Brown, 2013-01-11 Rape remains one of the most controversial issues within criminal justice and receives high profile coverage internationally Despite the many changes there have been to the law practice and procedure in the investigation of rape allegations and support available for victims victims are routinely blamed for their victimization Only a very small number of perpetrators ever face prosecution let alone conviction This book aims to take stock of current thinking and

research about rape and the way it is handled in practice within the criminal justice system and to challenge some of the widely held but inaccurate beliefs about rape. It brings together leading researchers in the field from psychology, sociology, and law, considering new research and presenting new data from a strong theoretical and contextual base. The main focus of the book is on adult victims of rape, with chapters exploring such issues as rape and the media, the use of alcohol and drugs in rape, police decision making on rape cases, conviction patterns in rape trials, and interviewing victims of rape and sexual assault.

American Families Stephanie Coontz, Maya Parson, Gabrielle Raley, 1999. A reader for a two quarter seminar on race, class, and gender in family scholarship. Selections shed light on debates in family diversity, revealing that in every historical period the US has had several distinct but interconnected family systems, all of which form part of a larger constellation of power relations, unequal access to resources, and struggles over ideological representations of family life. Topics include American Indians and the boarding school experience, social science theorizing for Latino families, gay and lesbian families, and biracial identity. No index. *Classics in Lesbian Studies* Esther D. Rothblum, 2013-08-27. *Classics in Lesbian Studies* takes a major step in giving the lesbian experience its own unique voice within scholarship and the larger world society. Thus it is devoted exclusively to the lesbian experience and serves as a vehicle for the promotion of scholarship and commentary on lesbianism from an international perspective. Not only does it ensure that classic pieces are not forgotten by new generations of students and scholars, it also spurs further lesbian research, writing, theory, and scholarship. In *Classics in Lesbian Studies*, you are introduced to descriptive, theoretical, empirical, applied, and multicultural perspectives in the field of lesbian studies. Interdisciplinary, the book presents pieces from various academic areas in multiple formats, including personal accounts, poetry, editorials, debates, and commentaries. For your convenience, the chapters are organized primarily across four categories: identity, history, and literature; physical and social sciences; and back to lesbian politics. You will find the discussions of the following issues and subjects: provocative and insightful ways black women in the diaspora construct and name their sexual and romantic feelings for other women; lesbian identity formation in a changing social environment; how lesbians maneuver in the dominant culture and their own subculture; lesbianism as a political movement; the experiences of lesbian adolescents; teaching lesbian studies; lesbians and societal institutions, including the work place, the media, the political arena, the legal system, and religion; using lesbian feminist scholarship to reexamine women's lives in the past. Students, scholars, lesbian feminists, and others interested in lesbian studies will find *Classics in Lesbian Studies* a vital examination of lesbianism since its grass roots. Not only does it consider the progress made since the initial days of fighting for liberation, it also explores a more distant, repressed past and anticipates future possibilities lying before us. This powerful, insightful collection is sure to become a classic as it grapples with virtually all aspects of lesbianism, from its inception as a political movement to its identity as a lifestyle choice to its implications of community.

**Contextualizing Domestic Violence** Jennifer Andrus, 2015-01-07. Language ideology is a

concept developed in linguistic anthropology to explain the ways in which ideas about the definition and functions of language can become linked with social discourses and identities In *Entextualizing Domestic Violence* Jennifer Andrus demonstrates how language ideologies that are circulated in the Anglo American law of evidence draw on and create indexical links to social discourses affecting speakers whose utterances are used as evidence in legal situations Andrus addresses more specifically the tendency of such a language ideology to create the potential to speak for appropriate and ignore the speech of women who have been victims of domestic violence In addition to identifying specific linguistic strategies employed in legal situations she analyzes assumptions about language circulated and animated in the legal text and talk used to evaluate spoken evidence and describes the consequences of the language ideology when it is co articulated with discourses about gender and domestic violence The book focuses on the pair of rules concerning hearsay and its exceptions in the Anglo American law of evidence Andrus considers legal discourses including statutes precedents their application in trials and the relationship between such legal discourses and social discourses about domestic violence Using discourse analysis she demonstrates the ways legal metadiscourses about hearsay are articulated with social discourses about domestic violence and the impact of this powerful co articulation on the individual whose speech is legally appropriated Andrus approaches legal rules and language ideology both diachronically and synchronically in this book which will be an important addition to ongoing research and discussion on the role legal appropriation of speech may have in perpetuating the voicelessness of victims in the legal treatment of domestic violence
