New Directions In The Study Of Justice Law And Social Control:

New Directions in the Study of Justice, Law, and Social Control School of Justice Studies, 2013-11-11 The publication of this anthology culminates what began as a Visiting Distinguished Scholars Lecture Series sponsored by the School of Justice Studies When Dr John M Johnson was awarded the Arizona State University Graduate College's Distinguished Research Award for 1986-1987 the School faculty voted to use the accompanying stipend to bring several scholars to campus Each visiting scholar was commissioned to present an original paper on contemporary issues in justice and to meet with graduate students and faculty during a week long visit to campus This collection of essays promotes wide ranging conceptions of justice As first conceived we sought to bring an interdisciplinary perspective to the study of justice as a way of intellectually extending the current focus of research and teaching As it developed the collection permitted us to reflect on our own instructional program in law and the social sciences and to promote a conception of social conflict and control which includes social political economic and legal controls

Counseling and the Therapeutic State James J. Chriss, **The Canadian Criminal Justice System** Nick Larsen,1995 The administration of justice is an area of social policy that defies attempts to achieve a balance between order and the protection of the public and respect for individual rights The media contain daily accounts of the failure of the criminal justice system to repress crime It is within this social and legal context that this work is situated In addition to including a range of articles in the standard areas of policing courts and corrections recent articles deal with such controversial issues as aboriginal justice the recruitment of visible minorities by Canadian police forces and the role of women in the Canadian criminal justice system The collection concludes with a critical assessment of the retributive model that currently serves as the philosophical underpinnings of the Canadian criminal justice system **The Therapeutic Corporation** James Tucker,1999 A small but rapidly increasing number of contemporary organizations have adopted management structures that are less centralized and hierarchical than the traditional bureaucratic model In a growing corporate trend that is also expanding into many other areas of modern society these organizations are applying various therapeutic strategies of social control **Contrarian Anthropology** Laura Nader,2018-01-08 Analyzing the workings of boundary maintenance in the areas of anthropology energy gender and law Nader contrasts dominant trends in academia with work that pushes the boundaries of acceptable methods and theories Although the selections illustrate the history of one anthropologist s work over half a century the wider intent is to label a field as contrarian to reveal unwritten rules that sometimes hinder transformative thinking and to stimulate boundary crossing in others Windows Into the Soul Gary T. Marx,2016-05-31 In *Windows into the Soul* Gary T Marx sums up a lifetime of work on issues of surveillance and social control by disentangling and parsing the empirical richness of watching and being watched Ultimately Marx argues recognizing complexity and

asking the right questions is essential to bringing light and accountability to the darker more iniquitous corners of our emerging surveillance society Social Justice in Human Relations Volume 2 Herman Steensma, Riël Vermunt, 2013-06-29

Justice plays an important role in our culture The topic of justice has attracted the attention of scholars all over the world Beginning in 1985 a continuing series of international conferences on social justice in The Netherlands at which scientists present and discuss started papers exchange information and choose new roads to theory building In this volume a selection of papers presented at the International Conference on Social Justice in Human Relations Leiden 1986 is published There has been some refinement and improvement thanks to the comments made by experts in the field The chapters in this volume represent second and in some cases even third or fourth versions of the papers As organizers of the conference and editors of this volume we hope that the reader will be pleased by the content and the high quality of the chapters There is some diversity but there also are some common themes We have organized the chapters with respect to what we think are two important themes 1 behavioral and attitudinal reactions to injustice and 2 macrojustice These categories are not mutually exclusive for some chapters could have been placed in both categories Still we think the distinction between these themes has value **Justice Fragmented** George C.
