New Dimensions In African History:

New Dimensions in African History Yosef Ben-Jochannan, 1991 **African People in World History** John Henrik Clarke, 1993 African history as world history Africa and the Roman Empire Africa and the rise of Islam The mighty kingdoms of Ghana Mali and Songhay The Atlantic slave trade Slavery and resistance in South America and the Caribbean Slavery and resistance in the United States African Americans in the twentieth century Vodou in the Haitian Experience Celucien L. Joseph, Nixon S. Cleophas, 2016-05-05 One glaring lacuna in studies of Haitian Vodou is the scarcity of works exploring the connection between the religion and its main roots traditional Yoruba religion Discussions of Vodou very often seem to present the religion in vacuo as a sui generis phenomenon that arose in Saint Domingue and evolved in Haiti with no antecedents What is sorely needed then is more comparative studies of Haitian Vodou that would examine its connections to traditional Yoruba religion and thus illuminate certain aspects of its mythology belief system practices and rituals This book seeks to bridge these gaps Vodou in the Haitian Experience studies comparatively the connections and relationships between Vodou and African traditional religions such as Yoruba religion and Egyptian religion Such studies might enhance our understanding of the religion and the connections between Africa and its Diaspora through shared religious patterns and practices The general reader should be mindful of the transnational and transcultural perspectives of Vodou as well as the cultural socio economic and political context which gave birth to different visions and ideas of Vodou The chapters in this collection tell a story about the dynamics of the Vodou faith and the rich ways Vodou has molded the Haitian narrative and psyche The contributors of this book examine this constructed narrative from a multicultural voice that engages critically the discipline of ethnomusicology drama performance art anthropology ethnography economics literature intellectual history philosophy psychology sociology religion and theology Vodou is also studied from multiple theoretical approaches including queer feminist theory critical race theory Marxism postcolonial criticism postmodernism and psychoanalysis *The Rule of Law and Governance in Indigenous Yoruba Society* John Ayotunde Isola Bewaji, 2016-08-22 In *The Rule of Law and Governance in Indigenous Yoruba Society* John Ayotunde Isola Bewaji has two main goals The first is to provide an exploration of aspects of indigenous Yoruba philosophy of law The second is to relate this philosophy of law to the Yoruba indigenous traditions of governance with a view to appreciating the relevance of the Yoruba traditions of law and governance to contemporary African experiments with imported Western democracy in the 21st century This book is devoted to what can be described as a juridical forensic investigation of Nigeria's predicament of developmental deficit leading to gross and unconscionable impoverishment of large segments of the population in the midst of so much natural resources and abundant human capital using Yoruba indigenous legal traditions as reflective template Bewaji urges that Africa has to take seriously the necessity of obedience observance enforcement and operation of law as no respecter of persons groups affiliations and pedigrees as was in the case in the societies founded by our ancestors rather than the present scenario whereby the highest

