**He gives life
And dies after fertilizing the eggs
He either abstains
He either dies
Both ways
He cannot escape
The poor invertebrate
For life is sweet

Look Both Ways Poems And Comments:

Creativity and the Poetic Mind Jean Tobin, 2004 Creativity and the Poetic Mind mingles the voices of well known writers such as Nikki Giovanni Donald Hall John Koethe Marge Piercy and Robert Pinsky with newer voices and includes engaging excerpts from interviews with thirty eight American poets Within a sustained argument about creative states of mind this book innovatively presents and explores the technique of going to the place as more reliable in writing poetry than waiting for inspiration It explains why poets frequently believe that talking about their own poetry may damage their creativity and why for centuries inspiration has seemed to come from somewhere beyond the poet In addition it discusses the practicality of poets thinking that being creative and writing poetry are two separate skills inspiration is unreliable but experienced poets create daily

The Book of the Incipit D. Vance Smith, Smith offers a theoretical understanding of beginning that departs from the structuralisms of Edward Said the traditional formalisms of A D Nuttall and most medievalist and modernist treatments of closure Instead he views a work s beginning as a figure of the beginning of the work itself and the inception of language as the problem of beginning to which we continually return

Living in Time Albert Gelpi, 1998-02-19 The Oxford poets of the 1930s W H Auden C Day Lewis Stephen Spender and Louis MacNeice represented the first concerted British challenge to the domination of twentieth century poetry by the innovations of American modernists such as Ezra Pound and William Carlos Williams Known for their radical politics and aesthetic conservatism the Auden Generation has come to loom large in our map of twentieth century literary history Yet Auden s voluble domination of the group in its brief period of association and Auden s sway with critics ever since has made it difficult to hear the others on their own terms and in their own distinct voices Here rendered in eloquent prose by one of our most distinguished critics of modern poetry is the first full length study of the poetry of C Day Lewis a book that introduces the reader to a profoundly revealing and beautifully wrought record of his poetry against the cultural and literary ferment of this century Albert Gelpi explores in three expansive sections the major periods of the poet s development beginning with the emergence of Day Lewis in the thirties as the most radical of the Oxford poets An artist who sought through poetry a way of living in time without traditional religious assurances Day Lewis

went further than his friends in seeking to forge a revolutionary poetry out of his commitment to Marxism When Stalinism led to his resignation from the Communist Party Day Lewis in the forties went on to shape a rich fiercely perceptive poetry out of the convergence of the wartime crisis with the explosive events of his own inner life intensified by the erotics of a decade long affair Returning to his Irish roots and meditating on the persistent tension between agnosticism and faith in the work of his third and final period Day Lewis wrote some of the most moving poems in the language about mortality and dying the limits and possibilities of human striving Through the traumatic changes of his life C Day Lewis came increasingly to depend on the intricacies of poetry itself as a way of living in time His abiding belief in the psychological and moral functions of poetry impelled him in his critical writings and in his own poetic practice to delineate a modern poetics that presents an effective alternative to the elitist experimentation associated with Modernism This vital revisionist reading of Day Lewis demonstrates that much of his best work was written after the thirties and establishes him as one of the most significant and accomplished British poets of the modern period *Blue Song* Henry I. Schvey,2021-06-04 In 2011 the centennial of Tennessee Williams s birth events were held around the world honoring America s greatest playwright There were festivals conferences and exhibitions held in places closely associated with Williams s life and career New Orleans held major celebrations as did New York Key West and Provincetown But absolutely nothing was done to celebrate Williams s life and extraordinary literary and theatrical career in the place that he lived in longest and called home longer than any other St Louis Missouri The question of this paradox lies at the heart of this book an attempt not so much to correct the record about Williams s well chronicled dislike of the city but rather to reveal how the city was absolutely indispensable to his formation and development both as a person and artist Unlike the prevailing scholarly narrative that suggests that Williams discovered himself artistically and sexually in the deep South and New Orleans *Blue Song* reveals that Williams remained emotionally tethered to St Louis for a host of reasons for the rest of his life **Silence and the Rest** Sofya Khagi,2013-08-31 *Silence and the Rest* argues that throughout its entire history Russian poetry can be read as an argument for verbal skepticism positing a long running dialogue between poets philosophers and theorists central to the antiverbal strain of Russian culture

The Apocalypse in English Renaissance Thought and Literature C. A. Patrides,Joseph Anthony Wittreich,1984 This remarkable collection of original essays by a distinguished group of American and English scholars explores attitudes toward apocalyptic thought and the Book of Revelation as they were reflected over many centuries in theological discourse political activity and artistic and literary endeavors **Each Love Looks Like a Unique Finger Print for True Lovers** Mesut
