Markman,2012-05-04 A classic collection of titles featuring one of the world's greatest traders Jesse Livermore Jesse Livermore won and lost tens of millions of dollars playing the stock and commodities markets during the early 1900s at one point making ten million dollars in one month of trading an astronomical sum for this time His ideas and keen analyses of market price movements are as true today as they were when he first implemented them Now for the first time ever The Reminiscences of a Stock Operator Collection brings together three classic titles based on this unique individual and offers profound insights into his motivations attitudes and strategies Reminiscences of a Stock Operator the fictionalized biography of Jesse Livermore has endured over seventy years because traders and investors continue to find lessons from Livermore's experiences that they can apply to their own endeavors Reminiscences of a Stock Operator Illustrated Edition reproduces the original articles by Edwin Lefèvre and drawings by M L Blumenthal published in the Saturday Evening Post in the 1920s Reminiscences of a Stock Operator Annotated Edition bridges the gap between Edwin Lefevre's fictionalized account of Livermore's life and the actual historical events places and people that populate the book Throughout the book there are notes that detail the actual companies people or situations that Livermore encountered Engaging and informative this collection provides a complete picture of Livermore's life and trading strategies and offers tremendous value to today's serious investor or trader **Jesse Livermore's Two Books of Market Wisdom** Jesse Lauriston Livermore,Edwin Lefèvre,Richard Demille Wyckoff,2019-06-28 For the first time these two works attributed to the great Jesse Livermore are presented together in one volume with a new foreword by Juliette Rogers Both contain interesting insights into Livermore's life and times as well as the reasons for his success They remain classics and must reads for every new aspirant in the world of speculation The two books in this volume were written in the early 1920s when Livermore was already famous but still ascending to the peak of his wealth The nightmare of World War I was fading and the United States had successfully transitioned from a wartime economy into a peacetime powerhouse Americans became enamored of cars telephones radios and movies A newfound fascination with celebrities extended beyond film stars and athletes to the rich and

powerful People wanted to know how Wall Street wizards like Jesse Livermore spun their magic The first book *Reminiscences of a Stock Operator* by Edwin Lefèvre offers keen insight while at the same time adding to the Livermore enigma *Reminiscences* is the first person narrative of a fictional speculator named Larry Livingston whose life events happen to match precisely those of Jesse Livermore As a financial journalist biographer and novelist Edwin Lefèvre gave his readers their much desired glimpse into the lofty world of Wall Street elites He wrote eight other books but none matched the success of *Reminiscences* which has remained in print since 1923 and been translated into numerous languages Even the understated former Federal Reserve Chairman Alan Greenspan once called it a font of investing wisdom In true Livermore fashion the book itself remains something of a mystery Specifically over the decades many readers have wondered if the book's author was not Lefèvre but none other than Jesse Livermore The two men were long acquainted and may have traded useful information over the years A 1967 biography claims that Livermore shortly before his death acknowledged writing *Reminiscences* with guidance from Lefèvre who served as editor and coach This revelation came to the biographer secondhand and without confirmation so the mystery continues However attentive readers may note the narrator's especially gleeful tone whenever windfalls are made or old scores are settled suggesting a connection more personal than professional In the years following these publications Livermore continued to burnish his legend A 1924 run up in wheat prices squeezed him out of 3 million but the following year he recovered his losses and added tremendous profit when the wheat market collapsed Of course in this era of modest regulation markets were vulnerable to manipulation and Livermore by now nicknamed the Great Bear of Wall Street did not eschew such tactics
