**Joseph Carens: Between Aliens and Citizens** Matthias Hoesch, Nadine Mooren, 2020-08-11 This book offers a critical discussion of Joseph Carens's main works in migration ethics covering themes such as migration naturalization citizenship culture religion and economic equality The volume is published on the occasion of the annual Münster Lectures in Philosophy held by Joseph Carens in the fall of 2018 It documents the intellectual exchange with the well known philosopher Joseph Carens by offering critical contributions on Carens's work and commentaries of Carens as a reply to these critical contributions With his various works on migration ethics Joseph Carens must be seen as one of the leading academics in the political and ethical discourse of migration in the last years The topic of migration raises questions not only regarding naturalization and citizenship but also cultural economic and religious differences between aliens citizens and persons whose status lies in between and calls for further determination Such questions gain more and more importance in our globalized world as can be seen for example in the context of the refugee crisis in the European Union and the U S The book covers different systematic topics of Carens's work as can be found in his widely read book *The Ethics of Immigration* but also in further publications It provides papers with critical discussions of Carens's work as well as his responses to these thus enabling and documenting the fruitful dialogue between the contributors and Carens himself The aim of this book is to sharpen and shed light on Carens's arguments concerning migration by offering new and critical perspectives and fine grained analyses

**Young People's Human Rights and the Politics of Voting Age** Sonja C. Grover, 2010-10-05 *Young People's Human Rights and The Politics of Voting Age* explores the broader societal implications of voting age eligibility requirements and the legislative bar against youth voting in North America and in Commonwealth countries where youth is defined as persons 16 and over but under age 18 The issue is raised as to whether the denial of the youth vote undermines democratic principles and values and ultimately the human dignity of youth This is the first book to address the topic of the youth vote in depth as a fundamental human rights concern relating to the entitlement in a democracy to societal participation and inclusion in influencing policy and law which profoundly affects one's life Also examined are international perspectives on the issue of voting age eligibility The book would be extremely valuable for instructional purposes as one of the primary texts in undergraduate or graduate courses on children's human rights political psychology political science sociology of law or society and as a supplementary text for courses on human rights or constitutional law and would be of interest also to members of the general public concerned with children's human rights

issues     **The Politics of Democratic Representation** Benjamin Boudou, Marcus Carlsen Häggrot, 2025-05-16 The book discusses boundaries of electoral inclusion and mechanisms of electoral representation in contemporary democracies While the ancient Athenians took the idea of rule by the people to require direct popular participation in public decision making and the appointment of officials by lottery mechanisms democracy is nowadays interpreted electorally We partake in government mostly by electing the legislative and sometimes executive officials who in turn make the substantive decisions Yet who we is and how electoral representation should function remains hotly contested Controversies abound about the proper configuration of the demos the body of persons who are enfranchised the ways it is to exercise electoral choice and agency This book takes up several carefully selected questions from these theoretical and political debates Looking at the disenfranchisement of children cognitively disabled persons and refugees and discussing the forms of representation that might be afforded to external voters future generations and non citizens the contributions develop innovative arguments applying the basic principles of electoral democracy to the complexities of specific real world cases Doing so the contributions offer timely yet unorthodox perspectives on the theory and practice of electoral democracy This book was originally published as a special issue of Critical Review of International Social and Political Philosophy     **Chronic Lymphocytic Leukemia: New Insights for the Healthcare Professional: 2011 Edition** , 2012-01-09 Chronic Lymphocytic Leukemia New Insights for the Healthcare Professional 2011 Edition is a ScholarlyBrief that delivers timely authoritative comprehensive and specialized information about Chronic Lymphocytic Leukemia in a concise format The editors have built Chronic Lymphocytic Leukemia New Insights for the Healthcare Professional 2011 Edition on the vast information databases of ScholarlyNews You can expect the information about Chronic Lymphocytic Leukemia in this eBook to be deeper than what you can access anywhere else as well as consistently reliable authoritative informed and relevant The content of Chronic Lymphocytic Leukemia New Insights for the Healthcare Professional 2011 Edition has been produced by the world s leading scientists engineers analysts research institutions and companies All of the content is from peer reviewed sources and all of it is written assembled and edited by the editors at ScholarlyEditions and available exclusively from us You now have a source you can cite with authority confidence and credibility More information is available at <http://www.ScholarlyEditions.com>     *Terrorism as a Challenge for National and International Law: Security versus Liberty?* Christian Walter, Silja Vöneky, Volker Röben, Frank Schorkopf, 2004-06-25 The events of 11 September 2001 have led to significant developments in international law with respect to combating terrorism by military and non military action The volume addresses the issues raised in a comprehensive manner It comprises country reports with analyses of the developments in a number of selected countries Based on these country reports the volume traces new developments in the definition of international terrorism deals with the issue of human rights protection under new anti terrorist legislation and examines the recent developments towards international military action against terrorism     Punishment and Citizenship Milena Tripkovic, 2019 Criminal

