Creative Representations of Place Alison Barnes, 2018-07-11 Cultural geography and the

social sciences have seen a rise in the use of creative methods with which to understand and represent everyday life and place Conversely many artists are producing work that centres on ideas of place and space and utilising empirical research methods that have a resonance with geographers This book contributes to the body of literature emerging from such creative approaches to place Drawing together theory and practice from cultural geography anthropology and graphic design this book proposes an interdisciplinary geo graphic process for interrogating and re presenting everyday life and place A diverse set of research projects highlights participatory and autoethnographic approaches to the research The sites of the projects are varied encompassing the commercial space of grocery shops caf s and restaurants the private domestic space of the home and a Scottish World Heritage site The theoretical context of each project highlights the transferability of the geo graphic process with place being variously framed within discussions of food multi culturalism and belonging home collecting and meaningful possessions and materiality memory and affect Themes in the book will appeal to researchers working in the creative methods field This book will also be essential supplementary reading for postgraduate students studying Cultural Geography Experimental Geographies Visual Anthropology Art and Design

The Typographic Medium Kate Brideau, 2021-10-19 An innovative examination of typography as a medium of communication rather than part of print or digital media Typography is everywhere and yet widely unnoticed When we read type we fail to see type In this book Kate Brideau considers typography not as part of print media or digital media but as a medium of communication itself able to transcend the life and death of particular technologies Examining the contradiction between typographic form often overlooked and function often overpowering Brideau argues that typography is made up not of letters but of shapes and that shape is existentially and technologically central to the typographic medium After considering what constitutes typographic form Brideau turns to typographic function and how it relates to form Examining typography s role in both the neurological and psychological aspects of reading she argues that typography s functions exceed reading typographic forms communicate but that communication is not limited to the content they carry To understand to what extent the design and operations of the typographic medium affect the way we perceive information Brideau warns we must understand the medium s own operational logic embodied in the full diversity of typographic forms Brideau discusses a range of topics from intellectual property protection for typefaces to Renaissance and Enlightenment ideal letterforms and draws on a wide variety of theoretical work including phenomenological ideas about comprehension German media archaeology and the media and communication theories of Vil m Flusser and others Hand drawn illustrations of typographic forms accompany the text
