New Face Of War:

The New Face of War Bruce D. Berkowitz, 2010-05-11 As American and coalition troops fight the first battles of this new century from Afghanistan to Yemen to the Philippines to Iraq they do so in ways never before seen Until recently information war was but one piece of a puzzle more than a sideshow in war but far less than the sum total of the game Today however we find information war revolutionizing combat from top to bottom Gone are the advantages of fortified positions nothing is impregnable any longer Gone is the reason to create an overwhelming mass of troops now troop concentrations merely present easier targets Instead stealth swarming and zapping precision strikes on individuals or equipment are the order of the day based on superior information and lightning fast decision making In many ways modern warfare is information warfare Bruce Berkowitz's explanation of how information war revolutionized combat and what it means for our soldiers could not be better timed As Western forces wage war against terrorists and their supporters in actions large and small on several continents The New Face of War explains how they fight and how they will win or lose There are four key dynamics to the new warfare asymmetric threats in which even the strongest armies may suffer from at least one Achilles heel information technology competition in which advantages in computers and communications are crucial the race of decision cycles in which the first opponent to process and react to information effectively is almost certain to win and network organization in which fluid arrays of combat forces can spontaneously organize in multiple ways to fight any given opponent at any time America's use of networked elite ground forces in combination with precision guided bombing from manned and unmanned flyers turned Afghanistan from a Soviet graveyard into a lopsided field of American victory Yet we are not invulnerable and the same technology that we used in Kuwait in 1991 is now available to anyone with a credit card and access to the Internet Al Qaeda is adept in the new model of war and has searched long and hard for weaknesses in our defenses Will we be able to stay ahead of its thinking In Iraq Saddam's army is in no position to defeat its enemies but could it defend Baghdad As the world anxiously considers these and other questions of modern war Bruce Berkowitz offers many answers and a framework for understanding combat that will never again resemble the days of massive marches on fortress like positions The New Face of War is a crucial guidebook for reading the headlines from across our troubled planet

Special Warfare, 2007 **Armor**, 2003 **Imaginaries of Connectivity** Luis Lobo-Guerrero, Suvi Alt, Maarten Meijer, 2019-11-20 This edited collection addresses the problem of how the creation of novel spaces of governance relates to imaginaries of connectivity in time While connectivity seems almost ubiquitous today it has been imagined and practiced in various ways and to varying political effects in different historical and geographical contexts Often the conception of new connectivities also gives birth to new spaces of governance The political denomination of spaces whether maritime continental social or virtual reflects the situatedness of power Yet such crafting of new spaces also expresses particular imaginaries and technologies of connectivity that make governance possible Whereas the study of international relations has

traditionally focused on the role of agency and structure in power relations the affects beliefs attitudes and practices that intervene in how groups of people connect in given times have not attracted much scholarly attention Overall the detailed and original case studies examined in the book range from the 16th century to the 19th century to the present and from Spain to the Maritime Alps to Germany to the Mediterranean to China to East Asia The historical and geographical variety of the cases serves to highlight the diversity of the meaning and function of connectivity in the constitution of novel spaces of governance **Professional Journal of the United States Army** ,1992 *Congressional Record* United States.
