Foucault on Painting Catherine M. Soussloff, 2017-11-23 Michel Foucault had been concerned about painting and the meaning of the image from his earliest publications yet this aspect of his thought is largely neglected within the disciplines of art history and aesthetic theory In Foucault on Painting

Catherine M Soussloff argues that Foucault's sustained engagement with European art history critically addresses present concerns about the mediated nature of the image in the digital age. Foucault's writing on painting covers four discrete periods in European art history: seventeenth century southern Baroque, mid nineteenth century French painting, Surrealism and figurative painting in the 1960s and 70s, as well as five individual artists: Velázquez, Manet, Magritte, Paul Reyberolle, and Gerard Fromanger. As Soussloff reveals in this book, Foucault followed a French intellectual tradition dating back to the seventeenth century which understands painting as a separate area of knowledge. Painting a practice long considered silent in its operations and effects afforded Foucault an ideal discipline to think about history and philosophy simultaneously. Using a comparative approach grounded in art history and aesthetics, Soussloff explores the meaning of painting for Foucault's philosophy and for contemporary art theory, proposing a new relevance for a Foucauldian view of ethics and the pleasures and predicaments of contemporary existence.

Foucault on the Arts and Letters Catherine M. Soussloff, 2016-10-06

As one of the most important philosophers of the 20th century, Michel Foucault's reputation today rests on his political philosophy in relation to the contemporary subject in a neo-liberal and globalized society. This book offers insight into the role of the arts in Foucault's thought as a means to better understanding his contribution to larger debates concerning contemporary existence. Visual culture, literary film, and performance studies have all engaged with Foucauldian theories, but a full examination of Foucault's significance for aesthetic discourse has been lacking until now. This book argues that Foucault's particular approach to philosophy as a way of thinking the self through the work of art provides significant grounds for rethinking his impact today. The volume moves across as many disciplinary boundaries as Foucault himself did, demonstrating the value of Foucault's approach to aesthetic discourse for our understanding of how the arts and humanities reflect upon contemporary existence in a globalized society.
