New Frontiers In Regional Science

Manas Chatterji, Robert E. Keunne

New Frontiers In Regional Science:

New Frontiers in Regional Science: Asian Perspectives, 2016 New Frontiers in Regional Science Manas Chatterji, 1990 The first volume of a two volume tribute to Walter Isard the founder of regional science and peace science as rigorous academic disciplines In volume one 19 papers in two sections Optimal spatial patterning of goods and services and Regional and urban development theoretical issues propound new theoretical problems in regional science new th **New Frontiers in Regional Science** Manas Chatterji, Robert E. Keunne, 1990-06-18 The first in a two volume tribute to Walter Isard the second being Dynamics and Conflict in Regional structural Change this book looks at new frontiers in regional science Together they contains 50 papers by experts in this field and look at subjects such as location theory **Great Minds in Regional Science** Peter Batey, David Plane, 2020-07-31 This is the first volume in a new series on Great Minds in Regional Science which seeks to present a contemporary view on the scientific relevance of the work done by great thinkers in regional science It presents among others Walter Isard Martin Beckmann and Gunnar Myrdal Each contribution combines factual biographical information a description of their major contributions and a discussion of the broader context of the work as well as an assessment of its current relevance scientific recognition and policy impact The book attempts to fill a gap in our knowledge and to respond to the growing interest in the formation and development of the field of regional science and its key influential figures **Principles of Regional Science** Zheng Wang, 2017-10-17 This book summarizes the research findings in regarding a region as a rational and abstract concept and explores the principles of regional science Focusing on location theory spatial dynamics and regional evolution theory it stresses that the region as a scientific concept is an essential abstract of an economic entity of a place While it introduces a number of case studies the content is general and universal rather than specific Beginning with location theory the basis of regional science it explains how regions breed their own characteristics as economic entities against a background of place For example it discusses the location theory of the tourism industry and analyzes issues of facility location and R D industry location theory The second part of the book addresses interactions with the spatial dynamics including the dynamic mechanism of regions against a background of space Spatial dynamics which includes concepts from statistical physics provides insights into the dynamic mechanism of aggregation diffusion and industrial clustering in regional science as well as in geography and economics The book then describes regional dynamics as a development of spatial dynamics REGION is completely independent as a research object and is no longer part of spatial dynamics This book also discusses in detail regions as the dynamic characteristics of the economy or the basic characteristics of a certain place and examines the theory of regional evolution It argues that regions are evolution and irreversible features of development with path dependence which are the characteristics of a region that differ from general economic phenomena This book by Professor Zheng Wang is outstanding Its focus on Regional Science will open this area up to a wide variety of theoretical and applied researchers I recommend the work without reservations It

covers critically important principles in the field and should be read and used by students faculty and applied researchers doing policy analysis I can see this as an important handbook and reference work as well as a textbook in the field Kingsley Haynes *Development Studies in Regional Science* Zhenhua Chen,William M. Bowen,Dale Whittington,2020-02-21 This book examines major policy and planning issues in development studies from the regional science perspective It investigates questions such as How are communities able to deal with uncertainties raised by conflicts technology and external shocks in the process of development How can nations achieve sustainable development in terms of resource allocation and management and How can developing countries improve their economic competitiveness while maintaining the objectives of equitable and coordinated growth among different regions using case studies that focus on different subfields like infrastructure environment data science sustainability and resilience The book is organized in three parts Part I clarifies fundamental issues regarding development studies and regional science in general while Part II includes several case studies that address development related opportunities and challenges with a focus on Asian countries Lastly Part III offers a global perspective and explores development experiences from countries throughout the world Featuring contributions by leading academics and practitioners working at various organizations linked to international development and including multidisciplinary analyses the book appeals to students who are interested in development studies and regional science It also offers planners and policymakers fresh insights into regional economic development *A Broad View of Regional Science* Soushi Suzuki,Roberto Patuelli,2021-01-19 This book celebrates the life and work of Peter Nijkamp whose research provides a strong focus on regional science His work follows a rigorous comprehensive approach centred around analytical modelling and methodological innovation This edited volume like Prof Nijkamp s research covers a wide range of topics in regional science analysed through multi criteria evaluation evaluation modelling econometrics and simulations among other methods These tools are applied to the analysis of society and culture tourism and information cities environment and sustainability Professor Nijkamp is one of the founders and the past president of the Regional Science Association International His work forms a valuable reference for researchers scholars policymakers and students in the field of regional science and other disciplines This volume timed to coincide with his 75th birthday celebrates Prof Nijkamp s great contributions to regional science He also promoted and participated in the education and development of young researchers not only in regional science but also in other fields supervising many Ph D students and hosting even more as guests in Amsterdam Contributors to this volume include Prof Nijkamp s former doctoral students and guest researchers as well as associates and colleagues *Regional Science: Perspectives for the Future* Manas Chatterji,2016-07-27 This book contains up to date original contributions by some of the world s best known experts in the area of urban and regional science Regional science provides the theoretical basis of urban and regional planning The subject covers such topics as regional development regional accounts spatial price computation regional and interregional knowledge networks and measurement

