Dodgen, 2002     **Study Guide for Sociology, Looking Through the Window of the World, 4th Ed** Lynda I. Dodgen, Adrian M. Rapp, 2002     *The Changing Shape of Nursing Practice* Davina Allen, 2002-01-04 Bringing together sociological theories and nursing practice this text develops a dynamic conceptualisation of the nursing role which is rooted in the work setting It looks at the factors which have shaped nursing work in the past and those which are likely to shape it in the future Nurses work is changing in two respects the place nursing occupies in the health care division of labour and the routine shifting of work boundaries that nurses experience in their daily work Drawing on her detailed observations of the reality of nursing work in a district general hospital Davina Allen explores these linked themes focussing on five key work boundaries nurse doctor nurse manager nurse support worker nurse patient nurse nurse The text provides new insight into many of the tensions and dilemmas nurses routinely face and the processes and constraints through which their work is fashioned It offers a new way of thinking about the nursing role which is particularly relevant at a time when the scope of nursing practice is expanding and when the integrated approach to health and social care is seen as the key to provision and improved services     Lessons and Legacies Peter Hayes, 1991 In the courtroom and the classroom in popular media public policy and scholarly pursuits the Holocaust its origins its nature and its implications remains very much a matter of interest debate and controversy Arriving at a time when a new generation must come to terms with the legacy of the Holocaust or forever lose the benefit of its historical social and moral lessons this volume offers a richly varied deeply informed perspective on the practice interpretation and direction of Holocaust research now and in the future In their essays the authors an international group including eminent senior scholars as well those who represent the future of the field set the agenda for Holocaust studies in the coming years even as they give readers the means for understanding today's news and views of the Holocaust whether in court cases involving victims and perpetrators international national and corporate developments or fictional documentary and historical accounts Several of the essays such as one on nonarmed amideh or resistance and others on the role of gender in the behavior of perpetrators and victims provide innovative and potentially significant interpretive frameworks for the field of Holocaust studies Others for instance the rounding up of Jews in Italy Nazi food policy in Eastern Europe and Nazi anti Jewish scholarship emphasize the importance of new sources for reconstructing the historical record Still others including essays on the 1964 Frankfurt trial of Auschwitz guards and on the response of the Catholic Church to the question of German guilt bring a new depth and sophistication to highly charged
