## **New Humanity Of Intuition 1938:**

New Humanity of Intuition C. Jinarajadasa, 2013-10 This is a new release of the original 1938 edition *Chicorel Index to Parapsychology and Occult Books* Marietta Chicorel, 1978 **The Theosophist** Helena Petrovna Blavatsky, Henry Steel Olcott, Annie Besant, George Sydney Arundale, 1991 **Ways & Power Of Love** Pitirim A. Sorokin, 2015-10-22 The Ways and Power of Love was originally published in 1954 when Pitirim Sorokin was in the twilight of his career and leading the Harvard Research Center in Creative Altruism His elaborate scientific analysis of love with regard to its higher and lower forms its causes and effects its human and cosmic significance and its core features constitutes the first study on this topic in world literature to date Sorokin was the one absolutely essential twentieth century pioneer in the study of love at the interface of science and religion Bringing The Ways and Power of Love back into print allows a new generation of readers to appreciate Sorokin's genius and to move forward with his endeavor at a time when civilization itself continues to be threatened by a marked inability to live up to the ideal of love for all humankind It is certainly right to hope with Sorokin that progress in knowledge about love can move humanity forward to a better future Turning the sciences toward the study of love is no easy task but it can and must be done **Guide to Reprints** ,2009 Return from Exile Ashis Nandy, 1998 This volume brings together three significant works of Ashis Nandy *Alternative Sciences* *The Illegitimacy of Nationalism* and *The Savage Freud* It is essential reading for social and political scientists and all those interested in the complexities of Indian politics and culture A Carnival for Science Shiv Visvanathan, 1997 This provocative and passionate book contains a critique of science The author argues that violence is encoded in the world view of science and that development is not unequivocally humanitarian but often genocidal **A History of Russian Philosophy 1830-1930** G. M. Hamburg, Randall A. Poole, 2010-04-22 The great age of Russian philosophy spans the century between 1830 and 1930 from the famous Slavophile Westernizer controversy of the 1830s and 1840s through the Silver Age of Russian culture at the beginning of the twentieth century to the formation of a Russian philosophical emigration in the wake of the Russian Revolution This volume is a major history and interpretation of Russian philosophy in this period Eighteen chapters plus a substantial introduction and afterword discuss Russian philosophy's main figures schools and controversies while simultaneously pursuing a common central theme the development of a distinctive Russian tradition of philosophical humanism focused on the defence of human dignity As this volume shows the century long debate over the meaning and grounds of human dignity freedom and the just society involved thinkers of all backgrounds and positions transcending easy classification as religious or secular The debate still resonates strongly today **Alexandre Kojève** Luis J. Pedrazuela, 2024-04-08 This edited volume addresses Alexandre Kojève's work from different perspectives emphasizing the continuity between his early reception of a set of non philosophical and philosophical influences and that which he might have sought himself to exercise in a pedagogical and practical manner The first part of the book comprises six essays in which their authors explore Kojève's understanding of art religion and

atheism and his reception of the thought of Hegel Marx and Carl Schmitt The book's second part is made up by two contributions that tackle respectively Kojve's conceptions of the end of history and empire in the light of his notion of Sophia or Wisdom and his understanding of the relationship between philosophy and power in the light of an exegetical reading of the debate he held with Leo Strauss The authors of the final three essays set out to explore the extent to which Kojve's previous processing of a set of non philosophical and philosophical influences might have resulted in three increasingly concrete outcomes namely his notion of authority the Lacanian mirror stage and global trade

**Parapsychology** Etzel Cardeña, John Palmer, David Marcusson-Clavertz, 2015-08-14 Many people have experienced such unusual phenomena as dreams that later seem to correspond with unforeseeable events thinking of a long lost friend just before he or she unexpectedly calls or the ability to feel the presence of deceased loved ones What many do not realize is that these types of experiences have been researched for more than a century by eminent scientists including Nobel laureates Most of these researchers have concluded that some of these phenomena do occur although we are far from explaining them to everyone's satisfaction This book is the first in almost 40 years to provide a comprehensive scientific overview of research in the field of parapsychology explaining what we know and don't know about so called psi phenomena such as telepathy precognition or psychokinesis Contributors evaluate the evidence for these phenomena accounting for factors such as selective memory wish fulfillment and incorrect methods or analyses in some cases offering psychological physical and biological theories

**Cognitive Work Analysis** Kim J. Vicente, 1999-04-01 This book describes for the first time in pedagogical form an approach to computer based work in complex sociotechnical systems developed over the last 30 years by Jens Rasmussen and his colleagues at Ris National Laboratory in Roskilde Denmark This approach is represented by a framework called cognitive work analysis Its goal is to help