bidder procures semblances of justice from a crooked system of common law which was never designed to be fair equitable and just to the disadvantaged in society *A Glance at Africa* Njoki N. Wane,2009-06 **Caliban's Reason** Paget Henry,2002-05-03 Paget introduces the general reader to Afro Caribbean philosophy in this ground breaking work Since Afro Caribbean thought is inherently hybrid in nature he traces the roots of this discourse in traditional African thought and in the Christian and Enlightenment traditions of Western Europe **History in Black** Yaacov Shavit,2013-11-12 The development of Afrocentric historical writing is explored in this study which traces this recording of history from the Hellenistic Roman period to the 19th century Afrocentric writers are depicted as searching for the unique primary source of culture from one period to the next Such passing on of cultural traits from the ancient model from the classical period to the origin of culture in Egypt and Africa is shown as being a product purely of creative history *Branches of Asanteism* Abdul Karim Bangura,2019-10-03 Branches of Asanteism explores the epistemologies and research methodologies that have sprung from Mwalimu Molefi Kete Asante s treatises on Afrocentricity The book identifies and analyzes thirteen such epistemologies and methodologies while defining and explicating the various branches of Asante s idea of Afrocentricity **Religion and the Critical Mind** Anton K. Jacobs,2012-07-10 Religion and the Critical Mind provides an overview of the Western heritage of the criticism of religion Anton Jacobs surveys criticisms from within and without religion from the time of the Hebrew prophets and classical Greek thinkers until the Enlightenment and shows how developments during the Renaissance Reformation and the scientific revolution laid foundations for later modern critiques While sympathetic to religion Jacobs listens carefully to its best critics and dedicates a chapter to each of the modern critics of religion Voltaire Marx Nietzsche Durkheim Freud and Russell He supplies context for their criticism and gauges their impact on religion While effectively arguing that there are only three real stances a modern person can take on religion and offering an apologia for all religions Jacobs makes a persuasive case in favor of religious participation *The Oxford History of Protestant Dissenting Traditions, Volume IV* Jehu J. Hanciles,2019-03-07 The five volume Oxford History of Protestant Dissenting Traditions series is governed by a motif of migration out of England It first traces organized church traditions that arose in England as Dissenters distanced themselves from a state church defined by diocesan episcopacy the Book of Common Prayer the Thirty Nine Articles and royal supremacy but then follows those traditions as they spread beyond England and also traces newer traditions that emerged downstream in other parts of the world from earlier forms of Dissent Secondly it does the same for the doctrines church practices stances toward state and society attitudes toward Scripture and characteristic patterns of organization that also originated in earlier English Dissent but that have often defined a trajectory of influence independent ecclesiastical organizations Volume IV examines the globalization of dissenting traditions in the twentieth century During this period Protestant Dissent achieved not only its widest geographical reach but also the greatest genealogical distance from its point of origin Covering Africa Asia the Middle East America Europe Latin America and the Pacific this collection provides

detailed examination of Protestant Dissent as a globalizing movement Contributors probe the radical shifts and complex reconstruction that took place as dissenting traditions encountered diverse cultures and took root in a multitude of contexts many of which were experiencing major historical change at the same time This authoritative overview unambiguously reveals that Dissent was transformed as it travelled *Snapshot of Past and Present Historical Events in African Countries* Funso E. Oluyitan Ed.D. Ph.D.,2019-04-17 In this book you will read about the 57 African countries The history of each country begins with the original settlers followed by the European invasion and rule You will read about the countries struggle for independence indigenous governments after independence the emergence of military governments followed by democracy as practiced in Africa today The snapshot of each country is written in less than 1000 words Enjoy the reading

Ethical Research Approaches to Indigenous Knowledge Education Mthembu, Ntokozo,2020-08-14 South Africa s recent higher education protests around fees and decolonizing institutions have shone a spotlight on important issues and inspired global discussion The educational space was the most affected by clashes between languages and ideas the prioritizing of English and Afrikaans over indigenous African languages and the prioritizing of Western medicine literature arts culture and science over African ones Ethical Research Approaches to Indigenous Knowledge Education is a cutting edge scholarly resource that examines forthcoming methodologies and strategies on educational reform and the updating of curricula to accurately reflect cultural shifts The book examines the bias and problems that bias creates in educational systems around the world that have been dominated by Western forms of knowledge and scientific processes Featuring a range of topics such as andragogy indigenous knowledge and marginalized students this book is ideal for education professionals practitioners curriculum designers academicians researchers administrators and students **Knowledge for Tomorrow** Quinton

