Supplement - Food and Nutrition Information and Educational Materials Center Food and Nutrition Information and Educational Materials Center (U.S.),1973 **Early Childhood Literacy Teachers in High Poverty Schools** Melissa Landa,2017-11-01 Much has been written about the failure of White American public school teachers to effectively teach low income children of color to read and write Scholars have offered numerous explanations for this failure including the reluctance of teacher preparation programs to address cultural competence and the lack of cultural diversity among teacher educators In response to reported failures such as high attrition rates of novice teachers and low test scores American public schools are being subjected to increased standardization of the curriculum and high stakes testing This book provides rich illustrations of White early literacy teachers who choose to remain in low income school communities where they effectively and passionately embrace their students families and communities Blending the teachers successful practices shown in in depth interviews excavating their identities and life experiences with theoretical frameworks about teaching and learning **Early Childhood Literacy Teachers in High Poverty Schools A Study of Boundary Crossing** discusses the responsibility of public educators to cross geographical economic and political divisions on behalf of their students and offers strategies for teacher educators to equip future teachers for these tasks Teaching Children Science Sally Gregory Kohlstedt,2010-05-15 In the early twentieth century a curriculum known as nature study flourished in major city school systems streetcar suburbs

small towns and even rural one room schools This object based approach to learning about the natural world marked the first systematic attempt to introduce science into elementary education and it came at a time when institutions such as zoos botanical gardens natural history museums and national parks were promoting the idea that direct knowledge of nature would benefit an increasingly urban and industrial nation The definitive history of this once pervasive nature study movement TeachingChildren Science emphasizes the scientific pedagogical and social incentives that encouraged primarily women teachers to explore nature in and beyond their classrooms Sally Gregory Kohlstedt brings to vivid life the instructors and reformers who advanced nature study through on campus schools summer programs textbooks and public speaking Within a generation this highly successful hands on approach migrated beyond public schools into summer camps afterschool activities and the scouting movement Although the rich diversity of nature study classes eventually lost ground to increasingly standardized curricula Kohlstedt locates its legacy in the living plants and animals in classrooms and environmental field trips that remain central parts of science education today