**Military Review**, 2000 *Developing Leaders by Executive Coaching* Andromache Athanasopoulou, Sue Dopson, 2015 This book offers an overview of the executive coaching field what the coaching practice involves and who are its key stakeholders It assesses the empirical research on executive coaching outcomes and links the executive coaching field with the fields of leadership and leadership development

**L2 Interactional Competence and Development** Joan Kelly Hall, John Hellermann, Simona Pekarek Doehler, 2011 Drawing on data from a range of contexts including classrooms pharmacy consultations tutoring sessions and video game playing and a range of languages including English German French Danish and Icelandic the studies in this volume address challenges suggested by these questions What kinds of interactional resources do L2 users draw on to participate competently and creatively in their L2 encounters And how useful is conversation analysis in capturing the specific development of individuals interactional competence in specific practices across time Rather than treating participants in L2 interactions as deficient speakers the book begins with the assumption that those who interact using a second language possess interactional competencies The studies set out to identify what

these competencies are and how they change across time By doing so they address some of the difficult and yet unresolved issues that arise when it comes to comparing actions or practices across different moments in time      *Moral and Political Values in Teacher Education over Time* Nick Mead,2022-08-19 This collection brings together international teacher educators to employ a long view of an historic and values based dialectic in teacher education The authors reflect how employing historical consciousness to look back can offer greater continuity to teachers moral and political values within their training The book draws on research from experienced teacher educators representing different historical social and political contexts in North America Europe Asia as well in post conflict South Africa Within each section the authors reflect on the development of the moral and political values of pre service and in service teachers in an era of global neo liberalism and how this is inextricably bound up with the narratives of professionals in the past within their own national context Each chapter takes a long view of the role of historical consciousness in informing the moral and political values of pre service and in service teachers providing examples of how international teacher educators can collectively support one another in restoring a vibrant values based dialectic within the processes pedagogies and provision of university and school based training for which they are responsible The long view approach offers a compelling argument for the need to connect pre service and in service teachers values and narrative to the legacy of professionals of the past *Moral and Political Values in Teacher Education over Time* will be of great interest to researchers academics and students in teacher education comparative education and the history of education It will also be of interest to international university and school based teacher educators and policymakers in the field      *Philosophies of Nature After Schelling* Iain Hamilton Grant,2008-12-23 A lucid and crucial account of Schelling s major works in the philosophy of nature now available in paperback      *Design at Work* Joan Greenbaum,Morten Kyng,2020-10-28 The contributors to this important volume begin with a simple premise Computer system development is difficult not primarily because of the complexity of technical problems but because of the social interaction involved when users and designers learn to create programs and express ideas together Based on this important concept they offer concrete suggestions for ways that system developers can experiment with new perspectives and techniques for cooperating with users especially during the early phases of the design process The editors primary goal is to stimulate the creation of useful computer systems systems that support and sustain the fragile relationship of the people the working environment and the computer technology itself      *Group Action* T. Martin Ringer,2002 Martin Ringer an internationally known consultant and writer on group psychology here outlines techniques for understanding groups that will be relevant to those who lead teams in any setting The result is an accessible guide both to leading a group and to understanding the necessary dynamics that will result in the best team work      **The Transfer of Learning** Sarah Leberman,Lex McDonald,2016-02-17 The book addresses a crucial issue for all involved in education and training the transfer of learning to new and different contexts Educators employers and learners face the problem of ensuring that what

is learnt in the classroom is able to be adapted and used in the workplace It focuses on adult learners in professional and vocational contexts The authors provide an accessible book on the transfer of learning which draws on multi disciplinary perspectives from education psychology and management The Transfer of Learning will be useful both for postgraduate students and for practitioners wanting to deepen their understanding of transfer and for those interested in practical applications It combines theory and practice from international research and the authors own case studies of transfer involving learners engaged in professional development and study towards qualifications Theories of adult learning change and lifelong learning are discussed in relation to the transfer of learning The purpose of this book is to emphasise to tertiary educators and trainers the importance of transfer and in doing so highlight the participants voices as central foci in coming to an understanding of the process By doing this it balances the literature which has to date emphasized transfer from a trainer s and or organization s perspective There has been little if any substantive material on tertiary transfer issues and yet demands are increasing for tertiary education providers to be more accountable and more focused on developing students ability to use their learning in everyday work situations The book is unique in that it adopts a phenomenological perspective and underscores the significance of the participants voices in understanding issues
