook Thomas, and G. *Remembrance and Forgiveness* Ajlina Karamahić-Muratović, Laura Kromják, 2020-10-26. An enquiry into the social science of remembrance and forgiveness in global episodes of genocide and mass violence during the post-Holocaust era, this volume explores the ways in which remembrance and forgiveness have changed over time and how they have been used in more recent cases of genocide and mass violence. With case studies from Rwanda, Ethiopia, South Sudan, South Africa, Australia, Cambodia, Indonesia, Timor-Leste, Israel, Palestine, Argentina, Guatemala, El Salvador, the United States, Bosnia and Herzegovina, and Chechnya, the volume avoids a purely legal perspective to open the interpretation of post-genocidal societies, communities, and individuals to global and interdisciplinary perspectives that consider not only forgiveness and thus social harmony but remembrance and disharmony. This volume will appeal to scholars across the social sciences with interests in memory studies, genocide, remembrance, and forgiveness. *Living with the Dead* Laura King, 2025-01-13. This is an open access title available under the terms of a CC BY-NC-ND 4.0 International licence. It is free to read on the Oxford Academic platform and offered as a free PDF download from OUP and selected open access locations. The dead are everywhere in family life. From a great-grandmother's recipe made time and again to a dog-eared black and white photo of a family on a beach, and from a carefully curated family bible to a much-told story of a family fleeing their home many decades ago, families are made by their pasts. This book examines the relationship between the living and the dead within family life, charting the way families create afterlives for their ancestors. It asks who and what gets to be remembered and why. Considering different points of connection with the dead in each chapter—through graves, homes, things, photos, writing, research, and stories—this book demonstrates how death and the dead remain a crucial presence within family life. Through an innovative methodology of collaborative critical family history, *Living with the Dead* features interviews, personal archives, and the results of a collaboration with fifteen family historians, including the author's own family. What results is a unique way of exploring family pasts, of charting not only how families have remembered their dead and passed on their histories over time but the mechanisms of how histories are constructed and shared. *Living with the Dead* reveals how crucial the dead and stories of them are within families and provides new ways for historians to unpick the way history is intimately made. **Streaming Media and Cultural Memory in a Postdigital**

^ATroubled Sleep James Waller, 2021-02-15 In contemporary Northern Ireland more than two decades after the peace agreement that ended the thirty year sectarian violence known as the Troubles the risk of a return to violent conflict is

progressively accumulating in a rising tide and resilience is rapidly receding From Northern Ireland we can learn what happens when identity politics prevail over democracy when a paralysis in governance leads to a political vacuum that leaves spaces open for extremist voices to dominate when de facto social segregation becomes normalized when acclimatization to violence becomes a generational legacy and when questions of who we are become secondary to who we are not

The Time of Our Lives David Couzens Hoy, 2012-01-13 A study of the emergence in post-Kantian continental philosophy of a focus on the lived experience of temporality The project of all philosophy may be to gain reconciliation with time even if not every philosopher has dealt with time expressly A confrontation with the passing of time and with human finitude runs through the history of philosophy as an ultimate concern In this genealogy of the concept of temporality David Hoy examines the emergence in a post-Kantian continental philosophy of a focus on the lived experience of the time of our lives rather than on the time of the universe The purpose is to see how phenomenological and poststructuralist philosophers have tried to locate the source of temporality how they have analyzed time's passing and how they have depicted our relation to time once it has been in a Proustian sense regained Hoy engages with competing theoretical tactics for reconciling us to our fleeting temporality drawing on work by Kant, Heidegger, Hegel, Husserl, Merleau-Ponty, Nietzsche, Gadamer, Sartre, Bourdieu, Foucault, Bergson, Deleuze, and Derrida Hoy considers four existential strategies for coping with the apparent flow of temporality including Proust's passive and Walter Benjamin's active reconciliation through memory, Deleuze's critique of poststructuralist politics, Foucault's confrontation with the temporality of power, and Deleuze's account of Aion and Chronos He concludes by exploring whether a dual temporalization could be what constitutes the singular time of our lives

Church Quarterly Review, 1901

Memory, Consciousness and the Brain Endel Tulving, 2013-05-13 Memory and consciousness have been objects of fascination to psychologists and other brain scientists for over one hundred years Because of the complexity of the two topics, however, and despite great efforts spent on their study, the progress in their understanding over most of this time has been rather slow Recently, thanks to new techniques and to changing pre-theoretical orientations, the study of the role of the brain in memory and consciousness has received an immense boost and has become a central focus of research activity by thousands of researchers worldwide The volume reviews recent progress on our understanding of memory, consciousness, and

the brain and identifies a number of acute outstanding problems The purpose of the volume based on a conference in Tallinn is to look to the future and not simply to share knowledge from ongoing research In this sense the volume does not contain a comprehensive overview of the field but rather showcases a selection of exciting ideas in cognitive neuroscience Contributors include some of the world's best known cognitive brain scientists who have greatly contributed to our understanding of memory as a relation between the brain and the mind as well as a number of highly promising younger researchers in the field Memory Consciousness and the Brain will be essential reading for anyone interested in the latest cutting edge thinking at the interface of these topics and in the future directions in which it may take us **Past, Present, and Future** James

Edson White,1909 **The Eschatological Person** Andrew T. J. Kaethler,2022-07-12 Both Alexander Schmemmann and Joseph Ratzinger insist that the human person remains shrouded in mystery without God's self disclosure in the person of Jesus Christ Like us Jesus lived in a particular time and location and therefore time and temporality must be part of the ontological question of what it means to be a human person Yet Jesus the one who has time for us ascended to the Father and the bride of Christ awaits his return and therefore time and temporality are conditioned by the eschatological With this in mind the ontological question of personhood and temporality is a question that concerns eschatology how does eschatology shape personhood Bringing together Schmemmann and Ratzinger in a theological dialogue for the first time this book explores their respective approaches and answers to the aforementioned question While the two theologians share much in common it is only Ratzinger's relational ontological approach that by being consistently relational from top to bottom consistently preserves the meaningfulness of temporal existence *Middle English Romance and the Craft of Memory* Jamie
