### **"More and more plugged" Social Representations of the New Economy** Alexandra Steinberg,2002-08-12

Inhaltsangabe Abstract This study set out to explore representations of the new economy amongst business professionals in Internet enabled business Going beyond the new economy hype the study was aimed at understanding the ways that business professionals make sense of the contemporary economy In doing so a social psychological perspective was taken allowing multiple realities to emerge Behavioural economists and economic psychologists conceptualisations of economic life are challenged They hinge on the presumption that individuals act independently from their social environment and deviate as cognitive misers from a single legitimate economic rationality By contrast this study drew on a social constructionist

framework More specifically it employed social representations theory Moscovici 1961 76 Moscovici 1984 which rehabilitated common sense as a legitimate form of knowledge The theory of social representations as a theory of knowledge proved as a sensitive and more sophisticated tool to analyse contemporary economy in its manifestations in professionals common sense It is suggested to view the notion of common sense independently of role constellations Given this framework this study took a snapshot of the contemporary representational field of the new economy amongst business professionals Particularly the study was focused on exploring the taken for granted and beliefs underpinning discourses and symbols Data from semi structured interviews and an in depth analysis of Web sites highlighted new findings Business professionals have constructed symbolic meaning centring around the notion of interaction Economic and social beliefs were not separated Interaction is the new economy The new and seemingly unlimited digital connectivity was perceived as a challenge and triggered a symbolic creation of a new space the faceless space of interaction Meanings around the faceless space of interaction are constructed in strong contrast to physical proximity and shared experience in communities the face to face space From numerous interlocking discourses and images a core set of values emerged at the heart of the representational field deeply embedded in professionals common sense Representations of new technology of business professionals skills and roles in the new economy of space and time were informed by symbolic coping with the challenges posed by the faceless space This was evident in situative New Frontiers in HRD Monica Lee,Jim Stewart,Jean Woodall,2004-06-24 Contributions from a number of leading international scholars explore the boundaries of the field of Human Resource Development and present an innovative and challenging approach to HRD theory and practice *Rising to the Challenge* National Research Council,Policy and Global Affairs,Board on Science, Technology, and Economic Policy,Committee on Comparative National Innovation Policies: Best Practice for the 21st Century,2012-08-06 America s position as the source of much of the world s global innovation has been the foundation of its economic vitality and military power in the post war No longer is U S pre eminence assured as a place to turn laboratory discoveries into new commercial products companies industries and high paying jobs As the pillars of the U S innovation system erode through wavering financial and policy support the rest of the world is racing to improve its capacity to generate new technologies and products attract and grow existing industries and build positions in the high technology industries of tomorrow Rising to the Challenge U S Innovation Policy for Global Economy emphasizes the importance of sustaining global leadership in the commercialization of innovation which is vital to America s security its role as a world power and the welfare of its people The second decade of the 21st century is witnessing the rise of a global competition that is based on innovative advantage To this end both advanced as well as emerging nations are developing and pursuing policies and programs that are in many cases less constrained by ideological limitations on the role of government and the concept of free market economics The rapid transformation of the global innovation landscape presents tremendous challenges as well as important opportunities for the United States This

report argues that far more vigorous attention be paid to capturing the outputs of innovation the commercial products the industries and particularly high quality jobs to restore full employment America s economic and national security future depends on our succeeding in this endeavor *Innovation and Small Business - Volume 1* , **The New Economy** ,2001
