Queer Books of Late Victorian Print Culture Frederick D. King, 2024-05-31 Queer books like LGBTQ people adapt heteronormative structures and institutions to introduce space for discourses of queer desire Queer Books of Late Victorian Print Culture explores print culture adaptations of the material book examining the works of Aubrey Beardsley Michael Field John Gray Charles Ricketts Charles Shannon and Oscar Wilde It closely analyses the material book including the elements of binding typography paper ink and illustration and brings textual studies and queer theory into conversation

with literary experiments in free verse fairy tales and symbolist drama King argues that queer authors and artists revised the Revival of Printing's ideals for their own diverse and unique desires adapting new technological innovations in print culture. Their books created a community of like-minded aesthetes who challenged legal and representational discourses of same-sex desire with one of aesthetic sensuality.

The Murder of Charles the Good Galbert (de Bruges), 2005. And it should be known that I Galbert a notary though I had no suitable place for writing set down on tablets a summary of events and in the midst of so much danger by night and conflict by day I had to wait for moments of peace during the night or day to set in order the present account of events as they happened and in this way though in great straits I transcribed for the faithful what you see and read.

From *The Murder of Charles the Good*. On March 12 1127 Charles the Good Count of Flanders was slain in the church of Saint Donatian in Bruges in a plot devised by an embittered noble family. Known for creating laws to protect and help the poor Charles the Good's assassination sent ripples throughout Europe affecting the balance of power between England France and the Holy Roman Empire. It also threw Flemish society into chaos as this prosperous region became engulfed in a brutal struggle for power. With a journalistic eye Galbert of Bruges a notary and cleric presents a riveting portrait of the day-to-day political and social unrest that followed in the wake of Charles's murder and the military battles to control Flanders. Historians have long recognized *The Murder of Charles the Good* as a remarkable point of entry for understanding the most important political legal and social issues that confronted medieval Europe: definitions of freedom and servility the competing claims of national and royal sovereignty and the rise of the bourgeoisie.

The Deeds of Frederick Barbarossa Otto I (Bishop of Freising), Rahewin, 2004. *The Deeds of Frederick Barbarossa* is the official biography of German king and Holy Roman Emperor Frederick I. This historical firsthand account was begun by his maternal uncle Bishop Otto of Freising the leading medieval church figure and notable historian and continued by a less well-known cleric Rahewin. This chronicle is the single most important source for the early reign of Frederick Barbarossa and the most valuable biographical study to come out of the twelfth century. In a letter written to his uncle Frederick recounted his life and the principal events of his reign. The first of the four books that constitute this account were written by Otto and cover events from 1075 to 1152 from the reign of Henry IV through that of Conrad III. The second book draws heavily on the letter providing invaluable insight into Frederick's attempts to establish and consolidate the Hohenstaufen empire. The final two books written by Rahewin follow the emperor's reign through 1160 during which time Frederick restored order at home recovered imperial control of Burgundy and re-created an imperial party in Italy.
