 Perhaps everything we think feel and do is determined and humans like stones or clouds are slaves to the laws of nature
 Would that be a terrible state Philosophers who take the incompatibilist position think so arguing that a deterministic world
 would be one without moral responsibility and perhaps without true love meaningful art and real rationality But
 compatibilists and semicompatibilists argue that determinism need not worry us As long as our actions stem in an
 appropriate way from us or respond in some way to reasons our actions are meaningful and can be judged on their moral or
 other merit In this highly original work Nomy Arpaly argues that a deterministic world does not preclude moral responsibility
 rationality and love in short meaningful lives but that there would still be something lamentable about a deterministic world
 A person may respond well to reasons and her actions may faithfully reflect her true self or values but she may still feel that
 she is not free Arpaly argues that compatibilists and semicompatibilists are wrong to dismiss this feeling for which there are
 no philosophical consolations as philosophically irrelevant On the way to this bittersweet conclusion Arpaly sets forth
 surprising theories about acting for reasons the widely accepted idea that ought implies can moral blame and more

Religious Appeals in Power Politics Peter S. Henne, 2023-10-15 Religious Appeals in Power Politics examines how states use or attempt to use confessional appeals to religious belief and conscience to advance political strategies and objectives Through case studies of the United States Saudi Arabia and Russia Peter S Henne demonstrates that religion although not as high profile or well funded a tool as economic sanctions or threats of military force remains a potent weapon in international relations Public policy analysis often minimizes the role of religion favoring military or economic matters as the important arenas of policy debate As Henne shows however at transformative moments in political history states turn to faith based appeals to integrate or fragment international coalitions Henne highlights Saudi Arabia's 1960s rivalry with Egypt the United States's post 9/11 leadership in the global war on terrorism and the Russian Federation's contemporary expansionism both to reveal the presence and power of calls for religious unity and to emphasize the uncertainty and anxiety such appeals can create Religious Appeals in Power Politics offers a bold corrective to those who consider religion as tangential to military or economic might
