The Nation Looks at its Resources records the key points of the Mid Century Conference on Resources for the Future held in Washington in 1953 Originally published in 1954 this report reveals the concern felt by those attending the conference about the mounting pressure on our resources from the growing population and expanding Economy Rather than taking a specific view point the discussions cover a wide range of resource issues from multiple angles with an unintended emphasis on the need for research education and cooperation to better understand the resource issues facing the U S and the rest of the world after World War II This title will be of interest to students of Environmental Studies **Greening Europe**

Anna-Katharina Wöbse,Patrick Kupper,2021-12-20 Today the environment seems omnipresent in European policy within and beyond the European Union The idea of a shared European environment however has come a long way and is still being contested Greening Europe focuses on the many ways people have interacted with nature and made it an issue of European concern The authors ask how notions of Europe mattered in these activities and they expose the many entanglements of activists across the subcontinent who set out to connect and network and to exchange knowledge worldviews and strategies that exceeded their national horizons Moving beyond human agency the handbook also highlights the eminent role nature played in both greening Europe and making Europe a shared environment **Looking unt o Jesu s.
