Психология, техника, тактика и стратегия Брэтт Стинбарджер, 2023-05-03 **Mejorando el rendimiento del trader** Brett N. Steenbarger, 2023-09-11. En *Mejorando el rendimiento del trader* se muestra cómo usar la psicología en el trading. A través de sus propias experiencias y las de las personas a las que ha asesorado, el Dr. Brett Steenbarger muestra diferentes estrategias que multiplican los rendimientos. El tema central de su libro *La psicología del trading* es que los problemas emocionales a los que se enfrentan los traders son extensiones de los mismos riesgos e incertidumbres de la vida. Ahora Steenbarger mantiene esta idea fortificando la concepción del trading como una disciplina de rendimiento que puede cultivarse a través de los mismos tipos de actividades de entrenamiento que generan experiencia en ámbitos tan diversos como el atletismo, el ajedrez y las artes escénicas. No hay que dejar de mirar hacia el futuro. Si tu ambición es desarrollar tu experiencia inversora, sabes lo que necesitas para adquirir las habilidades necesarias para un éxito sostenido. Así como un aspirante olímpico, lo que se interpone entre tú y la oportunidad de conseguir el oro es la formación: transformar el talento en habilidades y las habilidades en rendimiento. Este libro es sobre el desarrollo de los traders, pero también sobre el rendimiento en cualquier ámbito de la vida diaria. El objetivo del autor es ayudar a los traders a pensar y replantearse lo que hace falta para alcanzar un rendimiento óptimo. Hay muchas propuestas en el mundo del trading que prometen el éxito en función de lo que se aprende: gráficos, indicadores, pantallas y habilidades de autoayuda. Sin embargo, hay pocas guías que indiquen el camino de la experiencia. El propósito del libro es que se convierta en una guía para tí, no sólo en el trading, sino en todas las áreas de su vida en las que el rendimiento cuenta. **Bibliographic Index**, 2006 *JAMA* JULY 13, 2005, 2005 **Neurofeedback**