of regional quality of life A considerable amount of change has taken place in the spatial pattern of socio economic activities and their interactions over the last half of the century leading to the need for more advanced tools of analysis in regional science This book fulfils this need **Theory and History in Regional Perspective** Masamichi Kawano,Karima Kourtit,Peter Nijkamp,Yoshiro Higano,2022-05-14 This collection of essays presents insight and methodology that are highly relevant for readers today as they consider the future of the world they live in Experiencing the COVID 19 pandemic people have realized how fragile the current economy is and the necessity for reconstructing the socio economic system That system which was considered the default for so long was succeeded by the analytical framework of economics and regional science The contents of this book are diversified as are the achievements of Prof Yasuhiro Sakai to whom this volume is dedicated and cover a wide area from mathematical and experimental economics to conventional and emerging fields of regional science Some are timeless topics that have had new life breathed into them Part I deals with among other areas risk management with uncertain events the effectiveness and impacts of regulation and friction related to trading the stability of strategic behavior and market equilibrium and sustainable regional development and urban planning from the long term perspective Part II also presents a diversity of subjects including input output analysis and computable general equilibrium CGE modelling for internal as well as external structure and network linkage such as a value chain openness and creativity as related to competition among cities and regions dispersion versus concentration and inequality versus equality

Socioeconomic Environmental Policies and Evaluations in Regional Science Hiroyuki Shibusawa,Katsuhiro Sakurai,Takeshi Mizunoya,Susumu Uchida,2016-09-07 This book is a volume of essays celebrating the life and work of Yoshiro Higano professor of Environmental Policy Doctoral Program in Sustainable Environmental Studies Graduate School of Life and Environmental Sciences University of Tsukuba Japan Prof Higano s research strongly focuses on the comprehensive evaluation of resources and research content for decision science and engineering including simulation modeling for environmental quality control the evaluation of environmental remediation technologies integrated river lake basin management and synthesized environmental policy Yoshiro Higano is the past president of the Regional Science Association International RSAI and the current president of the Japan Section of the RSAI JSRSAI He also served as executive secretary for the Pacific Regional Science Conference Organizations PRSCO This edited volume covers a wide range of regional science approaches theory policy evaluation modeling simulation and practice It is a valuable reference work for researchers scholars policy makers and students in the field of regional science The volume celebrates Prof Higano s contributions to the JSRSAI PRSCO and RSAI Essay contributors include his former students and a wide array of regional scientists each with a personal connection to Prof Higano Land Use Compendium ,1998 **Regional Economic Analysis of Power, Elections, and Secession** Moriki Hosoe,2018-01-30 The main object of this book is to explain some of the mechanisms of integration and secession among regions from the point of view of game theory To attain this goal the

incentives of regions in a country to unite or to secede and the conditions in the way for the member countries of a federation to leave peacefully are examined Tensions over secession have become more and more serious including separatist tensions in China India Iraq Myanmar and Sri Lanka Studies included in this book stress differing preferences in the type of policy in each region and the influence of a third region on the power of secession Decentralization strategies of tax subsidy policy and governance policy in a political or economic group composed of two regions are shown to be important as a way to avoid wasteful conflict for the secession incentive of a minority region How those incentives depend on heterogeneity costs associated with different preferences over the type of region and the relative size of the two regions is shown Also provided is an analytical framework in which secessions are the equilibrium outcome of explicit civil conflict where regions with different preferences invest in costly conflict activities Finally an empirical analysis is made of determinant factors of secession movements in many regions to verify the validity of our theories of secession This book is recommended to researchers who are interested in a new economic geography and an interdisciplinary approach for regional economics

Sustainable Growth and Development in a Regional Economy Tohru Naito,2015-09-18 This is the first book to provide readers with a theoretical and empirical analysis of sustainable economic growth in Asian countries Recently most Asian countries have achieved rapid economic growth and their existence cannot be ignored in the world economy However these countries now face the serious problems that have confronted more developed countries such as environmental problems social security and unemployment Rapid economic growth has brought environmental pollution regional disparities and serious congestion due to insufficient infrastructure Thus it is necessary to understand the background economic mechanism in order to find the prescription for each problem This book is intended not only for the researcher but also for the policy maker for both of whom it provides the basic methods for analyzing regional problems from the points of view of endogenous economic growth theory environmental economics and spatial economics This work presents theoretical as well as empirical analyses Particularly we cite the

examples of Asian countries Japan China Korea Thailand and others The aim is for readers to apply the theories in this book to the above mentioned problems in Asian countries as an aid in policy making The authors are specialists in macroeconomics public economics environmental economics transportation economics and spatial economics all of which are important aspects of regional science **Entrepreneurship and Social Innovation for Sustainability** Sohel Rana,Lily

