Looking At Trees Wake Up To The World Of Science:

To Hear The Trees Speak Olivia Sprinkel, 2025-05-08 A poetically written testimony of our own deep relationship with the natural world and of nature's own resilience Ben Goldsmith Imagine if you could hear the trees speak How would it change your life Your relationship to the world around you This is the story of what happened when the trees whispered me to quit my job leave my life in New York and go on a journey to listen It is the story of what I learnt from ten trees on five continents and the lessons that the trees have for all of us on how to be in a rapidly changing world Olivia Sprinkel was sitting in her office in New York an experienced international sustainability strategy and communications consultant and as a newly single woman she decided she had to make a change in her life and undertake a journey To Hear the Trees Speak Adventures in Listening is the story of her travels to Europe North and South America Australia and South Asia to discover ten of our world's essential trees and their habitats The ten trees range from the banyan and bodhi to the olive giant sequoia and beech Powerfully crafted this is important and accessible nature writing blended with insightful memoir

Living With the Trees of Life Roger Leakey, 2024-05-30 With our world torn by climate change deforestation land degradation hunger malnutrition poverty loss of wildlife habitat zoonotic pandemics illegal migration and social injustice this book seeks to find a practical and pragmatic way forwards Based on the author's extensive experience of tropical agriculture and forestry around the world as well as his combination of practical and academic agricultural qualifications the second edition of Living with the Trees of Life presents a unique and positive perspective on resolving these big global issues It aims to identify principles strategies techniques and skills to find a path through the maze of options for sustainable living in the tropics and subtropics The book specifically draws heavily on a single case study which involved working to resolve the failure of tropical and subtropical agriculture to feed sustain and support the needs of rural communities To address the big picture facing society the work identified the traditionally important indigenous trees of tropical ecosystems the trees of life as a missing component of farming systems These trees are keystones of the natural environment Their products and critical ecological and social services have been overlooked by modern agriculture and should be recognized as the natural capital of the environment providing the very many day to day needs of local people Many of today's big problems can be traced back to the breakdown of the natural social and human capital of farming systems