disenfranchisement the practice of restricting electoral rights following criminal conviction is the only surviving electoral restriction of adult mentally competent citizens in contemporary democracies Despite the strong devotion to the principle of universal suffrage criminal offenders are still routinely deprived of active and passive franchise while the justifications for such limitations remain elusive and incoherent In *Punishment and Citizenship* Milena Tripkovic develops an empirical and normative account of criminal disenfranchisement Starting from historical precedents of such restrictions and examining the current policies of a number of European countries Tripkovic argues that while criminal disenfranchisement is considered a form of punishment it should instead be viewed as a citizenship sanction imposed when a citizen fails to perform their role as a member of a political community In order to determine the justifications of disenfranchisement Tripkovic explores various citizenship ideals and examines whether criminal offenders comply with the expectations that are posed before them After developing a theoretical framework of citizenship duties Tripkovic concludes that very few criminal offenders fail to satisfy fundamental citizenship conditions and exhaustive voting restrictions cannot ultimately be justified A comprehensive assessment of criminal disenfranchisement *Punishment and Citizenship* offers concrete policy suggestions to determine the limited circumstances under which electoral rights could justifiably be withheld from criminal offenders **Spain After**

*The Duty to Vote* Julia Maskivker, 2019-10-01 What do we owe those in our communities What do we owe strangers In a sense those who vie for political office locally and nationally do so at least in part from duty and obligation to their fellow citizens to many they do not know and may never meet In a democratic society those who wish to participate in politics have the unbridled freedom to do exactly that whether as leaders or those who campaign for politicians or as people who simply struggle to have their voice heard in everything from town hall meetings to protests But by the same logic we also have the freedom not to participate the freedom not to care to be heard at all Not so says Julia Maskivker such logic collapses when applied to the act of voting Not only should we vote if we can we must vote Even when confronted with two unappealing candidates or with ballot propositions whose effects we will barely feel or with the fact that our single vote might never tip an election we must vote We have a duty of conscience to vote with care when doing so comes at so small a cost Maskivker a political theorist and philosopher argues that those fortunate to live in democratic societies with freely elected leaders all share simply a moral obligation to vote The book's argument adds a fresh and uncompromising perspective to voting ethics literature which is dominated by views that reject the morality and rationality of voting Maskivker's line of reasoning contends that the duty to vote is a duty of common pursuit which helps society to achieve good governance She compares voting to Samaritan justice showing that the same duty of assistance that would compel us to help a stranger in need also obligates us to vote to save our fellow citizens from injustice at the hands of bad or even evil leaders The book further explores issues of voter incompetence and how citizens' ignorance can be partly overcome through political reform Although uninformed voting may lead to bad governance voting judiciously can be an effective path to justice In a time of polarization and political turmoil *The Duty to Vote* offers a stirring reminder that voting is fundamentally a collective endeavor to protect our communities and that we all must vote in order to preserve the free societies within which we live

powers is making us less free Many governmental functions today from the management of prisons and welfare offices to warfare and financial regulation are outsourced to private entities Education and health care are funded in part through private philanthropy rather than taxation Can a privatized government rule legitimately The Privatized State argues that it cannot In this boldly provocative book Chiara Cordelli argues that privatization constitutes a regression to a precivil condition what philosophers centuries ago called a state of nature Developing a compelling case for the democratic state and its administrative apparatus she shows how privatization reproduces the very same defects that Enlightenment thinkers attributed to the precivil condition and which only properly constituted political institutions can overcome defects such as provisional justice undue dependence and unfreedom Cordelli advocates for constitutional limits on privatization and a more democratic system of public administration and lays out the central responsibilities of private actors in contexts where governance is already extensively privatized Charting a way forward she presents a new conceptual account of political representation and novel philosophical theories of democratic authority and legitimate lawmaking The Privatized State shows how privatization undermines the very reason political institutions exist in the first place and advocates for a new way of administering public affairs that is more democratic and just **The Superior Courts Network** European Court of Human
