Neighborhood Watch Shawn E. Fields, 2022-06-09 Although racism has plagued the American justice system since the nation's colonial beginnings private White Americans are taking matters into their own hands From racist 911 calls and hoaxes to grassroots voter suppression and vigilante self defense concerted efforts are made every day by private citizens to exclude Black Americans from schools neighborhoods and positions of power Neighborhood Watch examines the specific ways people police America's color line to protect White spaces The book charts how these actions too often result in harassment arrest injury or death yet typically go unchecked Instead these actions are promoted and encouraged by legislatures looking to expand racially discriminatory laws a police system designed to respond with force to any frivolous report of Black mischief and a Supreme Court that has abdicated its role in rejecting police abuse To combat these realities Neighborhood Watch offers preliminary recommendations for reform including changes to the maximum policing state increased accountability for civilians who abuse emergency response systems and proposals to demilitarize the color line

Korean Tales Horace Newton Allen, 2019-06-02. Korea, Korea, or Chosen, morning calm occupies the peninsula hanging down from Manchuria and Russian Siberia, between China and Japan, and extending from the 33d to the 43d parallels of north latitude. The area, including the outlying islands, is about one hundred thousand square miles. The population, according to the most reliable estimate, is a little more than sixteen millions. Yet as the people live in cities, towns, and hamlets, the country does not seem to be thickly settled. The climate varies much at the extremities of the peninsula, owing to the fact

that the southern portion is somewhat affected by the warm southern currents that give Japan its tropical climate but which are warded off from Korea proper by the Japanese islands The climate of the central and northern provinces is much the same as that of the northern central United States with fewer changes The large river at the capital is not uncommonly frozen over for weeks at a time during the winter so that heavy carts pass over on the ice Ice is always preserved for general use in summer The country is decidedly mountainous and well watered Heavy timber abounds in the northeast The valleys are very fertile and are well tilled as the people are mainly devoted to agriculture The mineral resources have only been developed in a crude way yet sufficiently to demonstrate the great wealth of the ore deposits Especially is this true in reference to the gold mines The most pessimistic visitors to Korea are unstinted in their praise of the beautiful scenery which is fully appreciated by the natives as well From ancient times they have had guide books setting forth the natural charms of particular localities and excursions to distant places for the sole purpose of enjoying the views are a common occurrence The King rules as absolute monarch He is assisted by the Prime Minister and his two associates the ministers of the Left and Right Next to these come the heads of the six departments of Etiquette and Ceremonies Finance War Public Works Justice and Registration with the heads of the two new departments that have been added as the result of the opening up of foreign intercourse the Foreign or outside Office and the Home or interior Office This body of officials forms the grand council of the King Each of the eight provinces is ruled by a governor who has under him prefects local magistrates supervisors of hamlets and petty officials so that the whole scale makes a very complete system and affords no lack of officials There are several special officers appointed by the King one of whom is the government inspector whose duty it is to go about in disguise learn the condition of the people and ascertain if any magistrate abuses his office and oppresses the people unjustly Any such he may bring to speedy justice The present Dynasty has existed 498 years Being founded by a revolting general named Ye it is known as the Ye Dynasty The King's name however is never used He is almost sacred to his people Those officials of sufficiently high rank to go in before him bow to the ground in his presence and only speak when spoken to then they use a highly honorific language only understood at court The revenues are paid in kind hence the annual income of an official may consist of a certain quantity of rice and other products in addition to his money compensation The King also has the whole revenue resulting from the sale of the ginseng for which the country is noted This forms his private purse The currency is the common copper cash worth some twelve hundred to the Mexican dollar though now that the new mint is in operation copper silver and gold coins are being made The old perforated cash will however be hard to supplant owing to its convenience in small transactions To be continue in this ebook **Shoe and Leather Facts** ,1916 [ReStart Your Church](#) Dottie Escobedo-Frank,2012-10-01 As a result of the near death experiences of many congregations today denominational leaders are looking for ways to revitalize churches The act of revitalization often starts with the assumption that what was once vital can be vital again if church leaders simply do the same better So congregations increase programs budgets and formulas

They look back in time trying to recapture a period when the church's role in society was vital. A church seeking revitalization typically does more of the same but faster. However, the central story of our faith is the story of both death and resurrection. Followers of Christ like to live out the resurrection part of our faith but they often aren't very comfortable dealing with what must come before resurrection: death. The church must be willing to live out its entire story from beginning to end. The church needs to trust that God will bring to life what God wants to. This book suggests shifting away from the language of revitalization toward the story of death and resurrection. Escobedo Frank focuses on ten specific re-words to outline a strategy for dying and resurrecting again for restarting the church: Recognize, Realize, Restore, Review, Reform, Resensitize, Release, Reinvigorate, Reemphasize, Rebirth.