Kiminami,Shinichi Furuzawa,2022-11-04 This book aims to assess the roles of entrepreneurship and social innovation for socio cultural changes It also evaluates farmers performance in disaster risk management at a community level toward sustainable regional development in a rural haor region of Bangladesh To achieve the purpose of the research both a qualitative method Trajectory Equifinality Modeling TEM and a quantitative method Structural Equation Modeling SEM are introduced based on the results of case studies on local entrepreneurs interview and focus group discussions with stakeholders and questionnaire surveys of farm households First the results clarify that social capital is critically important both for male and female entrepreneurs in the haor region and that education is more important to women for empowerment and technology adoption in the entrepreneurial ecosystem in the haor region of Bangladesh In addition it makes clear that the Common Interest Group approach plays a role for women s empowerment in the target region Furthermore it identifies the multi causal relationships among the factors affecting farm households performance in disaster risk management at the community level This book helps readers to understand regional development through social and cultural transformation in a rural community where poverty and gender discrimination are path dependent problems *The Economics of International Security* Manas Chatterji,Henk Jager,Annemarie Rima,2016-07-27 The objective of this book is to present an integrated set of original papers from leading authorities in the field related to optimal balance between arms reduction and regional and international security The emphasis is on economics and management rather than politics and diplomacy Economics of Cities Jean-Marie Huriot,Jacques-François Thisse,2000-02-13 This integrated collection of essays exploring the economic theory of cities assembles work by a number of the world s leading exponents **The Indonesian Economy and the Surrounding Regions in the 21st Century** Budy Prasetyo Resosudarmo,Yuri Mansury,2024-04-05 This book broadens the

reader s knowledge of several important issues having to do with the economy of Indonesia and its surrounding regions to which Professor Iwan Jaya Azis has made significant contributions in the last 40 years The book is divided into three parts the first of which contains several chapters describing fundamental methods in regional economics development economics macroeconomics and finance These methods are crucial in understanding the political economy of Indonesia and the neighboring regions Among the techniques discussed are social accounting matrix SAM analysis computable general equilibrium CGE modeling and agent based modeling ABM approaches The second part is on several important issues related to the Indonesian economy The topics covered are urbanization resource booms manufacturing and micro and small enterprises The book s third part deals with the economies of several countries in the neighboring Southeast Asian region

including the Philippines Vietnam and Thailand **Advances in Local Public Economics** Minoru Kunizaki, Kazuyuki Nakamura, Kota Sugahara, Mitsuyoshi Yanagihara, 2019-02-23 This book introduces recent developments in both theoretical and empirical analyses of local public economics Theories of those economics as well as empirical analyses have been developed dramatically in various directions in recent years One direction has been to reflect real economic circumstances especially in Japan In the early 2000s Japan experienced the so called great merger or consolidation of municipalities in the Heisei era 1999 through the present with the number of municipalities shrinking from 3 232 to 1 821 for increasing administrative and financial efficiency This phenomenon is mainly due to a drastic change in demography in Japan the diminishing birthrate and aging population Following the consolidation regional coordination has been undertaken to raise overall administrative and financial efficiency In sum various types of public policies for tackling the decreasing birthrate and aging population have been carried out Urban sprawl and the timing of municipal mergers are dealt with from a broad point of view and public child care services and tax competition are investigated from a policy standpoint Another direction has been to incorporate new ideas for forming theoretical frameworks for local public finance most of which have been based on static situations In the recent trend toward globalization local governments have attended not only to the welfare of residents but also to the interests of regional economic development In addition decision making by local governments has tended to be affected by political activities Thus the endogenous growth setting and lobbying activities for the activities of local governments are discussed in the book With these new directions for analyses the author tackles the topics of tax competition cross border shopping local provision of public goods and soft budgets thus covering a broad range of aspects of local public finance **The Social City** Yasuhiro Kawahara, Saburo Saito, Junichi Suzuki, 2023-03-20 This book is the first coherent presentation of the latest research and practices concerned with how recent advances in mobile information and communication technology ICT and the Internet of Things IoT are utilized to enhance the value of the city and change the way that city planning and management are carried out Its salient feature is the pursuit of the individual oriented evaluative point of view regarding the city This view considers the value of the city to be the total of visit values individuals feel and appreciate when they visit the city The visit value is conceptualized as the intangible asset value of the attractiveness of the city that visitors form in their minds based on their experiences and activities in the city transactions with city space and communications with other people Visitors to the city may well be quite heterogeneous individuals with different motives and preferences Thus to enhance the value of the city quite different visit values of heterogeneous individuals should be enhanced simultaneously which necessitates the use of ICT and IoT in living spaces Based on this view the city utilizing ICT and IoT to enhance the value of the city is called the social city Whereas many other books deal with the impacts of the advances in mobile ICT on the city they only discuss how these advances change the infrastructure of the city but do not discuss how these technological advances can be utilized to enhance the city s value This book first develops the concept of

the social city based on an individual micro behavioral approach Then it presents the latest studies on technological components of the social city such as the human sensing technology for estimating individual behavior decision making and mood the visualizing technology of the thermal 3 dimensional environment of the city and the social sensing technology using social networking service SNS for measuring and creating an atmosphere of city space Finally it envisages the future of the social city