Douglass Crawford,2005-02 Questions Why are there so many problems on our world Are the children of the world going to be okay What about the other holocausts Why is everyone getting so sick If there is so much money in the world why are there poor people Why are so many things called conspiracies Was it always like this Have today s musical arts benefited anyone Who are the heroes of today and what should we believe for life death What are some ways to fix our world This book is designed to assist you in answering these and other questions It is a compilation of a few months of research Some questions have been left open for you to answer or may be included in another book Again full praise is given to all the women men and children that inspired my research Special appreciation is given to my family friends and those that have crossed over Prof Quinton D Crawford Thanks for reading Knowledge for Tomorrow vol 1 Afrocentricity and the Academy James L. Conyers, Jr.,2015-09-01 Afrocentricity is a philosophical and theoretical perspective that emphasizes the study of Africans as subjects not as objects and is opposed to perspectives that attempt to marginalize African thought and experience Afrocentricity became popular in the 1980s as scores of African American and African scholars adopted an Afrocentric orientation to information The editor of this collection argues that as scholars embark upon the 21st century they can no

longer be myopic in their perceptions and analyses of race The seventeen essays examine a wide range of variations on the Afrocentric paradigm in the areas of history literature political science philosophy economics women s studies cultural studies ethnic studies and social policy The essays written by professors librarians students and others in higher education who have embraced the Afrocentric perspective are divided into four sections Pedagogy and Implementation Theoretical Assessment Critical Analysis and Pan Africanist Thought Living Below the Snake Line Delores Harvey, 2006-06 **J. M. Coetzee and the Politics of Style** Jarad Zimbler, 2014-06-23 J M Coetzee s early novels confronted readers with a brute reality stripped of human relation and a prose repeatedly described as spare stark intense and lyrical In this book Jarad Zimbler explores the emergence of a style forged in Coetzee s engagement with the complexities of South African culture and politics Tracking the development of this style across Coetzee s first eight novels from *Dusklands* to *Disgrace* Zimbler compares Coetzee s writing with that of South African authors such as Gordimer Brink and La Guma whilst re-examining the nature of Coetzee s indebtedness to modernism and postmodernism In each case he follows the threads of Coetzee s own writings on stylistics and rhetoric in order to fix on those techniques of language and narrative used to activate a politics of style In so doing Zimbler challenges long held beliefs about Coetzee s oeuvre and about the ways in which contemporary literatures of the world are to be read and understood African American Philosophers and Philosophy Stephen Ferguson II, John McClendon III, 2019-06-13 This book presents the first introduction to African American academic philosophers exploring their concepts and ideas and revealing the critical part they have played in the formation of philosophy in the USA The book begins with the early years of educational attainment by African American philosophers in the 1860s To demonstrate the impact of their philosophical work on general problems in the discipline chapters are broken down into four major areas of study Axiology Social Science Philosophy of Religion and Philosophy of Science Providing personal narratives on individual philosophers and examining the work of figures such as H T Johnson William D Johnson Joyce Mitchell Cooke Adrian Piper William R Jones Roy D Morrison Eugene C Holmes and William A Banner the book challenges the myth that philosophy is exclusively a white academic discipline Packed with examples of struggles and triumphs this engaging introduction is a much needed approach to studying philosophy today Holding the Line George White Jr., 2005-11-04 The rivalry between the United States and the Soviet Union intensified as Dwight D Eisenhower entered the White House However the burning question for the vast majority of the world s population was not whether they would join the Free World or the Soviet bloc but whether they could achieve meaningful self-determination Nowhere did the answer to that question loom larger than in Africa The Eisenhower administration s confrontation with Africa demonstrates the significance of race in the creation and execution of American foreign policy In this new work historian George White Jr explores the ways in which Eisenhower diplomacy influenced by America s racialized fantasies fears and desires turned the Cold War into a global sanctuary for the rehabilitation of Whiteness In turn American statesmen and bureaucrats justified the undermining of

democracy and freedom by stuffing the multi faceted realities of African aspirations and Western privileges into the straitjacket of a bi polar worldview Using as its foundation American relations with Ethiopia Ghana South Africa and the Congo Holding the Line demonstrates the power of race to warp perception and to severely limit the parameters and possibilities of human engagement Holding the Line provides a fresh perspective on 1950s era U S foreign relations that remain salient in American diplomacy today This is a book that will be of interest to students of American diplomatic history Critical Race and Whiteness studies American studies and international relations
